There are quite a few forest fires in the Coast mountains at present, in spite of the reports to the contrary. The post office at Walton caught three times last Thursday. Many people who have claims over near the fires are getting rather anxious.

The Cottage Grove Creamery is in a position to furnish all the merchants butter and ice cream, also sweet cream sufficient to supply all their demands. They will pay highest market price for first class cream at 34 cents per pound for butter fat, delivered at the creamery.

The Commercial Club met Monday evening, and transacted the regular business for the month. The reception committee was asked to meet Mr. G. Everett Baker, President of the Improved Smelting and Refining Co. at the train next Monday afternoon and to entertain him until the club meeting that evening, at which time he will present his plan for the construction of a smelter for the Bohemia District.

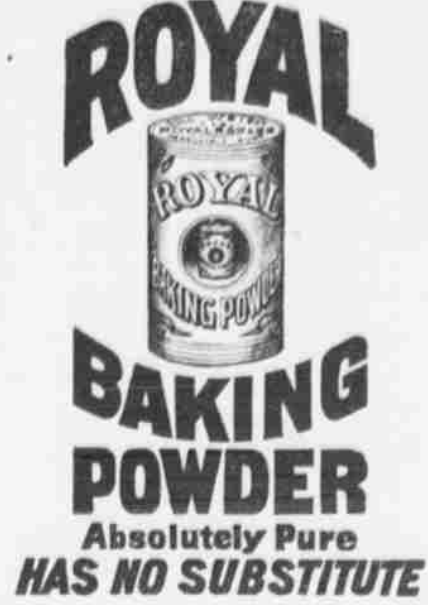

Curie Veatch had a small fire at his home three miles west of town on Sunday. Mr. D. T. Awbrey representing the Oregon Fire Relief Association went on Tuesday morning to investigate the loss incurred and prepare the necessary papers for the settlement of the insurance. The fire did not do much damage, the principal loss being the destruction of the roof over the kitchen. Mr. Veatch is thankful to have had the insurance.

The Southern Pacific train Saturday afternoon from Portland was three hours late. There were 19 coaches on the train and 2 engines when the train left Portland. It is stated that the train was so crowded, standing room even being filled, that 120 people were left at Oregon City alone, many others being left at the other stations along the road. The trains are more than usually loaded at present by the hop pickers going to the fields. The Southern Pacific certainly can't complain about not having enough traffic, and about not making money.

Mrs. Bucklin and Mrs. G. W. Abrams of Western New York have been visiting at the home of W. H. Abrams. W. H. Abrams, family and guests spent a few days outing up near the warehouse, and had a very fine time. Mr. Abrams and his son were out fishing one morning when they came upon an old bear with two cubs. After looking at them for about a minute, which was plenty long enough, the bear trotted off back into the woods. Mr. Abrams says of course he had to leave his gun at home, or he would not have seen them.

The Southern Pacific is giving out a very neat little book, relating by means of words and pictures the resources and beauty of Oregon, Washington and Idaho, for the purpose of interesting many new settlers and investors. Books can be obtained at the depot on application. Get some copies and send them to your eastern friends.

A man at San Diego Sunday evening rose during a church service and said, "Only faith is necessary. If I have faith I can drink the contents of this bottle of carbolic acid and it will not hurt me." After saying this he drank the contents of the bottle and in a minute or so sank to the floor, dying very quickly. Evidently faith was not all that was necessary in this case.

Value of Education in China.

Education in China is free to all males. Hundreds of thousands compete for the honor of being a mandarin, as from that order alone the highest civil offices are chosen, such as viceroys or governors of the eighteen provinces. These men have almost unlimited power, but every three years they are called upon to make an exact report of all the affairs of their province, including in that report a truthful account of their own faults. If this is omitted, a committee of investigation at once looks into it and the viceroy if found guilty of hiding anything he should have confessed, suffers degradation and sometimes death, if his offense is a grave one. Censors, also, at anytime and always unannounced, arrive and examine the affairs of each province. If, under this examination, anything is unearthed, contrary to the approved standard, the offender is at once punished. Therefore, as you see, a good education according to Chinese ideas, is the open door to the highest official places in the land. Nothing more is required—Anonymous M. Beecher in Sunset Magazine.

William M. Davis, president of the Missouri Society of Oregon, has issued a letter urging all former Missourians and descendants of Missourians in Oregon and Washington to make every effort to be present at the Lewis and Clark Exposition on the 14th day of September, which is to be Missouri day. Governor Joseph W. Folk will be present; he will be tendered a reception, and will make a speech. There are more than 20,000 natives of Missouri living in Oregon alone, and it is expected that Missouri day will bring one of the largest crowds yet seen at the Fair, as every body seems eager to meet the famous young governor of Missouri. Governor Folk is only 45 years of age, but is already a national political figure.

Hawaiian Band at Portland.

The Royal Hawaiian band, which came to the Lewis and Clark Exposition direct from Honolulu, for a two weeks engagement has made such a popular hit that it has been engaged for two weeks more. The band is tremendously popular, thousands of people crowding around the big band stand at every performance. The musicians not only play but they sing, and some of their native Kanaka ballads are delightfully sentimental. A Hawaiian girl is the soloist of the organization. Her songs never fail to please. The band plays several times a day.

Eugene Notes.

The residence of Mrs. Dixon was entirely destroyed Friday night. The water was very short and almost no headway could be made against the flames. The total loss is about \$1200.

Twenty-two marriage licenses issued in Lane county last month.

The Guard is giving reports of the failures of various electric lighting and water plants under municipal ownership. While there may be such instances, Cottage Grove is not one of them that suffers from her arrangement for municipal ownership of its water plant.

Eugene wants a paid fire department and electric alarm system. They need it that is sure.

Electricity in Logging Operations

The use of electricity for logging purposes is being seriously considered by some prominent loggers on this Coast. Already electric locomotives are in practical and successful operations in mines where steep grades prohibit the use of any type of a geared locomotive. In the electric locomotive system a third rail in the center of the track and a rack and pinion movement are utilized. If it can be demonstrated that electric locomotives can successfully be used on very steep grades there at once becomes a demand for their use in many localities. The first cost of the installation of a stream plant of sufficient capacity to generate electric power for an ordinary logging road is not excessive, as fuel is abundant and cheap. In many instances water power could be successfully utilized.

A Sensible Move.

Have Tom Awbrey write you up a policy on your home and furniture in the Oregon Fire Relief Association, or your stock of goods in the Etta Insurance Company.

\$4.85 to Portland and Return.

Beginning with Sept. 1st the Southern Pacific will sell round trip tickets, Cottage Grove to Portland and return for \$4.85 good for 30 days. This arrangement is made in order to give all a chance to visit Portland and the fair, and to stimulate the attendance upon the Exposition. While the trains are now loaded heavily arrangements have been made so that much larger travel can be accommodated.
