A Young Man Needed.

We are on the eve of the greatest development period of our existence. Problems of vast import to Oregon and the other Pacific states are to be worked out; trade with the Orient will command our attention, and men of action and of reserved energy, men who will arise equal to the mighty emergencies of the tuture, must be sent to Congress to look after our interests and to grow in power and influence as the state grows in population, wealth state grows in population, wealth and prowess. Men who have and prowess. Men who have reached the zenith of their forcefulness and are on the wane, are not GUARDIANS' SALE OF REAL PROPERTY. the kind of men to accomplish most for a state like Oregon that is bounding forward with rapid strides. The men of newer ideas, of modern methods, of inspired zeal for future advancement of the state's interests, and who can give a quarter of a century of their life to study of the state's growing needs and can measure up to all the requirements of the newer time are necessary in the halls of legislation.

For such reasons as we have enumerated we believe that Hon. T Harris is the logical man for Congress from this district, and that he should be made the unanimous choice of the convention, which assembles at Salem, April 13. It nomnated, his election is assured by a rousing majority,

The Sewerage Bonds.

At the coming city election the question as to whether sewerage bonds to the amount of \$15,000 shall be issued will be submitted to

the vote of the people: Recently it is learned that there

There have been two reasons thus far assigned why some will vote against them.

One reason given is that taxes are already high enough at the present time. That is a stock argument always met with when any improvement is contemplated in any locality.

It is stated the interest per annum on the bonds if issued will be about \$700. No part of the principal will be paid for the first ten

The amount of seven hundred dol lars pro-rated among the people will not be felt. The second reason given is that only a certain portion of the city will be benefitted, and the outside property and all of the West Side will receive no benefit, but will be compelled to share the

burden of expense. It is difficult to see how the interests of the different portions of the city can be segregated. If the ousiness part of the city is prosperous. If the closely occupied portion is healthy. Then it naturally must follow that every piece of property has an enhanced value. There are other considerations besides the question of dollars. Health should be the first. Business men coming here will consider it. Dolla Made of Steel.

A novelty that promises to become staple in toyland is the doli made er tirely of steel. This immention is of American origin and manufacture, and although samples are out the quantity manufactured the first season will be limited owing to the difficulty of getting the required steel. The parts the doll are fastened together with wire springs, and the foot is made flat, so that the doll can stand alone. The body and limbs are hollow, and the doll is lighter than the ordinary doll of the same size, as the steel shell is thin. If

BEST COUGH MEDICINE FOR CHILDREN.

When you buy a cough medicine for small children you want one in which you can place implicit confidence. You want one that not only relieves but cures. You want one that is unquestionably harmless. You want one that is pleasant to take. Chamberlain's Cough Remedy meets all of these conditions. There is nothing so good for the coughs and colds incident to child-hood. It is also a certain preventive and cure for croup, and there is no danger whatever from whocoping cough when it is given. It has been used in many epidemics of that disease with perfect success.
