

## McKibben Furs and Hats

None Better Made

Now if a lady and gentleman want to keep company, that is their business; if they want to get married that is the preacher's business, but if the lady wants to buy a fur or the gentleman wants to buy a hat—

Alex Lundberg and Charles Otterson returned to camp yesterday after a weeks rest in the Grove. Mr. Lundberg is in charge of the work at the Riverside mine and Mr. Otterson will go to the Vesuvius.

Yesterday was the great day in New York politics. The political situation in New York is a startling one. The same conditions prevail in all the large cities to a great degree. Each city has its reform or anti-graft party, fighting the party in power. Jerome and Hearst fighting Tammany. Weaver in Philadelphia fighting Senator Penrose and the republican ring. Mayor Schmitt, the unions and saloons against the fusionists headed by John S. Partridge.

J. I. Jones is becoming an enthusiastic angler, as he would have you believe to hear his tales of a 6 acre fish pond which he began conducting on Tuesday. The fact remains, Mr. Jones has a force of about 10 men at work with teams and scrapers constructing a large pond of 6 acres or more at the base of the hills just east of town which he hopes will soon be full of water and fish, if a better use does not develop for the pond. He is getting there, he will probably land a fish soon.

The International Labor Office of Basel, Switzerland, invites an international prize competition for the prevention of lead poisoning. One prize, of \$1,200 will be given for the best treatise on the prevention of lead poisoning in the operation of mining and milling lead ores or containing lead. One prize of 2,400 for the best treatise on the prevention of lead poisoning in smelting and refining works. Two prizes—one of \$600 and the other of \$300—for the best treatises on the prevention of lead poisoning in chemical application of lead, as in white lead works, manufacture of other lead paints, of electric accumulators (storage batteries), etc. Four prizes, one of \$300, one of \$240 and two of \$180 each for the best treatise on the prevention of lead poisoning in the trades of house, ship, coach painting, interior decoration, varnishing and the like. Four prizes, one of \$300, one of \$240 and two of \$180 each, for the best treatise on the prevention of lead poisoning in those trades where raw and manufactured lead are consumed or handled in a large scale, as in type foundries and printing offices. Each treatise to contain a systematic review of the special causes giving rise to lead poisoning, in conjunction with a description of the various processes of manufacture, pointing out the dangers occasioned at every phase of procedure, including handling and transportation. The papers may be written either in English, French or German. All manuscripts must be submitted on or before December 31, 1905.

**James H. Davidson.**

Mr. James H. Davidson was born in March, 1840 at New Brunswick, Canada, and died in Cottage Grove, Oregon, Nov. 3 at 1:30 p. m. from a stroke of paralysis. At the age of 31 he was married and in 1885 he, with his family moved to Wisconsin, where they lived until 1895 when they moved to Oregon, settling in Eugene and from there moved here five years ago. The wife and one daughter, Mrs. Lester of Eugene, survive him. The thirty-fourth celebration of Mr. and Mrs. Davidson's marriage was celebrated but the day before his death. Mr. Davidson had been feeling rather badly for a couple of weeks, but was feeling better Friday morning until about 10 o'clock when he had the severe stroke which soon resulted in his death, a blood vessel at the base of the brain flooding the brain. Mr. Davidson and his wife were both converted shortly after their marriage and joined the Methodist church in which faith they have rendered constant service ever since. Mrs. Davidson will remain in the home here.

**A Sensible Move.**

Have Tom Awbrey write you up a policy on your home and furniture in the Oregon Fire Relief Association, or your stock of goods in the Etna Insurance Company.

**Home Cooking—Saturday.**

The Ladies Aid Society of the Presbyterian Church will have a full supply of good things to eat—just as mother made them—at Currin & Veatch's on Saturday. This Saturday will be their market day. Don't miss it.

**DIED.**

John Johnson, an old mining man, who owns the house and lots just west of Wm. Conner on Wall street, died in Denver, Colo. last Friday from a stroke of apoplexy. Mr. Johnson came here in the early part of the summer to look after his property. In returning to town one day he was offered a ride by J. R. Thompson, who was passing, and only a couple of minutes after he had taken a seat in the wagon, the team ran away, and Mr. Johnson was thrown out dislocating his shoulder and breaking his left arm. Owing to the age of Mr. Johnson, who was 75 years old, his injury had a serious effect upon his entire system, his arm and shoulder were very slow in healing and when he returned to Colorado he was feeling very poorly. He owns considerable property in Colorado consisting of lands, houses, and a hardware store besides his property here. Arrangements are being made to dispose of his estate.

Alex Lunberg is down from Bohemia for a few days and is having a good rest.

The Wendling mill was operated for a short time on Wednesday to see that everything was in good working condition. It will start up soon now with a full force of men. The company is still scouring the county about for men to work there so no man that really wants work of that kind needs to be out of employment.

The president Tuesday issued on Tuesday a proclamation for the observance of Thursday, Nov. 30th, as a day of Thanksgiving for the whole nation.

The flour mill keeps grinding along, turning out the wherewithal for the staff of life. That the mill is so well patronized is because of the worth that is put into its products. No better flour is made anywhere in the section, and no better any place with the same quality of grain that the mill here is compelled to use. The grade of wheat in the valley is not of a particularly high grade in the first place, and then so many farmers pay so little attention to the careful raising of it, that the wheat is much below the average.

## Petticoats and Materials

For their making are now being shown at

# Lurch's

**Pres de Soie**

Is like taffeta in everything but price

It does a taffeta service in many ways—makes a better wearing petticoat—shows to equal prettiness as a slip skirt and means a superior lining to an over garment, because it won't pull, break or lose its sprightly lustre—there is a guarantee that says it won't.

Pres de Soie is soft and silky, lustrous and serviceable.

Its price is one-third that of a taffeta and its dependability three times more certain than silk.

Made in 36 inch width and in superb black as well as a prismatic display of color tints.

THE CUTTING QUALITY

of any tool is always a disservice one, but of equal importance is the power of retaining this quality so as not to require too frequent sharpening. By making your purchases of the Griffin & Veatch Co. you always receive your money's worth in the best quality of tools and cutlery of properly tempered steel that is sure to hold an edge.
