The Republican Central Committee of Lane county, Oregon, is hereby called to meet at Eugene, Oregon, Saturday, the 20th day of February, 1904, at 1:30 o'clock p. m. for the purpose of arranging for the holding of the primaries and county convention and issuing a call therefor, and transacting such other business as may properly come before the committee.

IMPROVEMENTS.

With the putting in of a complete system of sewers for the city. The building of a ten thousand dollar school house on the West Side.

The erecting of the Young Men's Christian Association building.

The building of a new Hotel which is sure to come in the near future.

The erection of several new business blocks and many residences already contemplated. Cottage Grove will surely present a very satisfactory condition the coming spring and summer.

Of course, there is nothing personal in the following:

"Here is a heart-to-heart talk with a country editor, who evidently has troubles of his own, recently gave to his delinquent subscriber. 'Good morning. Have you paid your subscription this year?' Perhaps you owe for last year, or for several years. Now, you understand we don't need money; we have millions—to get. But it's really an imposition to let people go on carrying our money when we are strong and healthy, and so abundantly able to bear the burden ourselves. For this reason we ask anybody who has any of our money in his possession to leave it at the office, or send it by post, freight train, express or any other way, just so it gets here. Silver and gold are heavy, and it would be a matter of lifelong regret if anyone should get bow-legged carrying it about for us."—Pacific Coast T. C. A.

BOOSTER CLUBS.

In several localities Booster Clubs are organized for the purpose of pushing the interests of their several localities along, also to, figuratively speaking of course, rap on the head the knocker and croaker. In every locality there are always a few people who can perhaps enjoy the sunshine of prosperity, but the moment a cloud or two arises, they are frightened and there is nothing but failure to be seen, when the springtime arrives and we are all rushed with business, and the clouds have passed, they will be among the first to say, "I told you so." We're going to have just as good times here as any where else in fact they are not any worse now than could be expected at this season of the year, Bohemia one great source of business for this city is closed to us just now. Farming has not yet begun, the lumber interests are not quite as active as they were, or will be. If you can't push or pull don't hold back. Just step to one side and let the procession move along.

BLUE RIVER DISTRICT.

The organization of a mining district at Blue River is a move in the right direction and one which all mining camps should make. A great amount of trouble and costly litigation can be avoided by a well organized and properly conducted association. We believe that the Blue River Association made one mistake and one which should be rectified. Besides not being a legal proposition, it would be an injustice to many of the mine owners. The making of a certain number of feet to be done which would constitute the annual labor on a claim would make it an easy matter for

one party, while it would be severe upon another. One tunnel might be driven twenty feet for much less than the required one hundred dollars, while on another claim it might cost more than that sum. Article 1, Section 1 reads, "Twenty-five days labor of a grown man, or the driving of twenty feet of tunnel, or sinking of the same number of feet of shaft, shall constitute the required assessment work in this district."

Morrison's Mining Rights states on page 95, "As to such district rules as attempt to fix the value of a day's labor, above its real cost, in estimating the amount of work done, they amount to absolutely nothing. The 'fact' does not alter the 'fact.' The true measure is the real expenditure."

NEW SCHOOL HOUSE FOR WEST SIDE.

At the school meeting on last Saturday afternoon, chairman Goudy of the school board presided.

A large number of the citizens gathered at the school house and took an active interest in the proceedings.

A motion was made to issue bonds in an amount not to exceed ten thousand dollars which was carried unanimously.

Interest centered largely as to the locality of the new school house. It was generally agreed however, even by the people of the east side that the west side was entitled to have this one, and when the vote was taken it went to the west side by a vote of 100 for to 20 against. The people of the west side appreciate the action of those of the east side in so gracefully yielding to their wishes.

Two Cripple Creek Incidents.

During the first 21 days of December, Stratton's Independence shipped ore aggregating \$70,000 in value, or at the rate of almost a million and a quarter a year, says the Western Miner and Financier. The fellow who has been "salting" this property must have a "big wad." The Londoners ought to feel grateful instead of disgruntled.

Jannus, the "god of avenues and gates," the presiding deity of birth, the door keeper of the future, has conferred his name upon the portal of the year, and what more fitting month than January can record the rich discoveries announced from Cripple Creek, to say nothing of the good reports that come from other camps in this and fellow states! From all sides are heard the promises of a favorable voyage for 1904, and the auspices are certainly cheering to the the mining industry as they have not been before.

IT IS A MATTER OF HEALTH

PERFECT CONFIDENCE.

When there used to be a feeling of uneasiness and worry in the household when a child showed symptoms of croup, there is now perfect confidence. This is owing to the uniform success of Chamberlain's Cough Remedy in the treatment of that disease.

Notice is hereby given that I, J. E. Young, administrator of the estate of A. M. White, deceased, will by virtue of an order of the County Court of Lane County, Ore., made the 4th day of Jan., 1904, sell at private sale to the highest bidder for cash the following real property...

WHEN YOU HAVE A COLD.

The first action when you have a cold should be to relieve the lungs. This is best accomplished by the free use of Chamberlain's Cough Remedy. This Remedy liquefies the tough mucus and causes its expulsion from the air cells of the lungs, produces a free expectoration and opens the secretions.

ESCAPED AN AWFUL FATE.

Mr. H. Haggins of Melbourne, Fla., writes, "My doctor told me I had Consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for Consumption, induced me to try it. Results were startling. I am now on the road to recovery and owe all to Dr. King's New Discovery. It surely saved my life."

A Remarkable River in Spain.

There is in Spain a river called the Tinto, which has very extraordinary qualities. Its waters, which are as yellow as a topaz, harden the sand and petrify it in a most surprising manner.

BETTER THAN GOLD.

"I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicine I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by Morgan & Brehaut.

Explained.

"Our air mattresses," said the dealer, "are all filled in the months of April, May and June. That accounts for their remarkably resilient qualities." "Is the air of those months better than others?" "They are the spring months, you know."—Life.

MILLIONAIRE'S POOR STOMACH.

The worn-out stomach of the over fed millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Indigestion and its digestion are rampant among these people, and they suffer far worse tortures than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over thirty-five years. August Flower cures the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your station. Trial bottles, 25c; regular size, 75c. At all druggists. Garman & Hemenway Co.

CLIMATIC CURES.

The influence of climatic conditions in the cure of consumption is very much overdrawn. The poor patient, and the rich patient, too, can do much better at home by proper attention to food digestion, and a regular use of German Syrup. Free expectoration in the morning is made certain by German Syrup, so is a good night's rest, and the absence of that weakening cough and debilitating night sweats. Restless nights and the exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer climate, you will find that of the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Trial bottles, 25c; regular size, 75c. At all druggists. Garman & Hemenway Co.
