Messrs. S. P. Fellman and W. W. Adams of California spent something like a week in Bohemia mining district. A good many rumors are floating about of their looking up a smelter site. "The Three Most Beautiful Roses" By Paul de Longpre

At the urgent solicitation of the Woman's Home Companion, Mr. Paul de Longpre, who is the greatest painter of flowers in the world, consented to make a painting of what he considered "The Three Most Beautiful Roses" and the painting is without doubt one of the masterpieces of this great artist. This magnificent picture is reproduced in all its original grandeur on the cover of the Woman's Home Companion for June. Although this cover is an accurate reproduction of a painting worth hundreds of dollars, yet the June number, which has this exquisite cover, may be obtained at any first class news-stand or direct from the publishers for the trivial sum of only ten cents.

Mr. Paul de Longpre is justly styled the "King of Flower Painters." He not only paints roses, but every flower that grows, and is the highest authority on flowers. His paintings are found in the most select homes. Some have sold for as much as seven thousand five hundred dollars (\$7,500.00).

Artists, art critics and competent judges all agree that the covers of the Woman's Home Companion far exceed those of any other magazine.

The Woman's Home Companion is a magazine which in beauty and excellence, art, stories, illustrations and fashions, etc., excels all other home and family magazines. A Safe Place.

Ore in the mine is better than cattle on the hoof or grain in the field for no disease can effect its value as with the former nor drought or extreme moisture as with the latter. It figures up in dollars and cents and no matter how low grade or complex man, overcomes all obstacles and transforms it into the precious metal.—Blue Mountain American.
