

**ADDITIONAL LOCALS.**

A new supply of hose and sprinklers at Wynnes' hardware.

Last week Mr. Kebbels sold to his sons John and George the property next to Bills cigar store. Mr. Kebbels was desirous of disposing of the place in order to get money to improve his residence lots and was offering it for sale.

John the eldest, who has worked his way through school, besides working in the timber and logging camps had saved up some money, decided it was a pretty good thing to own and taking the brother in with him they combined their capital and took the property at the price asked by the father, making a good sized payment and agreed to pay the balance in a specified time. The price was \$1500.

While this may seem like a small matter, yet it suggests what young men can do if they choose. These boys have not spent their time sitting about town waiting for something to "turn up," but have been industrious and are already property owners.

John is now time keeper in one of the logging camps, while George is having the building put into shape or rent.

Mr. and Mrs. C. E. Jones whose residence is just at the eastern edge of the city have a rather unique combination of cat and chicken.

The cat has a family of kittens and recently a setting hen hatched out but one chick. Mrs. Jones did not propose to allow her hen to waste the summer in bringing it up, so she put another setting of eggs under and kept her at work. The chick she took to the house and thought she would see what the cat would do if it was put into the basket, and was much surprised to see the cat take kindly to the little thing and allow it to nestle in with the kittens. Since then the cat has to all appearances adopted it and the chick seems as well satisfied as if under the mother hen.

When the cat leaves the basket the chick sets up a lively peeping which worries the cat, so much that she sometimes hurries back to the basket before finishing her food. The chicken is fed by Mrs. Jones.

**CHAMBERLAIN'S COUGH REMEDY THE BEST AND MOST POPULAR**

"Mothers buy it for croupy children, railroad men buy it for severe coughs and elderly people buy it for a gripe," says Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. Sold by The Modern Pharmacy.

**THE BUYING OF TREASURY STOCK**

All men cannot own mines from which gigantic fortunes are made, but almost any one can own stock in mining companies owning properties of good prospective value because this is about the only kind of a mining proposition that one can buy into these days, barring fakes and wild investments, as it is not a common thing in this day and age to hear of the sale of treasury stock in a mining enterprise which is already productive and which is paying the owners big money.

Therefore, if a mining public desires an investment in mining securities, the natural thing to do would be to purchase treasury stock in some company which has ground of undisputed value and merit which it desires to equip and develop. If the company is composed of experienced, reputable men, and its property is well located in a good district, the chances are that the purchaser of treasury stock will make thousands upon the investment where only hundreds have been put in. Not every investor in mining securities meets with success, but we can point out a great many instances where the small investors in treasury stock have made their fortunes because of their good judgment in this respect.

All of our great dividend-paying mines of today at one time were only good prospects. In many instances companies formed for their operation had difficulty in selling enough treasury stock to develop them to a point where they could be listed as producing mines. We have seen treasury stock sell at a dollar which a few years later readily brought the owner \$10 and \$20 a share. We have known treasury stock to go begging at \$5 a share, and we have known the same stock, five or six years later, as a ready seller at \$100 a share; and, during four of these years, this stock paid \$1 a share a month in dividends.

As a general thing those having a few hundred dollars to invest in mining cannot hope to become large mine owners. Even with ample funds at their command their business affairs may be such that they cannot devote their time to this fascinating pursuit. But they can buy treasury stock in a good mining company and thereby become indirectly interested in the great mining industry of the West and at the same time be free to follow their usual business avocations untrammelled by the care and worry which necessarily attaches to the ownership and operation of a mining proposition.

Stock investment is a phase of the mining industry that appeals strongly to the laboring classes, to the merchant, the clerk, the banker and those engaged in various business undertakings, and many such have become independently wealthy by means of such investments. This is really the easiest way and, possibly, the safest to engage in the mining industry for those who cannot give their whole and undivided time to the management of a big mining enterprise.—Salt Lake Mining Review.

**ABOUT RHEUMATISM**

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by The Modern Pharmacy.

Naeley's Canyon, a wonderful scenic park leading up into the mountains from the Lewis and Clark Exposition grounds promises to attract thousands of people who will visit Portland this summer. The park is still in its primeval state, except for winding paths that lead through the trees and up and down the steep hills.

**RHEUMATIC PAINS QUICKLY RELIEVED**

The excruciating pains characteristic of rheumatism and sciatica are quickly relieved by applying Chamberlain's Pain Balm. The great pain relieving power of the Balm has been the surprise and delight of thousands of sufferers. The quick relief from pain which it affords is alone worth many times its cost. For sale by The Modern Pharmacy.

Oregon's mining display at the Lewis and Clark Exposition will show astonishingly rich deposits of gold, silver and copper, with specimens of gold from very rich new discoveries that run as high as \$20 to the ton.

Keep your bowels regular by the use of Chamberlain's Stomach and Liver Tablets. There is nothing better, for sale by The Modern Pharmacy.

**Fines Imposed.**

During the month of March and April the following list show the work done by State Game Warden Baker and deputies and fines imposed:

William Shavin, killing elk \$25.00  
J. R. Tucker, killing deer \$25.00  
Pete Lenoti, killing deer \$25.00  
S. Morlan, selling trout \$20.00  
J. C. Haight, killing deer \$25.00  
W. Forst, untagged hoes \$25.00  
Two cases yet unreported.

When Deputy G. W. Marvin at Glendale arrested W. Frost, he had a little trouble with that gentleman as he threatened to shoot any one who interfered. The deputy proceeded to take Frost's gun away from him, took possession of the team and man and drove to town where the trial was had and fine imposed. Costs of the trials were added to the above fines.

**A POSITIVE NECESSITY**

**A SURE THING**

It is said that nothing is true except death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. B. VanMetre of Shepherdsboro, W. Va., says: "I had a severe case of Bronchitis and for a year, tried everything I heard of, but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely. It's infallible for Croup, Whooping Cough, Grip, Pneumonia and Consumption. Try it. It's guaranteed by Benson's Pharmacy. Trial bottle free. Reg. sizes 50c, \$1.00."

The Easter dress parade at the Lewis and Clark Exposition was gorgeous. Many thousands of people entered the exposition gates, the day being delightfully bright and balmy. Everybody was astonished at the rapid progress of finishing the Exposition.

**FOR A WEEK DIGESTION.**

No medicine can replace food but Chamberlain's Stomach and Liver Tablets will help you to digest your food. It is not the quantity of food taken that gives strength and vigor to the system, but the amount digested and assimilated. If troubled with a weak digestion, don't fail to give these Tablets a trial. Thousands have been benefited by their use. They only cost a quarter. For sale by The Modern Pharmacy.

**A STARTLING TEST**

To save a life, Dr. T. G. Merritt, of No. Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes: "A patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in 14 months." Electric Bitters are positively guaranteed for Dyspepsia, Indigestion, Constipation and Kidney troubles. Try them. Only 50c at Benson's Pharmacy.

**Real Maple Sugar.**

The Department of Agriculture's Bureau of Forestry is trying to revive and extend the production of maple sugar. As persons of middle age can remember, maple sugar was formerly obtained from the sap of maple trees. Now it is usually compounded of glucose, brown cane sugar, extract of hickory bark and other substances capable of more or less plausible disguise. The Bureau of Forestry considers it a moderate statement to say that seven-eighths of all the maple sugar and syrup on the market are counterfeit. It thinks that the production of the genuine article can be made profitable throughout the Northern states and down as far as the mountains of Eastern Tennessee and Western North Carolina. Its investigations show that a farmer can easily clear \$3 per acre, and usually more, from a sugar grove on land that would be useless for any other purpose. At the same time this industry would help to preserve forest conditions. The Bureau believes that the producers can push pure goods into the market at a little higher price than is now paid for adulterated articles by forming associations, adopting registered trade-marks carrying absolute guarantees of quality and, if necessary, selling direct to the consumers instead of to the middlemen who are responsible for the present conditions.—Collier's Weekly.
