

Devoted to the Mining, Lumbering and Farming Interests of this Community, to Good Government, and Hustling for a Grub Stake.

VOL. VI

COTTAGE GROVE, LANE COUNTY, OREGON, WEDNESDAY, OCTOBER 5, 1904.

NO. 37

BOHEMIA MINING DIST.

News From Bohemia and the Various Mining Camps at Oregon and Other States.

Piper and Van Donberg, on Saturday sold to Manager F. J. Hard to be sent to Bohemia for use in the tunnels, 2500 feet of eight inch air pipe.

Mr. and Mrs. Pease of New York arrived in Cottage Grove Friday night and took the O. and S. E. for Bohemia to visit Mrs. Pease's father Charles Dester who has been operating in the district for a long time and has acquired valuable mining property.

L. J. and B. W. Hartley arrived in the city Saturday night from Bohemia. For some time past they have been doing assessment and development work on the Twin Rocks property.

The Pease group, of three claims on the south side of Monte-Rico ridge, owned by W. H. Shaw and Frank Flaherty, is showing up fine. The main working tunnel is now in 50 feet on a log vein, and the drift face is some 100 feet of good milling grade.

C. C. Mathews, superintendent of the Oregon Securities Mining Company at Bohemia, returned from Portland on Sunday where he had been on business affairs for the company. An electrician was wanted to take charge of the electric power and light plant of the company and Mr. C. B. Wagner was engaged.

A strike of great importance was made at the Granite Hill mine this week. While working in the west drift at the 200 foot level, a 4 1/2 foot body of very high grade ore was encountered, the lowest assays on which run over \$300 per ton.

There is quite a city under ground at the Granite Hill. Fifty-five men are working in the different shafts and drifts, aside from those above ground.

The Red Jacket is now down 105 feet and the workmen are constantly at work sinking deeper. The old machinery of the Granite Hill mine has been taken to the Red Jacket.

Manager Frank Jordan on Monday sent out a gang of men to make necessary repairs on the Bohemia line preparatory to the winter. The line has been working satisfactory all summer.

John Crowley a member of the Royal Plumb mining Company went up to Bohemia this morning. Word from Alex Lundberg concerning the exceedingly good showing recently made in the properties of the company, induced Mr. Crowley to go up and see for himself.

Pulling separately even in the right direction is usually pulling apart. Pulling as one man always accomplishes wonders. Let the people of Bohemia and Summit District take this to heart.

The miners and mining companies are already making preparations for the winter campaign in the Bohemia district. The O. & S. E. case an active head with supplies and machinery to the site and the track where they are taken by means of their cable cars. Now is the time while the roads are good and conditions favorable to prepare for the winter.

The Dexter group, of three claims on the south side of Monte-Rico ridge, owned by W. H. Shaw and Frank Flaherty, is showing up fine. The main working tunnel is now in 50 feet on a log vein, and the drift face is some 100 feet of good milling grade.

The workmen think it carries sufficient samples have been sent out for assay. This new strike has greatly encouraged the miners to renewed efforts and development is going on briskly forward.

Mr. O. A. Pease and wife arrived in the Grove Tuesday after a very pleasant visit in the Bohemia district.

As Mr. Pease has been a very successful mining man in Colorado and other states and is now extensively operating in Arizona, his opinion of the district recently visited was sought. Mr. Pease stated that he had not been able to go over the entire mineral section, but had visited a number of mines and he was surprised at the great quantities of ore being exposed.

Mr. Charles E. Wagner a graduate of the class of 1901 University of Oregon at Eugene, arrived in the City Monday morning from Portland and took the O. & S. E. train for Bohemia. Mr. Wagner is an Electrician and has been engaged by Supt. C. C. Mathews to take charge of the Electric plant of the Oregon Securities company.

One of the fine properties in the south end of this district at the head of Martin Creek is the Star Consolidated group of 12 claims. This splendid group has recently undergone reorganization and is now mainly owned and controlled by Portland capital. Experts have lately examined and made report on this property, and work will soon be resumed and continued.

From the old workings on this property some of the finest specimens of wire and nugget gold can be picked up. Under the new management this property is to be put on a modern working order, a substantial wagon road built to the mouth of Martin Creek, and modern machinery installed, looking to an efficient, permanent, paying and dividend basis.

Clintley Graber one of the four partners in the Vesuvius property in Bohemia who has been for the past several months doing assessment work in that district for other parties arrived in the city a few days ago. He reports that on the Dexter ledge belonging to Knowles and Gettys, a fine body of free milling ore was encountered, the size of which was not determined as but one wall was reached.

On the White Bear and Black Diamond belonging to same parties fine quantities of copper and galena ores were opened. Githertson and Cochran on their property just below the Wall Street group, have been at work all summer. The main tunnel is being driven on a very strong vein which carries a copper ore, suitable for concentrating.

The Royal Plumb Mining Company has been doing a considerable amount of work the past few months and have also been successful in finding plenty of ore in their various workings. Mr. Graber says that for the amount of work done by the Companies, miners and prospectors, no such showings in all parts of the Camp has ever been made as has resulted from the work done this season.

It is estimated that there are over one million stockholders in the railroad companies of the United States, and that there are even a greater number interested in mining and oil companies. These latter stockholders are, as a general rule, people of moderate incomes, making good wages, but who could not individually either finance or manage a company. The co-operative system is so nicely applied in mining and oil investments, that the small investor can invest in these companies and earn just as much proportionately as does the large investor.

prise to a successful conclusion. The stock company is therefore the best road for the small investor to take when he is desirous of making a small investment.—Bonds and mortgages.

SHOULD COMBINE THEIR JUDGMENT.

When one takes the trouble to thoroughly investigate the merit of some mining companies and the standing of the officers of the enterprise it will generally be found that there is one man guiding the proposition, and upon his judgment to a great extent depends the success or failure of the enterprise. This one man will be found to be one of the officers of the enterprise and of course a director of the company. There are other directors and officers, but in many instances these gentlemen are mere figure heads and know little or nothing about the operation of the company.

To Leave in November.

Sometime during the month of November next Dr. George Wall with his family will depart for Los Angeles, Calif. This step is taken not from a desire to leave Cottage Grove, but by the advice of a number of physicians with whom he has consulted and who have advised the change.

Some ten years ago the Dr. had an attack of rheumatism which confined him to his home for some weeks. Ant about Christmas time of last year he was again stricken with the disease, and it was only by the most strenuous efforts and care received at the hospital in Portland that he survived.

For more than seventeen years the Dr. has been a prominent citizen in the community, has been recorded a large practice both in the city and surrounding country. He has built an elegant home and has one of the best equipped offices in the state, and it is here he has intended to remain until the close of life.

Twice has he served the city as its Mayor, and it was during his administrations that the water works were installed by the city and the electric light plant franchise was granted. He is serving his second year as a councilman and was an earnest advocate of the sewer system, now being laid throughout the city.

The Dr. says while he regrets the necessity of disposing of his property and moving to other climes, he finds the hardest of all is to separate from the many warm friends he has made during his residence in the city. Dr. Hockett will succeed to the practice.

Aged Odd Fellow Dead.

On Monday morning the news came of the death of Samuel Garoutte, a long time resident of this city, but who recently went to California for his health.

Mr. Garoutte was born May 11th at Pleasant Hills in the state of New York, and went to Cincinnati, Ohio, with his parents in 1829. From there to Iowa in 1855 and came to Oregon in the early Sixties. He was one of the oldest Odd Fellows in the state having been a member of that order over 50 years. At the time of his death he was a member of Cottage Grove lodge No. 60. The remains were brought here and will be buried today under the auspices of the Odd Fellows.

Mrs. J. P. Hart, who has had charge of the culinary department at the Oregon Mineral Springs the past summer, arrived in the city Saturday and spent Sunday at Eugene visiting her two daughters who are attending school at that place.

Mrs. Hart will soon take charge of the boarding house for Mr. W. B. Dennis at the Black Butte Quick Silver Mines.

BOHEMIA STAGE

The stage has just left Bohemia for Wildwood station on the O. & S. E. railway eighteen miles distant. During the summer months the stage makes three weekly trips between the two points. As it stopped at one of the camps of the Vesuvius Mining Company the photographer caught the above picture. To those familiar with mining camps, it is very suggestive of old times.

Methodist Conference

The Oregon Conference of the Methodist Episcopal Church which has been holding a session for the past week in Eugene, closed Monday night at a late hour. There were special evangelist at services throughout the week, conducted by Evangelist Smith and there were many conversions and a general uplifting of all in attendance.

Foot Ball

The East Side School boys have organized a foot ball team. For their size and weight they are equal to any team in the State. The line up of the team is: Elmer Hastings, center; Marvin Jordan, right guard; Harold Evenden, right tackle; Melvin Jordan, left tackle; Jessie Lewis, right end; Albert Woolley, left end; Allen Baker, quarter back; Chester Baker, left half back; Robert Sherwood, right half back; Bud Lincoln, full back; Rupert M'gee, sub.

Great Western Snake Show.

Opposite the Imperial Hotel at the red tent, Tuesday afternoon and continuing Wednesday, Prof. Lee Kelley is giving an interesting Snake show. He is the only man in the United States who shows the poisonous fangs of the rattlesnake and copperhead. Instructions given how to treat venomous bites. Visit the show and be entertained.

The Rhapsody of Miss Oglesby

has been left for sale at the store of Veatch & Curran.

Christian Science services will be held in the hall in the Bank building, each Sunday at 11 a. m. All are cordially invited to attend.

Miss Annie Oglesby has closed her Novelty store and on Saturday departed for Oregon City where she has accepted the management of the Postal telegraph office.

A young man of Eugene, Chas. Wellie Evans, has published a book in pamphlet form under the title "In The Bowels Of The Earth," from scanning which the assumption may be made that the author has come in contact with an autograph edition of "Eidolopha," a fanciful and extravagant tale of subterranean wanderings published in a limited but exceedingly fine edition a few years ago. In his story Mr. Evans has imagined a population beneath the terrestrial crust and has built about the people of the sub-world a story of adventure and thrilling experiences that will no doubt prove entertaining. Mr. Evans has been a student at the Eugene High School and has written several short stories.

How About Your Summer Vacation.

Newport on Yaquina Bay is the ideal seaside resort of the North Pacific Coast. Round trip tickets at greatly reduced rates on sale from all Southern Pacific points in Oregon, on and after June 1st. Ask Agents for further information and a handsomely illustrated souvenir booklet, or write to Edwin Stone, C. & E. R. Albany, Ore., or W. E. Conan, G. P. A., S. P. Co., Portland.

J. H. Davidson has a nice lot of new shoes for boys.

Died at advanced age.

Mrs. Louisa M. Oliver, better known as Grandma Oliver died on Monday morning at the advanced age of 93 years and 3 months. Grandma Oliver at the time of her death was living at the residence of her daughter Mrs. L. M. Thompson in Cottage Grove. She leaves three children all of whom were in the city at the time of her death. Mrs. L. M. Thompson, Mrs. Julia Smith of Ogden Utah, and D. P. Burton for many years Assessor of Lane County; also her grand daughter Mrs. Julia West and great-grand daughter Miss Smith and Willie Thompson grand-son. From early in life Mrs. Oliver has been a devoted Christian and died strong in the faith she loved so well. Her friends say to know her was to love her. She was born in Dutchessburgh County, New York, July, 25th, 1811.

The funeral services were held at the Christian Church on Tuesday at 2 p. m. "Uncle" Joe Sharp a minister 80 years of age pronounced the funeral sermon.

DIVIDE.

Mr. W. S. Miller and family are moving to Coyote Creek, G. A. Miller is already located there and A. D. Miller is expecting to move there in a short time.

Mrs. M. J. Hilliges of Creswell was visiting her sister Mrs. Roy Coffin the first of the week.

School opened with a fair attendance 25th of September.

Mr. Soderstrom has purchased the Roy Coffin ranch and will soon take possession.

Mr. Jacob Goltwitz, W. W. Tucker and families returned last week from the coast.

Mr. Green is busy erecting a residence and other buildings.

Successful Operation.

About twelve years ago Rev. Armstrong lost his left hand in a planing mill. Ever since that time he has been troubled with a painful stump. Recently it became so severe to longer endure and on Sept. 21st he submitted to an operation for the removal of the enlarged nerves and other offending portions. The operation necessitated an incision some six inches long in the stump and was successfully performed by Dr. Copron. It is remarkable that in seven days the wound was healed and the bandage removed.

World's Fair Rats Extended.

Through the efforts of the Great Northern Railway, World's Fair excursion tickets will be sold on October 27, 28th and 29th, in addition to October 3rd, 4th and 5th. For full information apply to any Great Northern Agent. 37-5

Hon. J. M. Glass who is touring Oregon in the interests of local option, occupied the pulpit at the M. E. Church both morning and evening last Sunday.

At night the Church was crowded with those who were desirous of hearing what he had to say upon the subject. Mr. Glass is a very earnest and interesting speaker and held the attention of his audience throughout.
