The Water Supply.
 The members of the City Council who were quoted as saying they were about to limit the use of water in the city say it is an erroneous impression. The explanation made by them is to the effect that the 4-inch main which brings the water to the city is not sufficiently large to supply all the demands which might be made upon it. They think it will be unwise to allow the irrigating of vegetable gardens. For domestic, lawns, or motors already in use there is no intention upon their part to attempt any change, unless an extravagant use be made of it.

Opening Up.
 As will be seen by reference to our other columns, work in this part of the country is starting up in the various industrial branches. The winter here, as elsewhere, has been an exceptionally severe one. Bohemia, the mining district on which Cottage Grove and vicinity so largely depends, experienced the greatest fall of snow since its discovery. With a few exceptions where preparations were made in the fall all work was suspended. The snow is now rapidly disappearing and the miners and companies are just resuming operations. The lumbering interests which also are of vast importance; under the restored freight rates are enlarging their scope of business. With these two industries successfully carried on, all others must necessarily prosper. Everything now indicates that Cottage Grove and Bohemia are to have the most satisfactory season they have ever experienced. By the middle of June the Bohemia Mining District will be open for examination. All the other industries are open for inspection all the time.

The Woodburn Rally.
 That republican rally at Woodburn Saturday night was a hummer from the headwaters of Hummer's creek. There was no half hearted feature about it, from Jim Buff's spectacular debut in all the gorgeous colors of the rainbow, representing Othello in Joseph's coat, to the eloquent and convincing speeches by Malarky and Harris. Republicanism was in the air, the music of the bands, from B flat to high C, was shouting for Roosevelt and the small boys were grieving only because it would be at least ten years before they could join as tangible participants in such enthusiastic demonstrations. And it need not be concluded that Walter Toozie was at all reticent on the auspicious occasion. In fact, his conduct throughout the meeting indicated that he was fairly well pleased with the proceedings, and the general opinion was that he would never make an acceptable candidate on the Parker platform. The Woodburn meeting was one of the best ever held in Marion county and promises over 800 of that 20,000 majority for Roosevelt in November.—Statesman.
 Lane will add another 800 and some over.—Eugene Register.

COPPER PRODUCTION.
 The annual production of copper has steadily increased almost year by year, says Mining World, although old mines are being worked out by ore being taken from the ground. On the other hand, modern science permits working a mine to a much greater depth than formerly. The world's production of copper in 1801 was 9,000 tons, which was increased to only 39,000 tons in 1850, in 1891 to 279,309, and in 1903 to 589,361 tons. Nearly every one of the old mines are still yielding their quota of the metal and each year witnesses the opening of new ones. A fair price and demand for copper will keep the mines of the world in full operation, as well as stimulate the search in new sections.

VICTOR BALL TEAM.
 Cottage Grove may possibly be behind in some matters, something however which would have to be shown, but it is believed that in the Victor baseball team, it has for the size and age of its members the best Juvenal team in the valley. On last Friday this team met and defeated one composed of the grown ups about town. The line up is as follows: Captain, Allen Baker; catcher, Lloyd Watson; pitcher, Roy Baker; S. S., Ray Green; 1st B., Robert Sherwood; 2nd B., Allen Barker; 3rd B., Joseph Arnold; L. F., Roy Copeland; R. F., Albert Woolley; C. F., Ernest Lincoln; substitutes, Chester Baker and Alvin Whitsett.

EVERY TOWN HAS
 A liar.
 A sponger.
 A smart Alec.
 A girl who giggles.
 A weather prophet.
 A neighborhood feud.
 A woman who rattles.
 A man who knows-it-all.
 One Jacksonian democrat.
 More boaters than it needs.
 A boy who cuts up in church.
 A few meddlesome old women.
 A "thing" that stares at women.
 A widower who is too gay for his age.
 Some men who make remarks about women.
 A grown young man who laughs every time he says anything.
 A girl who goes to the postoffice every time the mail comes in.
 Scores of men with the canoose of their trousers worn smooth as glass.
 A man who grins when you talk and laughs loud after he has said something.—Woman's Magazine.

BASEBALL OPENS.
 With the advent of the fine weather also came the base ball games. On last Friday the tie team met the High School team of Cottage Grove, while there are some fine players in both teams, there was an evidence of a lack of practice. The large crowd gathered to witness the game enjoyed itself by making the usual remarks. The score stood 17 to 19 in favor of the High School team.
 Saturday afternoon the Springfield team played the Cottage Grove team but while they did their best, were compelled to leave the field with a score of 0 to 13 in favor of our home team.
 Following this game came one between the Drain State Normal School team and the Cottage Grove High School team.
 The first inning or so it looked as if the Normals had a walk away, but the High school braced up and held the game well in hand the remainder of the innings, the score stood 7 to 2 in favor of the High School.
