The Bohemia Nugget one year with any one of the following publications one year for amount set opposite: Pacific Monthly \$2.00 Weekly Oregonian (Portland) \$2.50 Weekly Journal (Portland) \$2.00

THIS PAPER is kept on file at E. C. Drake's Advertising Agency, 64 and 65 Merchants Exchange, San Francisco, California. Where contracts for advertising can be made for it.

WEDNESDAY, SEPTEMBER 6, 1905

Only six weeks more time before the Lewis and Clark Exposition closes, as Oct. 15th is the last day.

We have a good creamery started by a man that knows his business, and that is ready to do a fair business. Why can't the farmers that have cream sell it, and make some money, and the farmers that have no cows, get some and get ready to do likewise. Now that we have a good creamery let us show that we appreciate it and patronize it.

The saying that "gold is where you find it" is one that admits of no argument. Just where to find it is the problem. Some of the miners in Bohemia have certainly found it, and now they want to get it out, but cannot do so for lack of transportation and want of proper treatment facilities. If the railroad ran closer to the mines, so that the wagon haul was shorter, if it were possible for a person to make the trip to camp and return in a reasonable time, conditions would be improved so as to encourage investors to look into the district. As it is it takes too much time, for their time is valuable.

### Cottage Grove and its Relation to London Mineral Springs

London Mineral Water is becoming the favorite beverage in many Cottage Grove homes. London Springs is an industry among the many that attract towards Cottage Grove and contribute no small patronage among the merchants. Quietly, steadily and certainly Cottage Grove is growing, some of the residents murmur, they always did. Few merchants or industries go away, some are coming, each month and more are in sight.

One recently asked what sustained the town. Some times from the quiet of our streets, that question would really seem reasonable from one who is not familiar with the natural and resourceful surroundings, and industries tributary to our city.

Seldom you find our merchants idle, box and package after package are found in piles, or being put up for transportation to the adjacent sections, to the East, West, North and South from whence comes the greatest trade to many of our successful merchants and manufacturers. London Mineral Springs is a most popular resort for health and rest, and this has been a banner year for making famous both the resort and its waters. Manager Levi Geer reports guests at his hotel from many Eastern States as well as crowds of closer to home health seekers. Next to a mining boom is the popular health resort to draw the crowds, and send forth the news of the "New Mecca Found".

A car load of the London Springs water was sold in two days in Portland week before last. This week a shipment was made to one of the Mining Companies in Bohemia.

The Nugget in addition to the latest Mining News from Bohemia. Black Butte, Blue River will in the next few weeks give much information in answer to the question what makes Cottage Grove grow.

### Cholera is Spreading.

Berlin, Sept. 4.—It was officially bulletined today that 66 cholera cases and 23 deaths have occurred in Prussia. Of this number, ten new cases and three deaths were reported up to noon today.

While anxiety is not yet the word to describe the feeling of the Imperial health officers, concern over the cholera situation does exist. Most of the new cases do not break out among the quarantined persons, but are suddenly heard of in detached farm houses or villages not contiguous to the Vistula. Hence the inference is that infected districts are widening slowly, and

the measures to hold the disease strictly within the existing boundaries have not been fully successful.

These measures, however, are being sharply increased. Orders were issued today to close all the refreshment houses along the Vistula, except those located in towns. These small restaurants and bars are frequented by rivermen, who are the most likely to be infected.

The anticipation of cholera reaching Berlin, the government began the erection yesterday of two barracks for cholera patients, or suspects, at Koepenick, on the River Spree, near Berlin, and also established an inspection station for river traffic.

### Grand Army Men Flock to Denver.

Denver, Sept. 4.—Receptions and reunions marked the opening today of the 39th annual encampment of the Grand Army of the Republic and the conventions of the various auxiliary organizations. Incoming trains added thousands to the host of union veterans of the Civil war, who had previously arrived, and 50,000 is now regarded as a conservative estimate of the number of strangers who will be in the city this week.

The old soldiers received an enthusiastic reception from their local comrades. Various state headquarters were opened today in the hotels, and the Colonial Dames Society kept open house in commodious quarters for the veterans and their friends, after holding a reception in honor of General John R. King, Commander-in-Chief of the G. A. R. members of his staff and the ladies of his party. A reception was also given to distinguished visitors at the Woman's Club by the Women's Relief Corps, Department of Colorado and Wyoming.

### Alaska's Gold Brick.

The biggest gold brick ever cast, nearly as large as two building brick placed end to end, which contains \$25,000 worth of gold that is purer than the gold in a \$20 coin, has just arrived at the Lewis and Clark Exposition and is being exhibited by the Nome district of Alaska as evidence that Nome is still a great gold-producing region. The gold brick is a foot long, four inches deep and five inches wide, and weighs approximately ninety pounds.

### Burns to the Peaks.

Eugene, Ore., Sept. 4.—The forest fires east and west of Eugene are still burning, but no damage further than the destruction of some good timber is reported. At Walton, where the fire was encroaching upon the settlements, the wind changed, saving the village. The fire near Blue River has burned to the tops of the highest peaks.

### Farmers Take Notice, Now is the Time Sanders Disc Plows are Better than Moleboard Plows.

They are lighter draft. They never get hung. No ground is too stony, too rooty, too sticky or too hard to be plowed with a disc plow. There is no side draft. They will break up the hard pan that has been formed by other plows. They will plow deep and take the place of subsoil plows.

It never gets too dry to plow with a disc plow. You can sow and plant at the proper time. They will not choke. They will turn under anything in the way of vines, weeds, stocks and stubble. You will be at but little expense for sharpening, and you will not need any repairs for a long time.

SANDERS DISC PLOWS ARE BETTER THAN OTHER DISC PLOWS

We guarantee our plows to do good work in any kind of fallow land and not to break in one year from defect in material. Wynne Hardware Company.

### Auction Sale.

September 15, 1905. Sale at 11 a. m. sharp, at the Hendricks ranch in Shoestring Valley, 12 miles east of Yoncalla, and 15 miles northeast of Oakland, on the Coast Fork road. Horses, cattle, sheep, hogs, farming equipment, household goods, etc. Wm. Helliwell, auctioneer.

Eugene is planning for a great water system, and electric light plant for which a large bond issue is being advertised. The water system to be established will receive its water supply from a large well, fed by springs along the river bank. From the well the water will be pumped through a large distributing reservoir. Two sets of pumps will be installed in order to give protection in case of accident to one of the pumps.

C. D. Buckner of Portland went up on the O & S E Tuesday on business returning on the afternoon train.

J. D. Wilson of Yoncalla was in town on Monday.

### Americanizing the Orient.

Beyond the American accessions, Siberia is recognized and sought as a country whose growth can easily parallel that of western America and which, therefore, cannot help affording commercial chances, both large and small. Of course its most immediate prospects are in connection with its agriculture, and in this respect it is not necessary that, in order to give the country value as a place for trade exploitation, the optimistic prophecies of its ability to supply the world with wheat in competition with America and Argentine should be fulfilled. Travelers know that if it supplies northern China alone it develops a market which will keep its farmers busy, create a demand for agricultural implements and lead to the building up of towns and cities. Out of the latter will arise the infinite number of modern necessities associated with town and city building. The many years which may elapse before Siberia, or even Russia, can furnish these necessities to the same advantage that the American and European industrial institutions can furnish them lie open before the active man of trade from other countries, and particularly from America, as his years of profit. American hardware, iron and household goods already penetrate as far inland as Irkutsk.—Sunset Magazine.

Some idea of the magnitude of mining in South Africa may be gathered from a recent letter from Allan Kinkead, general manager of the Ankele Deep Gold Mines on the Rand says the Virginia Chronicle. He has a shaft down 3,860 feet at which point the shaft entered the vein and the Ankele today is the deepest gold mine in the world. He has started another shaft on another group of mines belonging to the Hercules company which when completed will be of still greater magnitude. The shaft is 6 feet by 46 feet inside the timbers and 85 men are employed in the bottom on each shift. There are eight compartments in the shaft—six for hoisting, one for pumps and one for ladders. It is equipped to handle 6,000 tons of rock per day and 9,000 men are employed. The company has 440 stamps dropping on ore from the mine and is about to install another mill with 600 stamps. The stamps are of the heaviest pattern and when the mill is completed the daily crushing capacity will be 5,000 tons in 24 hours. Steam is used exclusively for hoist and milling purposes and the boiler plant has a capacity of 30,000 horse power and the air compressor 7,000. The percentage of white labor employed is about 10 per cent of the Kaffir contingent, white employees wages averaging over \$5 per day. The average value of ore extracted is about \$7.50 per ton in gold.

### Famous Pictures at Portland

The Museum of Art at the Lewis and Clark exposition contains the most notable collection of pictures ever brought together in the west. Upon the walls are hung paintings representing a value of more than a million dollars, though some of them are of such priceless worth that mere figures can not be used to appreciate them. Scores of pictures by the old masters and the best selections from the newer artists of Europe and America are there.

The pictures have been grouped in such manner as to aid both the art connoisseur and the layman in studying them to advantage. The art exhibit is open to all exposition visitors, and those who miss seeing this collection of the world's best paintings will wait many years before another such opportunity presents itself.

### Trade Across The Pacific.

Almost everything that is made in modern nations from raw leather to boots and shoes, from fountain pens to typewriters, from iron in the pig to girders in the viaducts—is finding an introductory sale across the Pacific, and the more far-sighted men who are handling the commodities are penetrating the several countries very much as the advance guard went into the west forty and fifty years ago to establish themselves and become well-to-do and influential. Under their operations American exports alone have already grown fifty per cent within a year, and the signs at San Francisco foreshadow a continued enlargement in proportion to the increasing number of outgoing travelers.—Arthur I. Street in Sunset Magazine for September.

### A REMEDY WITHOUT A PEER.

"I find Chamberlain's Stomach and Liver Tablets more beneficial than any other remedy I ever used for stomach trouble," says S. P. Klotz, of Edna, Mo. For any disorder of the stomach, biliousness or constipation, these tablets are without a peer. For sale by The Modern Pharmacy.

### New Treatment

#### For Varicocele

So many people, old and young are affected with varicocele that a means of having it cured, was something long sought for, and surgical science has been at fault until very recently. Dr. Darrin at Hotel Smeede Eugene is now able to accomplish it, absolutely without pain or detention from business, so the cure is permanent and lasting. As a proof of this assertion we refer, by permission, to Mr. A. J. Armstrong, cutter and chief workman of "Neeloh, the Tailor," at 89 Third street, Portland. Read his card:

#### To Whom It May Concern.

Without solicitation I volunteer my testimonial in favor of Dr. Darrin, who cured me of an aggravated case of varicocele of many years' standing. Had despaired of cure until eight years ago I tried Dr. Darrin's new method, and was permanently cured, and have had no return of the trouble. I most emphatically recommend Dr. Darrin as a skillful physician and a straightforward man in business. Will gladly confer with anyone, either in person or by letter, at 89 Third street, where I have been employed for years. A. J. Armstrong.

#### Dr. Darrin's Place of Business.

Dr. Darrin can be consulted free at the Smeede Hotel Eugene, Oregon, until October 1, from 10 o'clock to 4 daily, evening 7 to 8, Sunday 2 to 4. The doctor makes a specialty of all diseases of the eye, ear nose and throat, catarrh, deafness, bronchitis, influenza, heart liver, bladder and kidney diseases, or those who suffer from apathy and indifference, also genito-urinary and skin diseases in either sex, such as blood taints, seminal weakness and lost vigor, varicocele and stricture.

Circulars and question blanks sent free to any address, and correspondence collected. Many cases can receive the home treatment after one visit to the doctor's office. Batteries and belts furnished with full instructions for their use. Eyes tested and proper glasses fitted.

### REPORT OF THE CONDITION OF THE First National Bank at Cottage Grove, in the State of Oregon, at the close of business, May 29th, 1905.

Table with columns: RESOURCES, LIABILITIES. Includes items like Loans and discounts, U. S. Bonds, and Capital stock paid in.

I, T. C. Wheeler, Cashier of the above-named bank, do solemnly swear that the above statement is true to the best of my knowledge and belief. T. C. WHEELER, Cashier. Subscribed and sworn to before me this 31 day of June, 1905.

### A FAMILY SAFEGUARD

Dr. Green arranges with the Sister of Dr. Boche to handle her famous Uncle's Great Throat and Lung Cure. The best family safeguard is a reliable household medicine that will cure coughs, colds, chills, sensations, running eyes and nose, sore throat and bronchial affections—that will keep the children safe against all contagious diseases. Such a medicine is Boche's German Syrup, which has a record of 35 years in the cure of consumption, catarrh and all lung and bronchial troubles. The fame of German Syrup as a consumptive cure, since its purchase by Dr. Green from the niece of the famous Dr. Boche, has extended to all parts of the earth. It has big sales everywhere. Two sizes, 25¢ and 75¢. All druggists. Boche's Pharmacy.

### Notice.

A general attendance of the members of the Christian Church is requested on Thursday evening Sept. 7th, as matters of importance will come up for consideration at that time. Subscribe for the Nugget.
