Wm. B. Root, Editor and Manager.

Entered at the postoffice at Cottage Grove, Oregon as second class mail matter.

Subscription price, \$1.50, in advance. Advertising rates made known upon application.

THIS PAPER is kept on file at E. C. Drake's Advertising Agency, 61 and 65 Merchants Exchange, San Francisco, California, where contracts for advertising can be made for it.

FRIDAY, APRIL 15, 1904.

NOT YET TIME.

Recently we have noticed in our exchanges statements to the effect that miners, prospectors and investors are flocking into the Bohemia district.

This is an erroneous statement as the conditions prevailing there do not permit of such conditions.

The Nugget is and has been the acknowledged representative of Bohemia and is anxious to see those suggested conditions prevail. At the same time it intends to tell the facts as they exist. The past week a mining man came from another state to Cottage Grove for the purpose of seeing Bohemia district for himself, as well as to report to others who operate with him. When he learned of the deep snow and the impossibility of examining the surface showings, he was naturally disappointed.

It will be from the first to the middle of June before either miners or those desiring to invest should visit the district.

County Convention.

The county convention held in Eugene last Saturday was a very harmonious one.

There were numerous candidates in the field desirous of receiving nominations at the hands of the convention, as it has been considered a nomination upon the republican ticket this year is equivalent to an election.

The delegates from Cottage Grove precincts were united upon the nomination of I. H. Bingham for representative from the southern portion of Lane county. They also sought the nomination of Prof. Briggs for superintendent of schools but in this were disappointed.

The unsuccessful candidates took their defeat philosophically and will assist in the election of the ticket. It is admitted by all, that the ticket nominated is one of the strongest to come before the voters of Lane county for many years past.

Our Representative.

Some weeks ago the Nugget suggested the name of I. H. Bingham as the logical candidate for representative from this portion of Lane county. It was from no personal feeling against any other person who aspired to the position but that he seemed to be the one who at the coming session could best represent the interests of the people of this section. The united delegation from Cottage Grove, the almost unanimous vote he received in the convention, fully justified the suggestion.

The numerous friends of L. T. Harris in Cottage Grove were sorely disappointed when the news came from Salem that he was unsuccessful in securing the nomination for representative to congress from this district. He is a young man and will yet be heard in national politics.

News from the western mining district is most encouraging, leading to the assurance of a very prosperous year in mining in all its branches. The great abundance of snow that fell throughout the winter, more than during the same period for many years past, means that the water supply will not be hampered in dry sections. The placer gold output will certainly be much larger and may even approach the bonanza years of long ago. Word reaches this office from the many representatives engaged in gathering the news for our extensive system of service that the mining men have already this early thrown off the yoke of winter and have made their plans and are putting them in execution for a progressive season's operation. The year will close with a total, not only in output, but in amount of new machinery and appliances, which will by far exceed that of any of the past.—Mining World.

THE TICKET.

For Congress 1st. Dist.

Binger Herrmann.

Representatives—

J. H. Bingham, Cottage Grove

I. N. Edwards, Junction

G. W. Griffin, Eugene

County Judge—

Treasurer—

Robt. E. Eastland, Eugene

School Superintendent—

W. B. Hillard, Eugene

Surveyor—

C. M. Collier, Eugene

Coroner—

Dr. F. M. Day, Eugene

City Council Proceedings.

April 11th Mayor, Clerk and council all present, minutes of previous meeting read and approved.

Ordinance No. 75 regulating hours of saloons read. To close saloons at 12 m. and open 5 a. m. week days, Saturday night 12 m. until Monday 5 a. m. with penalties for violations, 1st offense \$15, 2nd \$30, succeeding offenses \$50, and in default of payment at the rate of \$2 per day in jail. The mayor announced the appointment of Robert Martin as night police and watchman, the salary was fixed at \$60 per month.

The saloon bonds of L. R. Minard, Biew and Jones, B. O. Neil & Co., Neil J. Cummins, A. Graham, Barker and Peraan and J. B. Pope were approved.

The official bond of H. E. Underwood as marshal was approved. The mayor appointed the following standing committees: Finance, Veatch, I. H. Bingham, Hinds, Street—Bingham, Veatch, Wall, Water and Light—Hinds, Currin, Chamberlain.

The committee to whom had been referred the bids for the city plumbing reported that the bid of Griffin and Veatch was the lowest, and by motion were awarded the contract. The mayor appointed Councilmen Bingham street commissioner and Hinds for fire warden.

A committee consisting of Clark, Shanafelt and Medley interviewed the council on the subject of having repairs made on the tower and bell on the West Side, also to have suitable quarters arranged for the firemen. Councilmen Wall and Currin were appointed to investigate the matter and report at next meeting, adjourned till Tuesday night at which time all were present.

The finance committee were not ready to report and Currin was appointed to assist and complete report and publish in both papers of the city.

The matters of establishing sidewalk grade was discussed and committee instructed to act at once. The petition to open a street in south part of town which had been laid over for some time was read and referred to the street committee. Wall and Currin reported they had, as instructed investigated the tower and bell on West Side, and that repairs were needed, also that there should be suitable quarters prepared for the firemen. By motion Councilman Chamberlain was instructed to prepare plans and specifications for a building 16x29 and report at next meeting.

Proof that the nation has not awaked too soon to the menace of Mormonism comes from all quarters. Former congressman, W. H. King, of Utah, who is well qualified to speak by reason of intimate knowledge of the situation, claims that the head of the Mormon church intends to install in the United States senate a sufficient number of members of his church to hold the balance of power. It will require only thirteen Mormon senators to place the present senate and in fact the entire legislation of the United States government in the hands of President Joseph P. Smith. It is said that the Mormon leaders depend on Colorado, Nevada, Wyoming, Idaho and Montana, to which states they are sending large bodies of immigrants, to furnish them at least seven senators. They expect the admission of Arizona, New Mexico and Oklahoma to give them four more, and by electing a Mormon to succeed Senator Kearns they will get the twelfth man, Senator Smoot completing the thirteenth. If any of our readers have not communicated with their senators in Washington they should not fail to perform this duty to the nation. If Mormonism were actually in arms against the government we have at least one hundred thousand readers who would willingly bear arms in the nation's defense. How many of them will write a brief, firm protest against seating Senator Smoot?—Rams Horn.

IT IS A MATTER OF HEALTH

THE FARMER WITH SIX GIRLS. A friend, a farmer, blessed with six daughters and no sons, asks us whether it would be all right for a man so fixed to require of his girls more in the way of farm work than is usually allotted to the women of the farm house—in other words, would it be all right for him to require them to milk the cows, take care of the garden, drive the team on the mow or hay stack, ride the sulky plow and do other clean and not laborious work connected with the farm operations? This woman question is always a very delicate one to handle. It depends much on how the girls feel, how their mother feels and how they have been brought up. In the matter of employment there is nothing which woman studies so closely as its effect upon her social standing—what Mrs. Grundy says and all that—the fact being that there is nothing one woman is so much afraid of as another woman. The line of employment suggested is in no sense unwomanly, for every mother and house-keeper does harder, dirtier and more unpleasant work, and such outdoor employment would insure with so many American women lack—a fine physique, immaculate health, independence of thought and action. The financial condition of the family has some bearing on the matter. If the father is poor and has a hard row to hoe, his girls should certainly help him, no matter what Mrs. Grundy says; if well able to support them without such work on their part it is still quite likely that they could do better than help him anyway, for, speaking from the man's side, they would become very attractive indeed to young men looking for desirable mates. Maud Muller turned the judge's head as he met her in the hayfield; Ruth while gleaming in the field captured Banz, and it is a fact that a sweet girl never looks sweeter than as she looks at you from the depths of a sunbonnet while down on all fours picking strawberries or weeding the garden. The girl who can saddle and ride the high sprung horse, milk the kicking heifer, litch up and drive a team, do the marketing, pay the taxes, sing in the choir and preside in her home as a refined and competent homemaker is every way a more desirable and attractive proposition for the young man than the kid-gloved, white handed, gum chewing, highly perfumed society girl who shows muscular activity in nothing save a waltz. Modern society forces lots of unmitigated humbugs on to woman which injure her physically, destroy her independence, abbreviate her pleasures and shorten her life, and we honor any girl or woman who has the moral courage to defy them. Answering the question asked directly, we will say that if we were in our friend's place we would labor the girls to help us.

THE LABOR OF A WATCH.

The little balance wheel of a watch vibrates five times per second. Imagine that this wheel, instead of swinging back and forth like a pendulum, should roll on continuously over a given surface. Its circumference in a gentleman's watch of ordinary size is two and a quarter inches, and it makes a sweep in each direction of about three-fourths of its circumference. In other words, it would traverse in one second a distance measuring about eight and a half inches. According to this computation, the balance wheel of a watch would travel in a year over a distance of 3,777 miles in round numbers, and it would take the little wheel just six years eight months to circumnavigate the globe by way of the equator.

A THOUGHTFUL MAN.

M. M. Austin of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c at Morgan & Brehaut's Drug Store.

NOTICE OF FINAL SETTLEMENT.

M B A. Meets every 2nd and 4th Mondays. S. E. Laurel, Secty.

The real value of condimental foods to the stock raiser is still a very debatable matter in farm institutes and agricultural conventions. There seems to be only one thing about such foods which is really settled, and that is that the men who manufacture them make a lot of money.

THE CHATTANOOGA ADVERTISING

The Chattanooga Medicine Company, with laboratories and general offices at Chattanooga, Tennessee, and branch houses at St. Louis, Mo., and San Francisco, Cal., has become one of the largest proprietary medicine concerns in the world. In the growth of this great business two factors have been dominant: The merit of its products—Wine of Cardui and Theiford's Black-Draught—has been widely recognized and the official advertising methods adopted by the excited great country. The publicity for these medicines does not consist of the catch phrase and extravagant statement, too often employed in advertising today, but instead the plain story of experience with the medicines given in the plain language of the people themselves. The following letter is a fair sample of the thousands of Wine of Cardui testimonials published during the past twenty years.

WANTED.

Special representative in this county and adjoining territories, to represent and advertise an old established wealthy business house of solid financial standing, salary \$21 weekly, with expenses paid each Monday by check direct from headquarters. Expenses advanced and horse and buggy furnished when necessary; position permanent. Address, The Columbia, 639 Monon Bld., Chicago, Ill.

THE CUTTING QUALITY

of any tool is always a desirable one, but of equal importance is the power of retaining this quality so as not to require too frequent sharpening. By making your purchases of the Griffin & Veatch Co. you always receive your money's worth in the best quality of tools and cutlery of properly tempered steel that is sure to hold an edge.

Griffin & Veatch Co.

CLIMATIC CURES.

The influence of climatic conditions in the cure of consumption is very much overlooked. The poor patient, and the rich patient, too, can do much better at home by proper attention to food, digestion, and a regular use of German Syrup. Five expectoration in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night sweats. Restless nights and the exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer clime, you will find that of the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Trial bottles, 25c; regular size, 75c. At all druggists, Garcia & Hemenway Co.

50 YEARS' EXPERIENCE PATENTS
