Two inches of snow fell in Sumpster Saturday and Sunday.

We pay 28c for wool and 18c for eggs. Subject to market change. Metcalf & Brund.

The attention of the mining and milling men and those who contemplate the erection of mills or are in need of any mining or milling machinery, to the advertisement of John H. Traylor which appears in this issue.

Metcalf & Brund pays the highest market price for country produce of all kinds. We especially solicit your chickens, dressed veal, wool, hides and pelts.

The Sunday observance committee of the Southern Presbyterian general assembly in session at Fort Worth, Texas, made discovery that the general disregard for the Lord's day was the cause, to a certain extent of so many disastrous railroad wrecks.

Trains No. 14 and 15, now known as the "Albany Local" will be extended to Eugene instead of stopping at Albany, as by the present rule. The change will be made either the last of this month or the first of the next. The exact date has not been determined.

The mayor of Springfield made a request to close the churches, Sunday School and lodges for the present until the epidemic of scarlet fever abates. The directors of the school were requested to close, but refused and every few days pupils are compelled to leave because they have contracted the disease. Several deaths have occurred during the past two or three weeks.

The wool market of the valley has advanced over 3 cents in the past week. The sheep in the valley are in excellent condition, and the wool is of an exceedingly high grade, owing to the mildness of the past winter. The present and past inclemency of the weather has been the cause of delaying shearing this spring, but the growers are living in hopes of being able to begin by June 1.

School Teachers Chosen

At a meeting of the school board last week the following named teachers for the ensuing year were selected and the positions tendered them. While but two have thus far signed contracts it is probable they will all accept.

Prof. J. M. Kay of Deer Lodge, Montana, principal of Schools; Prof. C. L. Strango, assistant principal, have signed contracts.

Those not yet signed are: Nora Smith, Ashland. Mary Munday, Ashland. Stella Campbell, Ashland. Venia Powers, Cottage Grove. Christie Wheeler, Junction. Mabel Mickey, Medford. Ola Mickey, Medford. Marion White, Cottage Grove. Cordelia Grant, Ashland.

Professor Kay comes highly recommended. He is closing his seventh year at Deer Lodge and the school board of that place state it was their desire to retain him. Owing to the altitude at that place, he finds it necessary for Mrs. Kay to have a change. They have a family of five children. Professor Strango taught at the West side school last year and received the unanimous support of the people and school board for his retention.

All the other teachers are favorably known and the schools the coming year should be of a high order.

Flag Day

We, as freshmen's wish to correct the mistake that the juniors wrote and put in our High School paper. The wound that the girl received was not by the knife used for the flag but a large splinter from the pole. And as for help, it was said that we freshmen received outside assistance. No—only the boys that had stopped school, and when juniors had their day, sophomores, seniors and outside help was rendered. Fearing for the flag they sent down town for help and a man came up with ropes and was prevented from going very far by some of the spectators who thought it unfair.

The door it was said was broke down with an ax which is not true, as there was not an ax around the yard.

More of it, the juniors waited until some of our boys were gone and our room out and then gave us about two hours warning.

We did not know whether the freshmen lost their temper or not but it was best to say that, because we got the flag.

Several of the juniors it was said were hurt, but not as bad as one of the freshmen boys.

It is also said that a junior "rabbed" the flag but I think that it was a wise froshie.

The juniors never got the flag after it was down and it was burned in the sight of a few freshmen. There were as many juniors as freshmen when they fought on the walk.

The victory for the freshmen was very unfair for the witnesses and juniors it was rumored but the witnesses said it might have been for the juniors but not them.

THANK FRESHIES.

GIVEN AWAY

"The Three Most Beautiful Roses" By
Paul de Longpre

At the urgent solicitation of the Woman's Home Companion, Mr. Paul de Longpre, who is the greatest painter of flowers in the world, consented to make a painting of what he considered "The Three Most Beautiful Roses," and the painting is without doubt one of the masterpieces of this great artist. This magnificent picture is reproduced in all its original grandeur on the cover of the Woman's Home Companion for June. Although this cover is an accurate reproduction of a painting worth hundreds of dollars, yet the June number, which has this exquisite cover, may be obtained at any first class news-stand or direct from the publishers for the trivial sum of only ten cents.

Mr. Paul de Longpre is justly styled the "King of Flower Painters." He not only paints roses, but every flower that grows, and is the highest authority on flowers. His paintings are found in the most select homes. Some have sold for as much as seven thousand five hundred dollars (\$7,500.00).

Artists, art critics and competent judges all agree that the covers of the Woman's Home Companion far exceed those of any other magazine.

The Woman's Home Companion is a magazine which in beauty and excellence, art, stories, illustrations and fashions, etc., excels all other home and family magazines. The Woman's Home Companion is published by The Crowell Publishing Company, New York City, also Chicago, Ill., at one-dollar a year, and is the favorite magazine in nearly half a million homes, where it is read each and every issue by three million people.
