STRIKE CAUSES DEADLY RIOTS.

Poland in State of Anarchy and Condition in Caucasus Worse.

St. Petersburg, Feb. 8. — For the moment the startling crime in Helsinki has withdrawn attention from the strike situation throughout Russia. Today's events in Poland and the Caucasus, however, are quite serious enough to avail themselves. Disorders in the smaller industrial towns of Poland have added more than a score to the total of the killed, and troops have been sent to Warsaw and Kutno, 83 miles west of Warsaw, to quell uprisings there. The strike continues in the Caucasus and conditions are becoming worse, and traffic on the Trans-Caucasian railway is interrupted.

The central committee of the Social Democratic Workers' party has issued a violent proclamation, which has been widely circulated in the factories of St. Petersburg, calling on the operatives to array themselves under the red flag of the Social Democracy and prepare for an armed renewal of the January demonstrations. The proclamation bitterly assails church and state and the higher classes, and concludes: "In order to gain victory, we must organize a vast workers' army. Then again we will start for the palace to present our demands, not like icons and not with supplications, but with arms in our hands, under the blood red standard of the Russian Social Democratic party."

RULES THE LAND.

Rockefeller Interests Gain Control of More of Country's Railways.

New York, Feb. 8. — Positive information came to light in certain quarters today that Standard Oil, through Edward B. Harriman, has secured control of the Atchison, Topeka & Santa Fe railroad and would be in a position to practically dominate the transportation facilities of the country. By this tremendous coup, and others of quite recent date, the Rockefeller interests now control a total of 72,740 miles of railway, representing in stocks and bonds \$3,895,320,000. This vast network of tracks stretches over the East, West, Northwest and Southwest, tapping the very choicest territory in every direction. The only portion of the United States not included in the new map is the Southeastern Atlantic states.

Prior to securing control of the Santa Fe, the Vanderbilt-Harriman interests had a total mileage of 40,849. The Gould-Pacific group adds 13,789 miles, the Rockefeller group proper 10,293 miles, and the Santa Fe brings in 7,809 miles more.

MAY BE WORSE THAN EVER.

Russian Official Says Seed of Revolution is in the Air.

London, Feb. 11. — There is danger of the Russian strike breaking out afresh and in a worse form than the present trouble, according to the Copenhagen correspondent of the Morning Leader.

The propaganda being carried on by the Russian Progressive party, the correspondent asserts, has been most successful. The police admit that there are no signs of an abatement of the agitation, while a high official in the Russian capital fears the trouble will yet assume the proportions of a general uprising, much bigger than the last. "The seed of revolution," he adds, "has been sown among the soldiers with apparent success." This last statement is most sinister. Had even a portion of the troops joined the strikers when the trouble first started, Russia would undoubtedly now be in the throes of a revolution equaling, if not surpassing, the French revolution. Even yet, should the disaffection obtain deep root in the army, the outcome would be appalling.

MUST HAVE PEACE.

Czar Tells General Kurapatkin of His Decision to End War.

London, Feb. 8. — Additional information indicating that Russia is making ready for peace is cabled to the London Daily Chronicle by its St. Petersburg correspondent and published in Wednesday morning's issue.

In addition to this, the correspondent asserts that special instructions were sent to General Kurapatkin on Tuesday by the czar, in which he is informed of the decision to terminate the war.

Storm Shuts Off Electricity.

Louisville, Feb. 11. — While conditions resulting from the long continued rain and sleet storm show a slight improvement in the southwest today, there is no betterment of the situation from the Mississippi to the Atlantic coast. The telephone and telegraphic companies in this vast area have been practically out of business since last Saturday night. Atlanta has been shut off twice since Sunday and nothing has been heard from there by wire for 14 hours.

High Water Threatens Town.

At midnight last night it registered 29 feet, which is the highest water since the 1891 flood, when it was 33 feet and the town was wiped out. Citizens with shovels and scraper teams have labored all day strengthening the weak points. The government levee on the Gila is generally considered to be safe, but the embankments on the Colorado river are causing grave apprehension.
