Six Counties Prohibit.

Those in favor of abolishing the saloons from the state succeeded in carrying six counties and came very close to adding several other counties to the list.

During the campaign some very earnest work was done by those in favor of prohibition and the same might well be said of those opposed to it, although done in a different manner.

For the most part there was but little said or done to which exceptions might be taken. In a few instances however, threats of boycotting were indulged in. This is always a poor method to employ, as it engenders bad feeling without changing the vote.

There is an honest difference of opinion concerning the sale of liquors in the state and each one is entitled to follow his best judgement. With the six counties conducted under prohibition an opportunity will be furnished the rest of the counties of the state to watch the success or failure of the movement and can act accordingly in the future.

The Commercial Club of Cottage Grove holds its regular meeting every Tuesday night, where matters considered of any importance to the city of Cottage Grove on the surrounding country are discussed.

Every business man or property in the city should become a member of the Club and add his mite and support in advancing the interests of the Community.

There is a big field for work by the citizens of the city and it is only collectively that much good can be accomplished.

As a result of the advertising through the Cottage Grove newspapers suggested to them by the discussion of the subject at the meetings held by the Commercial Club of the city, parties are now here looking over the field for the establishment of a creamery. Let the good work go on.

Waiting For an Amalgamator.

Mr. G. F. Marvin of the Uncle Sam mine came down from Blue River yesterday. They are now on the eve of getting their mine into the list of producers now. The rock crusher has been at work for several days and they have sent to Eeastern Oregon for an experienced amalgamator, who when he arrives will commence the work at once. Mr. Marvin has great faith in the ultimate success of the Uncle Sam.—Eugene Register.

Too Much Mud.

One can go all about the city and by keeping to the sidewalks avoid the mud. It is different however at the crossings in the business part of the city, the constant travel of teams roll the mud onto the crossings. If some plan could be devised to keep these crossings free of mud it would please many of the people.

It was rumored some weeks ago that main street was to be cleared of the mud which has accumulated during the past few months. It certainly would be an improvement

K of P

Juventus Lodge K of P on last Wednesday evening gave a farewell reception to Dr. George Wall, one of its oldest and most honored members.

Following the usual routine work members of the order and invited guests assembled around the tables which were well supplied with many good things to eat, by Tom Parker the baker and caterer.

Frank Rosenburg acted as toast master. To J. C. Howard was assigned the duty of presenting a valuable lodge jewell to Dr. Wall on behalf of the members which he did in his usual happy manner. One of the principal toasts, "The Ladies" was responded to by A. C. Gage. Every one present expresaed regret that Dr. Wall and his respected family should find it necessary to depart from the city which they have so long made their home.

Mrs Sadie Downing Dies at Los Angeles.

The Register is in receipt of a letter from Los Angeles conveying the news that Mrs. Sadie J. Downing died there on the eighth inst. Mrs. Downing passed her girlhood days and her early married life in Tulare and vicinity and will be remembered by many of our people. Her maiden name was Sadie Sentell and she taught school at what was then known as the Buzzard Roost school house, and while there became acquainted with Rufus L. Downing, to whom she was married. Mr. Downing was a brother of Miss Ida Downing and Mrs. Marcus DeWitt, Mr. and Mrs. Downing removed to Oregon, where he died, and after his death Mrs Downing taught school in that state. For the past two years she has resided in Santa Barbara with her brother, T. H. Sentell.

The above is taken from the Tulare Register of California, Mrs. Downing was well known in this vicinity having taught school in this city and Creswell for several years Mr. Downing some eight years ago started to go to Bohemia and became bewildered in a snow storm and perished. Downing,s Point where the body was found was given his name.

A Real Treat

The Philharmonic Ladies quartetey of Chicago gave a delightful entertainmentat the Opera House on Monday night under the auspices of the Cottage Grove Public School.

It was pronounced by those who were in attendance to be the best of the kind ever given in the city. Ten numbers were rendered besides numerous encores.

Although the audience was small, it was appreciative and the singers gave a full programe. Those who failed to attend missed a rare treat.

Mr. and Mrs. James W. Sears left Thursday for Wilderwood Ore. where they will remain until next spring when they will return to their mountain home and mining properties in Bohemia.

Earning Power of Money.

The investor who is satisfied with a low rate of interest is in the same class with the workingman who is content with low wages. Intelligent effort toward self-improvement and alertness to opportunity will largely increase the earning capacity of a man. Equally effective for increasing the earning capacity of money is persistent and energetic investigation by the investor.

In some localities and industries wages are low because there are more laborers than are needed. The same is true of money. In other localities and industries there are fewer men and less money than can be used in profitable production, and both wages and interest are high.

A man who wishes to take advantage of an opportunity to earn higher wages may be prevented from doing so by the cost of transportation from one place to another or by lack of time necessary for special preparation. Capital may be invested in such a way that it is difficult to transfer it without sacrifice. With money or convertible paper the case is very different. Money is mobile. The cost of transportation is insignificant. Money is capable of indefinite subdivision and may be placed in any amount, large or small, wherever and whenever the outlook is most promising. Money does not vary in efficiency. One man's dollar is as good as another's. It needs no special training.

Yet while some money is earning only 3 or 4 per cent, other money is earning 10, 20 and 40 per cent. It depends entirely upon the investor to make his money highly productive. Formerly the man with large capital had an immense advantage over the man with small capital. Now they are practically on the same plane. Effective combination, made possible by the perfected machinery of modern finance, enables a large number of men with a few dollars each to attain as great efficiency as a small number of men with huge fortunes. In the production of new wealth the stock company has become as important as the division of labor, and it is destined to more extended application. Through the agency of the corporation, the man with a few dollars where capital accumulates can place them where he can share in the exploitation of the vast undeveloped resources of regions far from his own home. In the mines and oil fields of western America, in unreclaimed swamps and arid lands, in the practically inexhaustable food-producing areas of tropical America, are the fields for much of the most important work of the world in the twentieth century, and many of the best opportunities for the profitable employment of money. This work will be done largely by stock companies and the aggregate power of thousands of small investments.—Western Miner and Financier.

CLIMATIC CURES.

The influence of climatic conditions in the cure of consumption is very much overdrawn. The poor patient, and the rich patient, too, can do much better at home by proper attention to food digestion, and a regular use of German Syrup. Free expectoration in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night sweats. Restless nights and the exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer clime, you will find that of the thousands of consumptives there, the few who are benefitted and regain strength are those who use German Syrup. Trial bottle, 25c; regular size, 75c. At all druggists. German Hemenway

Only 14 Feet.

O. D. Wheeler who has been farming near Eugene, but who has moved back to Cottage Grove, brought to the Nugget office several stalks of corn which prior to cutting off the tops were a little over 14 feet in height. There are two large ears of corn which are seven feet from the base of the stalk. He also brought sveral potatoes of Burbanks variety that measure 13 inches.

New Era Changed Hands.

Dr. Harry Brehaut after an absence from the city for some time, recently returned to the city. The old drug firm of Morgan & Brehaut has chnged to Brehaut and Hoag Harry says he will be pleased to meet his old customers as well as new ones.

THE BEST LINIMENT.

"Chamberlain's Pain Balm is considered the best liniment on the market," write Post & Bliss, of Georgia, Vt. No other liniment will heal a cut or bruise so promptly. No other affords such quick relief from rheumatic pains. No other is so valuable for deep seated pains in the chest. Give this liniment a trial and you will never wish to be without it. Sold by The Modern Pharmacy.

Everyone speaks a good word for the Margarita Fischer company. You are sure to get the worth of your money. Don't miss a good good show when in your city. Margarita Fischer company, three nights, starting Thursday evening, November 17th. Be sure and see the three Howards. They are top liners in their profession with Margarita Fischer company.

CONSTIPATION.

Health is absolutely impossible, if constipation be present. Many serious cases of liver and kidney complaint have sprung from neglected constipation. Such a deplorable condition is unnecessary. There is a cure for it. Herbine will speedily remedy matters. C. A. Lindley, P. M., Bronson, Fla., writes, Neb. 12, 1902: "Having tried Herbine, I find it a fine medicine for constipation." 50c bottle. At The Modern Pharmacy.

Ledgers, journals and day books at the Eagle Book Store.

BEST LINIMENT ON EARTH.

Henry D. Baldwin, Supt. City Water Works, Shullsburg, Wis., writs: "I have tried several kinds of linement, but I have never received much benefit until I used Ballard's Snow Liniment for rheumatism and pains. I think it the best liniment on earth." 25c, 50c, $1.00 Sold by New Era Drug Co.
