A STUPENDOUS EVENT.

Mardi Gras Carnival, at Portland Oregon, June 28th to July 9th.—Everybody Should Attend—Cut Rates on All Railroads.

The great Mardi Gras Carnival to take place in Portland, Oregon, June 28th to July 9th, inclusive, promises to be the most brilliant and magnificent celebration that has ever occurred in the Northwest—perhaps the most brilliant occurrence of its kind that has yet been planned and carried out on this coast.
There is absolutely no graft, and no personal profit, in the whole affair, and this is perhaps one of the most potent reasons why everybody, without any discrimination what ever, rich and poor alike, prominent citizens, and quiet bourgeois, city dwellers and hamlet dweller, one and all are intensely interested in the grand success of this celebration that will do honor to this whole section of America.
To begin to enumerate the big features is almost confusing. Of course the fact that five of the Nation's big battleships have been ordered to Portland to stay during the Carnival, is one great attraction. They will be open for visitors and decked in gala dress. The Spectacular Parade on the opening day will be the grandest affair—beyond all imaginative eyes to describe—surpassing anything you can imagine or express in words of magnificence and spectacular display. The State Militia, Uncle Sam's boys from Vancouver Barracks under General Foxton, all the Trades organizations, over thirty floats, visiting organizations from far and near—all together making an attempt at brilliancy never heretofore dreamed of in Portland.

Divide Items.

Miss Green, daughter of M. F. Green, is home from Drain.
George Harrison has had a large force of men at work on the road, grading and hauling rock, this week.
At the school election Monday, Will Coffin was elected director, and Reuben Tucker, Clerk.
The Railroad company has a large crew of men at work putting the track in good condition.
J. H. Hawley is building a house on his farm to rent.
Hay is being cut but the crop will be decidedly short.
The railroad wood business is pretty lively now.

Big Profits in Forest Culture.

The hardy claims on rich soil will produce more teleposts per acre in a shorter time than any other species. Some catalpa plantations in Kansas have paid 6 per cent compound interest on the land and labor invested and \$10 an acre per annum net profit for a period of twenty years. This is a much greater income than the average returns from agriculture—G. L. Cloutier.

Will Meet Prices.

I am prepared to meet any and all prices, that may be made by any one on any kind of goods carried in the market in Cottage Grove.
H. D. LANGOLS, West Side Meat Market.

Lively Ball Game.

The base ball game played at Creswell between the home and Latham teams on Sunday, was one of the most interesting games played this season.
The Creswell team played good ball, but the curves of pitcher Adams was an enigma to them. Score: Latham 10, Creswell 4. The Latham boys appreciate the courteous treatment received at Creswell and hope to reciprocate when the return game is played in July.

Parents Attention.
The old method of teaching a child to read by the uninteresting meaningless plan of learning his A, B, C's has long since been supplanted by the word system. The methods of teaching music have kept pace with the improved methods of teaching school. The old tedious, discouraging method of teaching the fine finger exercises and scales has given place to a method which interests and delights children as well as grown people.
Mrs. Roy Welch has taught music for eight years during which time she went east twice to study. Recently she had the privilege of a years continuous study under an own pupil of Calvin Cady of Boston, Mass., whose genius has revolutionized the methods of teaching music.
