"Public opinion is a fraud." 'Society is a sham and a deceit."

"The world is traveling too rapidly for Christian safety."

"The trouble with the children of God is that they don't think."
"Modern Christians do not give an average of 15 minutes a day to serious meditation."

Hishop Cranston signalzed his return to Portland by preaching a most

to think, and that the present age was getting to be one of no deep convictions. In the hurry and pell-nell rush for business and money-making Bishop Cranstou saw a grave danger. The church, he said, had been caught up in the maelstrom, and Christianity was being swept along, and all because the followers of God's teachings were not devoting time to serious thinking.

The divine drew a pretty picture of the Buddhists and Brahmins and the time they gave up to silent meditation, and how at last they received their inspiration. He insisted that not one in ten members of the congregation gave up 15 minutes to serious thought of God, and he made an exceptionally strong plea for them to devote at least 30 minutes out of each day to religious thought. If this were done Bishop Cranston predicted that a religious uprising, such as would turn the world upside down, would result.

"There can be no soul salvation without thought" said F1 hop "You must separate yourself from the mass, for the only honest hours we have are those that are spent alone. It is impossible to think an honest thought in public. We have improved on the teachings of the ancients 100 rapidly for safety, in the rush and hurry we have forgotten to think seriously, deeply and, unless more time is spent with cold, a mighty crash will follow. Habit p. ssesses mind, and unless we get into the habit of daily thinking of God we are lost.

About ten pounds of the rich ore has been extracted, and the streak is being jealously guarded and every particle of ore saved.

For richness it is the most sensational strike made in Oregon for many years. The Sunset group is owned by W. H. Dodge, of this city, and C. Runyard, of Blue River. Many Portland people are interested in the mines of that section and news of the strike was received with much gratification .-Evening Telegram.

NEW FURNACE-

A brau new furnace is being placed in the basement of the Presbyterian church which is a credit to the place. The old one has long been of little account and often the room has been colp and disagreeable, making it very unpleasant for the congregation that regularly assemble for worship —'twill be so no more.
