Some Advice

The following taken from the Blue Mountain American is not used because it is applicable to Cottage Grove or any of its citizens, as we don't have that kind of people among us, but is good reading for other places.

TOWN KILLERS.

"If you want to help a town do the following:

1. Go out of town to do your shopping.
 2. Oppose all improvements.
 3. Prefer a quiet town to one of good business.
 4. Lack feeling of public spirit and deride those who have.
 5. Oppose every improvement that did not originate with you.
 6. Oppose everything that does not benefit you directly.
 7. Seek to injure the credit and reputation of every business house and individual.
 8. Tell strangers the town is dull and you don't know if it will ever amount to a tinker's darn (and be sure to tell them that it wouldn't be so if the citizens and newspapers would act on your suggestion.)
 9. Harp continually on hard times and show a feeling of uncertainty. And if it is a mining town like Sumpter, that depends almost wholly on its mineral resources, condemn every mining enterprise no matter how good it is or how little you know about it.
- But above all don't own a foot of real estate or have one dollar invested in any class of business and then stand on the corner and criticize severely as you can, even if you have to use cuss words to do so, the manner and methods adopted by good citizens, who have coin of the realm invested, to advance every possible interest of the town."

The United States Civil Service Commission will hold an examination on the dates and at the places within the State of Oregon, named below, to secure eligibles from which to make certification to fill vacancies as they may occur in the position of Forest Ranger in the Forest Service of the Department of Agriculture.

and 26, 1905. Prineville, Oregon, August 1, 2, and 3, 1905. Hood River, Oregon, August 9, 10, 11, 1905. Detroit, Oregon, August 16, 17, and 18, 1905. Grants Pass, Oregon, August 23, 24, and 25, 1905. Lakeview, Oregon, August 31, September 1, and 2, 1905.

The examination will consist of answering practical questions in writing and in field examination to test the ability of the applicants to actually perform the duties of a forest ranger.

In the field examination applicants, among other things will be required to shoot at target with rifle and with pistol, and should bring with them these arms for the test.

The age limit will be, from 21 to 40 years on the date of the examination. This examination is open to all citizens of the United States who comply with the requirements.

Applicants should at once apply to the United States Civil Service Commission, Washington, D. C., for application form 1093-Amended. No application will be accepted unless properly executed and filed, in complete form, with the Commissioner at Washington. In applying for this examination the exact title of "Forest Ranger" should be used in the application.

For further information apply to the forest supervisor, Roseburg, Oregon.

Roseburg has, many things, past and present, to be proud of, and now possesses a new distinction. One of our native sons is rapidly achieving distinction in the world of literature, the young man being none other than Julian Josephson, who this year graduated with honor at Stanford University. The current number of the Saturday Evening Post contains an article on "College Politics" from his pen that is not only well written but gives evidence of careful thought and clear, logical reasoning faculties that will broaden with age and experience. Mr. Josephson has contributed to many magazines and his articles are not only accepted but are paid for at rates that make the work of the successful author alluring from a commercial standpoint—Roseburg Review.

Geo. C. Ewen, the new landlord of the Hotel Brownsville, accompanied by his family, arrived from Cottage Grove Saturday and have taken possession of the hotel. A letter received by The Times Tuesday from the Treasure mine, Blue River, conveys the information that the work of erecting the mill building for the new mill is being pushed as rapidly as possible under the direction of W. W. McCalley, of Portland. The Treasure is putting in a Merrel mill and it is already being delivered at the mine. All those returning from the district report it livelier than ever this spring and a bigger demand being created every day for the Calopouia wagon road.—Brownsville Times.
