FRIDAY, JULY 22, 1904.

CHANGE NOT DESIRABLE.

Since the recent visit of Post Office Inspector Vailie to Bohemia, there is a rumor to the effect that a change of the present mail route up Sharp's Creek to the Warehouse on Champion Creek route is contemplated.

It is stated by those familiar with the district, this would work a great inconvenience to very many who are developing their mining properties. The present route passes the Mineral post office which is the point for many of the miners in that portion of the district. It is the shortest route to the post office at Bohemia and it would seem from all that can be learned that it would discommodate many more people than it would help if such a change was made.

DOING ITS SHARE.

Some time since a communication was published in the Nugget, in which was a criticism of the lack of advertising Oregon was receiving at the hands of the railroads. Since that time we have had our attention called to the amount of or at least a portion of the amount of advertising sent throughout the east by the Southern Pacific Railroad alone and will say in justice to the road that it is doing its share in telling the people of other states the advantages to be found in the state of Oregon, and particularly of the Willamette valley and country tributary.

A LIVELY CONTEST.

Evidently one of the most interesting features of the American Mining Congress which convenes in Portland in August, will be the strife between Denver and Salt Lake for the securing of the permanent location of that institution. Denver the birth place of the Congress in 1897 will have many strong supporters. Utah has been, for the past few years, growing rapidly as a mining state and Salt Lake is becoming a power in mining matters. Either city will be a splendid location for the annual meetings of the Congress.

There should be a good sized fine imposed upon these people who leave camp for a few hours and deliberately remain away for days, causing their friends worry, trouble and expense in searching for them. There are enough troubles of this kind without creating them.

KILLS A DEER.

Mrs. Conner, wife of W. C. Conner editor of the Roseburg Plaindealer, who accompanied Mr. F. B. Phillips and party on their camping trip, had the good fortune to kill a deer on last Monday.

The party was located up Mosby creek some distance above the end of the wagon road. After breakfast the men started off by themselves to hunt. Mrs. Conner, with the children of the camp went up the trail that follows the creek. She had taken the shot gun along, hardly expecting an opportunity to use it. Looking up stream she discovered a fine buck deer in the water coming toward her. She at once discharged both barrels and hastily inserting two more cartridges fired twice more at the animal when he fell at the edge of the stream. With the assistance of the others at the camp, his throat was cut and then dragged to the camp.

Mr. Phillips states the ladies had been indulging in target practice, which probably accounts for the good shooting by Mrs. Conner.

He also states they had plenty of fish till the 15th when the deer season opened, and from that time had plenty of venison, as he secured two deer himself.

One Fare For Round Trip From All Points in Oregon.

Tickets good on all trains arriving in Portland on the afternoon of August 1st and the morning of August 2nd, good to return until the evening of August 4th.

OFFICIAL CALL.—A convention for the purpose of organizing an OREGON DEVELOPMENT LEAGUE will be called to order promptly at ten o'clock a. m., Tuesday, August 2nd, at the Marquam Theatre, Portland, Oregon, under the auspices of the Portland Commercial Club, which will have for its purpose and development and upbuilding of the state of Oregon.

REPRESENTATION: Every citizen of Oregon is a delegate at large. The Governor, U. S. Senators and Congressmen are also delegates at large, and are expected to be present.

The Mayor of each and every city and town in the state, as well as the County Judge of each and every county, is urged to name five delegates.

The President or executive officer of every commercial, industrial, agricultural, horticultural, livestock, dairy, irrigation, mining or other similar organization having for its purpose the development of an industry is urged to name five delegates, and to add himself and secretary to the delegation, as active workers are especially desired.

In order to secure the best results, every citizen of Oregon should be eliminated. Exact reports as to what individual growers have accomplished, are what is desired. Plain and direct statements are wanted giving actual results as to cultivation, growth and marketing of all agricultural products, fruit and livestock, accompanied by the name of the grower and location of the land—generalities, no matter how desirable, are of little value.

The great railroad system traversing Oregon, have several thousand men actively engaged in securing immigration, and these same railroads have industrial department which will co-operate with cities and towns on their lines in the location of manufacturing enterprises, and they want to know just what has been accomplished, and reports will be asked for from all the interests represented through delegations, and no feature of the program will be more advantageous and interesting than this.

If you haven't a business organization in your community or some other body through which you can be represented, organize at once, and if your meeting is only large enough to elect the local committee, call and come, for it is the willing workers who are to do the most for Oregon.

Be sure to bring your wives, daughters, sisters and sweethearts, for the men are busily engaged in the convention, the Women's Club of Portland will look after the comfort of the women of Oregon.

The Oregon Water Power and Irrigation Company have tendered the use of four large cars for a trip to Casemah Park, beyond Oregon City, one of the most delightful trolley rides in America. A committee from the Women's Club will leave from the corner of First and Alder Streets exactly at three o'clock P. M., Tuesday, August 2nd.

An informal reception for the ladies and gentlemen by the Portland Commercial Club, at its rooms on the eight floor of the Chamber of Commerce Building, Tuesday evening, from eight to eleven o'clock. During both days of the convention, and at all hours, the rooms at the Hotel Astor will be open for the use of the delegates. Portland and its environs from this elevation is thought by many to be the most delightful bird's-eye view of the city to be obtained anywhere in this country.

The railroads have joined, for the first time, in making the extra ordinary low rate of one fare for the round trip from all points in Oregon in order that this convention should represent not only all the interests, but that all portions of the state should be represented among its delegates and participants in the convention. The railroads show by this act that they are heartily in accord with the formation of the Oregon Development League, and are willing to do their part in adding to the state's wealth and industries of the state.

Immediately upon choosing delegates, please notify your local papers and send notice to the Portland Commercial Club.

A program of brief but explicit speeches on various subjects will be arranged in advance, and every possible effort will be made to have this convention result in forming a program which will result to the benefit of every portion of this great state.

Very respectfully,
PORTLAND COMMERCIAL CLUB

Rev. Dr. Horace E. Warner, Preached At Bohemia Last Sunday.

TEXT: JOHN 1-12.

"As many as received him to them gave he power to become the sons of God."

OUTLINE OF SERMON.

The only right that the Gospel of Christ has to exist and appeal to men is that it has something of vital importance to add to human life. What is this gift? It is a peculiar and blessed childhood to God. Its special features are perfect harmony with God, having communion with him, growth in likeness to him and shelter under his protecting care. Men say they are to weak and sinful to have such a childhood. But the gift of Christ is power to possess such childhood to God. He gives power to break old habits of sin, and to make and keep us pure and good and kind. That power that lifted the mountains and set the stars is able to mould the most wayward heart into a happy child of God. This gift of power to make us such children is ours by receiving Christ, taking his pardon, surrendering to his will. As many as receive him to them he gives power to become the sons of God.

There was a good attendance and attractive music. After the close a unanimous request was given Dr. Warner to continue preaching Sunday afternoon while he stays in Bohemia. Services will hereafter commence at three o'clock as that hour seems to be most convenient for the largest number.

Hot coffee and lunches at the Exchange restaurant.

District 76 School Shoes

Sizes 5 to 8 \$1.00 per pair
 Sizes 12½ to 2 \$1.40 per pair
 Sizes 8½ to 12 \$1.25 per pair

Horse Racing

EXCELLENCE, Ore, July—One of the longest race meetings ever attempted in Oregon will open here on August 5 and continue to August 28, and possibly through the first two weeks in September. A large force of work men are pushing the work of leveling Irvington race track in shape for the coming meet. Already trainers and owners are shipping their strings to the track, and the officers of the Multnomah Fair Association are preparing to stable the race horses of those now living at Seattle.

When President A. R. Drummond, the past of the Multnomah Fair Association officials talked of giving a week's racing last year, they were told frankly by the local horsemen that the racing had received such a black eye in Portland that the public would not turn out to see them. In spite of this discouraging talk the officials went on, gave the race meeting, proved conclusively that horses could be raced and raced honestly, and not only the people of Portland paid their money at the gate, but horsemen from all over the state attended the meeting. And when they returned home they were loud in their praise for the clear sport which they had enjoyed, and of the liberal manner in which the books handled the odds on the races. This was all the encouragement that the association wanted, and they began at once to plan for their 1904 August meeting.

Most of the horsemen who raced here last fall declared when they departed that nothing could keep them from returning. Not only have they kept their word, but they assisted in filling the state book entries when it was sent to Oakland and Los Angeles. Originally the association planned only to care for 300 horses, but the demands for stall room became so great that it was found necessary to build 200 additional stalls. They have just been completed, and are the most modern and up to date stalls on the coast. They are constructed after those at Washington Park, Chicago and at Saratoga, and are arranged that stable quarters for the trainers and riders are in a sort of loft over the horses. Last year it cost the association \$15,000 to get Irvington into shape, and this year \$7,000 more has been spent. The entire view of the city to be obtained anywhere in this country.

The railroads have joined, for the first time, in making the extra ordinary low rate of one fare for the round trip from all points in Oregon in order that this convention should represent not only all the interests, but that all portions of the state should be represented among its delegates and participants in the convention. The railroads show by this act that they are heartily in accord with the formation of the Oregon Development League, and are willing to do their part in adding to the state's wealth and industries of the state.

DO IT TODAY.

Tomorrow May Be Too Late and Then You Would Be Sorry.

If you have a flower to give, give it today. One throb of gladness is worth more to the living heart than a wealth of costly blooms laid, however tenderly, above the dead one.

If you have a kindly visit to make, make it today. Let another step in and let his spirit land upon the longing heart and still forever the fret and pain and power of gloom. In the city of the dead, in the silence of the graves, hearts are never lonely any more. They have no need of need.

If you have kisses to bestow, let the dear living lips their sweetness know today.

If you've smiles to give, give them today. Living eyes are often hungry. Through their gaze be seemingly so calm, so quiet and mayhap so proud, the smiles may be a touch of heaven for them. If they are closed in death, tomorrow your fondness smiles would matter naught.

If you have a helpful, hopeful, loving word to say, say it today. It may keep some heart from breaking, some soul from falling. No word or cry can break the seal to-morrow—if death whispers then—to ears that hear today.—Exchange.

INDIGESTION.

With its companions, heart burn, flatulence, acidity of the liver, constipation, palpitation of the heart, poor food, headache and other nervous symptoms, sallow skin, foul tongue, offensive breath and a legion of other ailments, is at once the most widespread and destructive malady among the American people. The Peppermint treatment will cure all these troubles. See bottle. Sold by Morgan & Brehaut.

Willamette Valley Chautauqua Association

The Willamette Valley Chautauqua Association will meet at Gladstone Park, near Oregon City, July 12th to 24th, 1904, inclusive. The Southern Pacific Co. will make reduced rates on the Certificate plan for this occasion. Call on any Southern Pacific Agent for advertising matter. —22-41

Poultry and Egg Facts.

The United States statisticians find the number of chickens extant to be considerably over 250,000,000, valued at \$85,000,000. One of the striking and admirable peculiarities of the humble hen is the enormous output on the comparatively meager capitalization; there is no watered stock. The \$25,000,000 worth of working hens yield annually chickens for the market which sell for \$127,000,000 in addition to \$144,000,000 worth of eggs.

The favorable season for the growth of potatoes in Arizona is between the frosts of March and the heat of June, and the growth of another crop is possible between the heat of August and the frosts of autumn.

WORKING NIGHT AND DAY.

The busiest and mightiest little thing that was ever made is Dr. King's New Life Pills. These pills change weakness into strength, listlessness into energy, brain-tiredness into mental power. They're wonderful in building up the health. Only 25c per box. Sold by Morgan & Brehaut.

"PORTLAND AND RETURN ONLY."

The Southern Pacific is now selling round trip tickets to Portland from Eugene for \$4 good going Saturday P. M., or any train of Sunday, returning Sunday and Monday, giving all day Sunday and Monday in Portland. The same arrangement applies from Portland, giving all Portland people a chance to visit valley points at greatly reduced rates. Parties desiring to take advantage of these rates can pay local fare to Eugene.

BRUTALLY TORTURED.

A case came to light that for persistent and unmerciful torture has perhaps never been equaled. Joe Goldstick of C. Insa, Calif., writes: "For 15 years I endured insufferable pain from Rheumatism and nothing relieved me though I tried everything known. I came across Electric Bitters and its the greatest medicine on earth for that trouble. A few bottles of it completely relieved and cured me." Just as good for Liver and Kidney troubles and general debility. Only 50c. Satisfaction guaranteed by Morgan and Brehaut, Druggist.
