In most colored minstrels the y tunny part of the performance is y much overdone, but in this one it is carried on in such a manner that never falls to please an audience. The introduction of lady actors into minstrels takes out that ancient effect, for every theater-goer is tired of the old time minstrels show.

CLIMATIC CURES. The influence of climatic conditions in the cure of consumption is very much overdrawn. The poor patient, and the rich patient, too, can do much better at home by proper attention to food digestion, and a regular use of German Syrup. Fire expectoration in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night sweats. Restless nights and the exhaustion due to congling, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer clime, you will find that of the thousands of consumptives there, the few who are benefitted and regain strength are those who use German Syrup.
