

**FAMOUS ATHLETES PAY GLOWING TRIBUTE TO PE-RU-NA**  
As a Spring Tonic to Get the System in Good Shape

"I advise all Athletes who are about to go in training to try a bottle of Pe-ru-na."  
—J. W. Glenister.

John W. Glenister, Champion Long Distance Swimmer, and only Swimmer to Successfully Swim Through the Michigan Whirlpool Rapids.

**PE-RU-NA**  
Renovates, Regulates, Restores a System Depleted by Catarrh.

John W. Glenister, of Providence, R. I., champion long distance swimmer of America, has performed notable feats in this country and England. He has used Peruna as a tonic and gives his opinion of it in the following letter:

New York.  
The Peruna Medicine Company, Columbus, Ohio:  
Gentlemen—This spring for the first time I have taken two bottles of Peruna, and, as it has done me a great deal of good, I feel as if I ought to say a good word for its worth.  
"During the springtime for the last few years, I have taken several kinds of spring tonics, and have never received any benefit whatever. This year, through the advice of a friend, I have tried Peruna and it has given satisfaction.  
"I advise all athletes who are about to go in training to try a bottle, for it certainly gets the system in good shape."  
Yours truly,  
JOHN W. GLENISTER.

**ATHLETES** realize the importance of keeping in good bodily trim. The digestion must be good, the circulation perfect, sleep regular and enough of it.

If the slightest catarrhal condition of lungs or stomach is allowed to remain, neither digestion nor sleep will be strength-maintaining.

Those who lead very active lives, like athletes, with good muscular development, find the spring months especially try g.

Athletes every where praise Peruna because they, of all men, appreciate the value of a tonic that dispels physical depression.

The vocation of some men may allow them to endure the depressing feelings incident to spring weather, but the athlete must never allow himself to get "under a weather."

He must keep in the "pink of condition" all the time.

In order to do this he must avail himself of a spring tonic upon which he can rely.

Therefore Athletes are especially friendly toward Peruna.

Peruna never fails them.

**Old Animal Laws.**

When a dog was unlawfully killed in countries differing so widely as Germany and Arabia the owner of the animal used to be indemnified in the following manner: The dog was hung up by the tail, with the point of its muzzle touching the ground, and the man who had committed the offense was obliged to pour over it corn or flour until the carcass was completely hidden by the heap. This heap then became the property of the man who owned the dog.

In Syria there was a specially curious variation, for if it were a street dog that was killed the flour was made into bread and given to its fellows. No doubt this arose from the value attached in those old parts to street dogs as scavengers. By the old Welsh laws of Howell the damages for killing an animal belonging to another were assessed in the same odd manner.

**Notes on the May Century.**

General attention is being called more and more to what seems to be a widespread religious awakening. Now it is Australia or Wales or New Zealand that is affected; then amazing reports come from Korea; next, perhaps, are extraordinary returns from Los Angeles, Atlanta or Pittsburg. These conditions will be discussed by Henry R. Elliot in the May Century under the title of "The World-wide Spiritual Awakening."

**Mistaken Kindness.**

Jack—Hello, old man! Awfully glad to see you. Here, take off that coat and put on this smoking jacket and make yourself comfortable. Dick—Duck take it! Do you mean to insinuate that I don't feel comfortable in a dress suit?

**Man to the Disease Proof.**

It has already been suggested that the appendix should be removed from every infant as a routine measure. But this is clearly insufficient, says the British Medical Journal. The surgery of the future must include far more than this. The tonsils and turbinate bones of the nose must be cut out, because they may harbor germs. What Arbutnot Lane calls the "human cesspool" (that is, the large intestine), must be removed along with a considerable part of the upper portion of the alimentary canal, because it won't be needed when we begin to live on M. Berthelot's tablets and pills. The too readily decaying teeth will be pulled out in early life and the germ-proof store variety inserted. The falling human eye will be anticipated by spectacles in early youth. Deficient moral sense and degeneracy will be treated by ventilation of the brain and removal of the offending areas.

Thus protected against the perils of civilization, the man of the coming centuries will be able in his journey through life to defy the countless enemies that seek to rob him of health—sana teeth, sane eyes, sane taste, sane everything.—Philadelphia Record.

**Somewhat Different.**

Food memories of the long ago—Come back with songs I used to sing; But when songs I send to publishers—Come back—well, that's another thing.

**As Explained.**

Husband—I wonder why men's pockets are so easy to get at, while women's are so difficult?  
Wife—Oh, that's easily explained. A man has no business with a woman's pocket, but a woman has with a man's. That's the answer.

**OLD SORES OFFENSIVE-DANGEROUS**

Nothing is more offensive than an old sore that refuses to heal. Patiently, day after day, it is treated and nursed, every salve, powder, etc., that is heard of is tried, but does no good, until the very sight of it grows offensive to the sufferer and he becomes disgusted and morbid. They are not only offensive, but dangerous, because the same germ that produces cancerous ulcers is back of every old sore. The cause is in the blood and as long as it remains the sore will be there and continue to grow worse and more destructive. The fact that thousands of old sores have been cut out and even the bones scraped, and yet they returned, is indisputable evidence that the blood is diseased and responsible for the sore or ulcer.

Some years ago my blood became poisoned, and the doctor told me I would have running sores for life, and that if I were closed up the result would be fatal. Under this discouraging report I left off their treatment and resorted to the use of S. S. S. Its effects were prompt and gratifying. It took only a short while for the medicine to entirely cure up the sores, and I am not dead as the doctors intimated I would be, neither have the sores ever broken out again. JOHN W. FUSTIA, Wheeling, W. Va., May 28, 1903.

Valuable time is lost in experimenting with external treatments, such as salves, powders, washes, etc., because the germs and poisons in the blood must be removed before a cure can be effected. S. S. S. cleanses and purifies the circulation so that it carries rich, new blood to the parts and the sore or ulcer heals permanently. S. S. S. not only removes the germs and poisons, but strengthens the blood and builds up the entire system by stimulating the organs, increasing the appetite and giving energy to the weak, wasted constitution. It is an exhilarating tonic, aids the digestion and puts every part of the body in good healthy condition. Book on the blood, with any medical advice wished, without charge.

Mrs. Spenders—I wonder what will be the popular styles in bonnets next summer? Mr. Spenders—My dear, women's bonnets will be divided into two styles, as usual—the style you don't like and the style I can't afford.—Royal Magazine.

"Don't be so lazy. There's plenty of room at the top, and you're clever enough to get there." "But," replied the lazy genius, "think how clever it is of me to find a place at the bottom, where there isn't so much room."—Philadelphia Ledger.

"I think," said the prison visitor, "it would be helpful to you if you would take some good motto and try to live up to it." "Yes," said the convict; "now, I'd like to select, for instance, 'We are here to-day and gone to-morrow.'"—Philadelphia Press.

"Your daughter's music is improving," said the professor, "but when she runs the scales I have to watch her pretty closely." "Just like her father," said Mrs. Nurtch. "He made his money in the grocery business."—Philadelphia Public Ledger.

Cottager—Do you ever farm folks ter paint plecters like that there, sir? Artist—Oh yes; sometimes. Why do you ask? Cottager—Well, sir, this 'ere boy o' mine ain't fit for nuthin'. 'e be that there delicate 'e can't do no 'ard work; an' 'e not bein' quite right in 'is 'ead, I thought as 'ow this 'ere 'ud be a nice, light occupation for 'e.—Punch.

"No," said the impetuous one, "you can't believe all that you see in the newspapers." "Are you prepared to specify?" the other man asked. "I am. I saw a statement in the financial columns that money was easy, but when I tried to negotiate a loan I found that the reverse was true." "You misunderstood the paragraph. It did not say that people were easy."—Judge.

**Key to the Situation.**

The sheriff was standing on the corner with a large brass key in his hand. "What's that big key for?" asked the inquisitive boy. "That," answered the sheriff, "is the key to a clock factory. The proprietor let the business run down and I've got to wind it up. See?"

**Effects of Prosperity.**

In the six years of the country's greatest prosperity, from 1897 to 1903, average prices of breadstuffs advanced 65 per cent, meats 25.1 per cent, dairy and garden products 50.1 per cent, and clothing 24.1. All these were products of the farmer and stockman, who profited more than any other class of the community by these advances. The miner benefited 42.1 per cent, by that advance in the average price of metals. The only decrease in the average prices of commodities in that period was in railway freight rates, which decreased from .798 per ton-mile in 1897, to .763 in 1903, a loss of 4.4 per cent. The report of the Interstate Commerce commission shows that the average increase in the pay of railroad employes in that period was a trifle above 8.5 per cent.

**A Life-Saver.**
