THE LEWIS & CLARK CEMETERY, PORTLAND - OREGON - 1892

VOTE THE SCHOOL BONDS.
 On Saturday, the 27th at one o'clock the polls will be opened at the school house for the purpose of voting upon the issuance of school bonds for district No. 45 of Lane county, to the amount of \$10,000 to be used in the erection of a school house on the west side, also to repair and properly heat the present one on the east side.

This is a matter of importance to every one. Each child in the district has a right to an education and it is the duty of the people to see that proper facilities are afforded for that purpose. Already there are too many children in attendance in the present school house, to receive the special care and attention to which they are entitled.

In the canvass just finished by the clerk it was found there are some 50 or 60 children of school age who are debarred from school from lack of room.

Cottage Grove is growing rapidly and will doubtless continue to do so for years to come, especially will this be the case if proper facilities are afforded for the education of the children.

One of the first questions asked by a prospective purchaser of a home is "what are the educational advantages?"

So far as it is learned there is no opposition to the issuance of the bonds, but all those having the right to vote and who favor educational progress, go to the polls and cast their ballots, thereby showing to those in charge, they have the confidence and support of the people.

It is probable the whole amount will not be required at once, but it is well to give the school board an amount sufficient to meet the present requirements and to provide for future contingencies.

FOR HARMONY.
 It should be the view of those who interest themselves in republican primaries to work in harmony. While the editor of this paper is new in this field, past experience teaches that no good can possibly come of disjointed and inharmonious actions in party affairs, and to become harmonious the fragrant breath of harmony must first be breathed in the primaries. It is recalled that the Republicans of South Lane county wield considerable influence in the county politics at such times as they are able to agree among themselves and present a solid front at the convention. By virtue of location this section of the county commands, and has a right to demand recognition at the hands of the convention; but location is not the license to demand. Something else is needed, and that something is harmony among ourselves. The old law, "United we stand—divided we fall," is a true gospel. It is worthy of our serious consideration, if we would accomplish anything of consequence at the county convention. If we wish recognition let us show ourselves worthy of it by uniting upon some one thing and go after it with a solid front. This broken ranks method that seems to have been a former program, results in our delegations performing the hold-the-sack-act. We should attempt to impress the convention that we are members of one family, for the time being at least. We should remember that our country and our politics are greater than prejudices and personalities.

Several letters from practical miners have been received by the Nugget recently asking if miners are needed in the Bohemia district? Owing to the heavy fall of snow in that locality all unnecessary outside work has been suspended. This leaves a sufficient number of miners to do the work. It would be ill advised for any miner to come here now with a view of securing work, the first of May or even a little later will be soon enough.

General Notes.

Goldfield the new camp, about twenty-five miles from Tonahap is having a genuine old time mining excitement.

The Portland Wollen Mills, located at Sellwood were destroyed by fire on the 18th, loss about \$150,000, insurance \$100,000.

A new fuel is being made in California which is composed of twigs and leaves of the eucalyptus tree mixed with crude petroleum.

It is estimated that the production of electrical apparatus in 1903 amounted to \$158,650,000, as compared with \$139,950,000 in 1902.

Eastern Oregon had a heavy fall of snow this winter, several snow slides have occurred. The Chloride and Alpine buildings suffered in consequence.

The deep drainage tunnel at Cripple Creek has proven very beneficial. Many of the mines are drained of water and the lower levels are being successfully worked.

The Treadwell mine, Alaska, has paid \$5,275,000 in dividends. The surface rock only ran about \$3 per ton, but much richer ore is now being obtained.

As showing what an amount of work a great mine will accomplish in a year: The Portland, at Cripple Creek made 10,908 feet of cross-cuts, in raises and winzes 1,451 feet. Total income of this property was \$2,653,643.65.

Facts about St. Louis Fair from the World's Fair Bulletin: Fair opens April 30, 1904; closes December 1, 1904.

Approximate cost of the exposition, \$50,000,000.
 Size of grounds 1,240 acres, nearly two square miles.
 Thirty-five miles of asphalt and gravel roadways in grounds.
 Main picture comprises ten great palaces arranged fan shape.

The pike, a mile long, concessions costing more than \$5,000,000.
 Three great cascades, largest waterfalls ever constructed by man.
 Map of United States in growing crops covers area of five acres.

A False Report.

Has been started to the effect that I have quit dealing in fruit trees, etc. I have sold propagated and planted trees and berry bushes in Lane county for twenty years and expect to continue to furnish the very best stock at reasonable prices. More than that I shall keep a good supply of standard varieties on hand during the planting season, so that buyers may see the trees before buying and have no iron-clad contract to sign.

I'm no traveling agent but am here all the time and will sell the same kind of stock as I plant in my own orchards. Last but not least I have picked up some items of experience in twenty years with fruit that may be worth something to some planters and will throw that in instead of a chromo.

S. B. MONMOUTH.

IT IS A MATTER OF HEALTH

THEY TOOK HIM UP.

The subjects of freak wagers, always rife just before and after an election, came up a few days ago among a group of men about town, which included "Bat" Masterson and one or two other sporting authorities. One after another the various members of the crowd gave testimony as to the wild and idiotic bets they had witnessed. At length one of the party called on Masterson for an experience of the sort.

"The oldest wager I ever heard of," said "Bat" after a moment's thought, "was in El Paso, Texas. A cowboy who had wandered into the town on a spree drew a six-shooter and offered to bet \$1,000 he could 'crimp' five men with six shots."

"Well," asked the listeners as Masterson paused, "did any one take him up?"
 "Oh, yes."
 "Who?"
 "Three deputy sheriffs," remarked "Bat" dreamily.—New York World.

Mrs. A. Vilet, New Castle, Colo., writes: "March 10th, 1901: I think Ballard's Horehound Syrup is a wonderful remedy, and so pleasant." 25c, 50c and \$1.00. Sold by New Era Drug Store.

Two of a Kind.

"Sir," said the shipping clerk, "I should like to attend my mother-in-law's funeral tomorrow."
 "You have my sympathy, young man," replied the manager, with a sigh long drawn out. "I have been wanting to do likewise for thirteen years."—Augusta Chronicle.

WHEN YOU HAVE A COLD.

The first action when you have a cold should be to relieve the lungs. This is best accomplished by the free use of Chamberlain's Cough Remedy. This remedy liquefies the tough mucus and causes its expulsion from the air cells of the lungs, produces a free expectoration and opens the secretions. A complete cure soon follows. This remedy will cure a severe cold in less time than any other treatment and it leaves the system in a natural and healthy condition. It counteracts any tendency toward pneumonia. MILLIONAIRE'S POOR STOMACH.

The worn-out stomach of the over-fed millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and they suffer far worse tortures than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over thirty-five years. August Flower rouses the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your station. Trial bottles, 25c; regular size, 75c. At all druggists. Garman & Hemenway Co.

DID YOU KNOW

That every one who tries Kennedy Chain Lightning for rheumatism, neuralgia, diarrhoea and all other pains or inflammation will use no other liniment, for the reason it gives instant relief, and a speedy cure follows. Ask your druggist for Kennedy's Chain Lightning. Take no other. Write F. L. Kennedy, Safford, Oregon, for list testimonials. For sale by all druggists.

CLIMATIC CURES.

The influence of climatic conditions in the cure of consumption is very important. The poor patient, and the rich patient, too, can do much better at home by proper attention to food, digestion, and a regular use of German Syrup. Free expectation in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night sweats. Restless nights and general exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer climate, you will find that of the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Trial bottles, 25c; regular size, 75c. At all druggists. Garman & Hemenway Co.

LETTER WRITING.

Its Decline as an Art Caused by the Modern Newspaper.
 The wonderful development of the newspaper may be looked upon as a very potent factor in the decline of letter writing as an art. The letter no longer can be regarded as primarily the carrier of news. The expression of one's opinion about great contemporary events is indeed still left to the letter.

But how much of an incentive to friendly correspondence is lost by the fact that every part of the world knows of important happenings almost simultaneously is not to be lightly estimated, says Guntton's Magazine. The stimulus to writing that comes from having "news" to impart is done away with, and it is not always that even the gifted letter writer can afford to lose that incentive. It is only the correspondent of excellence who knows how to attain the perfection of his art by writing delightfully of nothing, if indeed that may be called nothing which affords him a means for the employment of his delicate perceptions. For the saving quality of the genuine letter is in the ability of its author to put himself into it. If he writes about trivial things he does it with a grace of interest that discloses the triviality. He must not make his little fables talk like whistles, but be should, as Goldsmith himself knew how to do, make his letters of perpetual interest because of the aptness of their style to the simplicity of their thought.

American Drums Excel.

"Ever know that Americans were the greatest drum makers in the world?" said a man in the business. "Fact, not only do they make the most drums, but they make the finest drums too. And there's a great deal more to the manufacture of a drum than you would think. Of course the cheap variety doesn't amount to anything. They're simply toys. There is just as much science in drums as in any other musical instrument, though most people wouldn't think so. The drums required in orchestra and band work have a certain sharpness of tone, while those used in corps and military work must have a duller tone, and the drum must not be so sensitive to the touch."

His Sobriety.

A gentleman who had grave doubts as to a servant's sobriety one day tested him of intemperance and as a test chalked a line across the floor and commanded him to walk along it.
 "No, Jokes, now, sir. Which line do you want me to walk on?"
 "Oh, let me like a soldier die!" exclaimed the leading man of the bar-stormers.
 "Oh, if I only had a gun!" exclaimed some one in the gallery in a tone that savored of genuine sympathy.—Chicago News.

HEALTH

Means the ability to do a good day's work, without undue fatigue and to find life worth living. You cannot have in digestion or assimilation without its upsetting the liver and polluting the blood. Such a condition may be best and quickest obtained by Herbine, the best liver regulator that the world has ever known. Mrs. D. W. Smith writes, April 12, 1902: "I use Herbine, and find it the best medicine for constipation and regulating the liver I ever used." Price 50 cents. Sold by the New Era Drug Store.

Prodigality of Life in Ancient Egypt.

The reckless prodigality with which in ancient Egypt the upper classes squandered away the labor and lives of the people is perfectly startling. In this respect, as the monuments yet remaining abundantly prove, they stand alone and without a rival. We may form some idea of the almost incredible waste when we hear that 23000 men were employed for three years in carrying a single stone from Elephantine to Sals, that the canal of the Red sea alone cost the lives of 120,000 Egyptians and that to build one of the pyramids required the labor of 300,000 men for twenty years.

ITCH—RINGWORM.

E. T. Lucas, Wingo, Ky., writes, April 25th, 1902: "For 10 to 12 years I had been afflicted with a malady known as the 'itch.' The itching was most unbearable; I had tried for years to find relief having tried all remedies I could hear of, besides a number of doctors. I wish to state that one single application of Ballard's Snow Liniment cured me completely and permanently. Since then I have used the Liniment on two separate occasions for ring worm and it cured completely. 25c, 50c and \$1.00. Sold by New Era Drug Store."
