THIS PAPER is kept on file at E. C. Drake's advertising Agency, 64 and 65 Merchants Exchange, San Francisco, California, where contracts for advertising can be made for it.

WEDNESDAY, NOVEMBER 15, 1905

The Portland Business Men's Excursion will arrive at Cottage Grove Thursday the 16th at 1:05 p. m. The mayor of the city, all members of the Commercial Club, Business men and citizens are requested to join in a brief reception at the depot. The Cottage Grove band will be present.

The Jewish Relief Fund is steadily growing. Contributions are coming in from all over the United States for the aid of the sufferers in Russia \$200,000 has been received thus far. It is hoped that \$1,000,000 can be raised. Nothing in the annals of modern history has so touched the hearts of the people and aroused their sympathy as the frightful massacre of the innocent Jews in Russia. The response to the call for aid is universal. Cities, large and small, individuals great and humble, are eager to stretch out a helping hand to victims of the horrible persecution. Collections were taken in most of the churches last Sunday. Andrew Carnegie contributed \$10,000 to the fund. Mass meetings were held in some of the large cities for the purpose of raising money. At one of these in Philadelphia \$20,000 was raised. It would seem that with the whole world aroused to the highest pitch of indignation, something must soon come to pass to put an end to the horrible crimes perpetuated against a peaceful and innocent race. Russia is staining her history with a record of the most unlawful and shameful bloodshed the world has known in many years. In no wise can she ever atone and her barbarian ruler is hastening the day of his own overthrow—the son and heir whose absence for so many years caused the unhappiness of the Czarina, has come at last to an awful heritage.

Tardiness.

Prof. Strange is much worked up over the many unnecessary tardinesses of the children. He says many of them come in just a little late and can give only the flimsiest excuses, while others that miss half the morning have no excuse. It is a matter that should cause every parent great concern. Tardiness in anybody is a great fault. For a child to begin to be tardy in school means tardiness in all things, and grows with them as they grow, and will of necessity be a great hindrance in their way in the future as well as a stumbling block in the progress they should make in their school work.

Cottage Grove Has

four churches, graded public schools, saw mill, planing mill, electric light plant, flouring mill, two feed stores, four blacksmith shops, two general repair shops, three hardware stores, some twelve general merchandise stores and groceries, the usual number of cigar stores, three restaurants, three hotels, three barber shops, several boarding houses, one furniture store, two livery bars, and last but not least, a live and progressive commercial club, with a late string and you will be sure to find some one to welcome you, who will give you the information you desire. If it is not already on file at the commercial club rooms, it will be secured for you.

Lewis and Clark Medals.

W. B. Dennis received a gold medal on his quicksilver ore, F. J. Hard was awarded a gold medal on his case of ore from the Vesuvius,

Oregon-Colorado and Riverside mines and various other medals were given those of our people that had ore on exhibition. All goes to show that we are in it with the mining districts of the northwest and should be an incentive to push us on and encourage the industry that will bring more money and more people than any other of the many industries of which we boast.

City Council.

Monday night at the meeting of the council Councilmen Johnson, Veatch, Hogate and Chamberlain were present. An application for the transfer of the license of John Barker's saloon from its present location to the brick hotel building was granted, after discussion as to the validity of the bonds after such a change.

Mr. A. Graham was granted a transfer of his saloon license to the Imperial Hotel. His bondsmen Mr. Garman and Mr. Madsen consenting.

The application of Henry Agre for a saloon in the Red Front was refused, the vote being aye, Hogate, Chamberlain and Veatch; nay, Johnson.

Ordinance 122, establishing fire limits and prohibiting the erection of buildings within those limits, of any but of certain defined construction, passed its 1, 2, and 3rd reading.

Ordinance 123 levying the assessments for the cost of construction of the sewer running from the east side of 3rd street to the west side of 4th street was passed on its 1, 2 and 3rd reading. The assessments were as follows: J. E. Ostrander, M. Veatch, M. J. Eme, son, Mrs. Kornejek, and the Knox estate \$47.40 each.

The following bills were allowed: Philip Hohl, drift bolt, \$1.20; J. E. Young, posting notices, \$5; A. B. Wood, services as consulting engineer, \$51.50.

The street commissioner was instructed to hire men to dig an overflow ditch from the dam for 75 feet.

The street committee was asked to look into the matter of having the woodshed of John Branton, which protrudes into the street, moved.

The light committee was given power to order an arc light installed on the corner of 3rd and Platt Sts. providing the other arc lights were satisfactory, but did not light the corner enough, and that Mr. Graham should pay an additional cost of same, making a contract for its payment.

Fred Parson of Ashland Takes His Own Life by Laudanum.

Last Friday evening Fred Parson, a son of Dr. J. S. Parson of Ashland went into a cafe about ten o'clock, and to a number of boys said that he wanted to take some medicine and write a letter. He sat down and wrote his letter, after which he drank the contents of a small bottle, supposedly medicine, which proved to be laudanum, after which he shook hands with the boys and told them he was going away. When asked where, he replied: "You'll hear about it pretty soon." The boys thought he was joking until he was taken very ill, when the boys took him home, where Drs. Bowersox, Songer and his own father worked over him until 4 o'clock Saturday morning when he breathed his last.

That the act was premeditated was evident from not alone the letter he wrote, but from the disposition of his effects. He had only returned from Portland that day, and there is no assignable cause for his death, other than despondency, and why a boy with all the abilities, opportunities, and loving friends ready to assist him in any endeavor, that he had, should kill himself is a matter that is deeply grieving to the hearts of all his friends, as well as those who knew him as a bright and promising boy.

He was buried Sunday in the Hargadine cemetery.

Card of Thanks.

We desire to express our sincere thanks to the many friends for their kindness and sympathy, during our sad bereavement in the loss of our loved husband and father.

MRS. A. A. DAVIDSON,
MRS. G. M. LESTER.

Gas Plant for Pendleton.

Pendleton, Or., Nov. 8.—The city council tonight granted a franchise to the northwestern Gas & Electric Company for a gas plant, the duration of the franchise being 25 years. At the expiration of the franchise the city is to have the right to purchase the plant. The company will take immediate steps to install the plant and expects to have it in operation by early spring.

Mr. Archer hired three men from Omaha Thursday and took them up to the mill.

ONE MILLION DOLLARS

Spent in Development Work in the Bohemia Mining District.

One million dollars has been put into the development of mines in Bohemia. A few large companies and many individuals have for several years been steadily developing their properties. It is not these people who have persevered that are to blame for the delay in getting methods of treatment, transportation, good roads, etc.

There are more ledges opened, more individual properties that commence production, more tons of ore now blocked out and ready to commence daily shipments, than is ordinarily a nucleus for several railroads, numerous smelters, and a city of 20,000 people.

Attention is asked of business men that have sense and reason, that can believe what they see and are willing to look for themselves. Bohemia will continue to be developed, Cottage Grove will continue to grow, and some day the millions of dollars that could now be realized will commence to enrich the pockets of those that are so diligently blazing the way to these fortunes.

There is a chance to hasten the good times that are to come, there is room for all, many hardships of former days have been made more pleasant, much of the dead work and that of hunting the ledges has been done. Investigate for yourself, the time has come when every business man in Oregon should lend an ear and turn an eye to the greatest of all industries—mining. Don't be fooled, don't listen to fancy tales, the ore is there or it is not. If it is, put in your money, go at it intelligently, add to Oregon's production. The immense increase that is waiting to flow from the veins of Bohemia. This is no dream.

Sunday School Convention.

Rev. J. P. Conder, State Sunday School Evangelist, conducted a very interesting and profitable convention at the Christian Church during the last half of last week, in the interest of Sunday School work.

Having been engaged in this department of evangelistic work for a number of years, many valuable suggestions and plans were laid before the workers of Cottage Grove, which if adopted will greatly facilitate the work here.

President Favors Preserving Falls.

Washington, Nov. 11.—President Roosevelt placed himself on record today strongly in favor of the preservation intact of the wonders of Niagara Falls. To visitors who called to urge the president to use his influence through the combined action of the American and Canadian Governments for the preservation of Niagara Falls, and to prevent the diversion of their waters to commercial and industrial uses, he said he believed Niagara Falls, the great canyon of Colorado, the big trees of California and the buffalo should be preserved for posterity. California, he added, had presented to the nation a grove of big trees, and if the state of New York could not preserve Niagara Falls in violation of the National Government should step in and keep them as they are now for the American people as one of the great natural wonders of the world.

Public School—Prof. C. L. Strange.

The total enrollment at the end of the second month was 401, an increase of 34 over the first month. Parents have not realized, as yet, the fact that a school can not accomplish the best results if the scholars are not punctual and regular in attendance.

HIGH SCHOOL.

Fifty-eight students are enrolled in the High school. The regular bi-monthly examinations occupied the attention of High school scholars during Thursday and Friday of last week. A students promotion will depend upon a general average after examination of the grades in each subject. A library and laboratory are much needed equipments in this department.

Heavy Travel.

The Oregon and Southeastern running from Cottage Grove to Wildwood half way to Bohemia carries many passengers and much freight, every morning's train is well loaded. Saturday about one hundred and seventy-five passengers rode during the day.

city every month for necessary butter, eggs, vegetables, etc. in addition to what is raised at home.

We ship in mining machinery, wheat, oats, hay, butter, eggs, potatoes, coal, brick and cars of general merchandise and furniture.

Cottage Grove Will Grow.

Among the many features that point to the steady growth and stability of Cottage Grove and its immediate vicinity, may be mentioned its immense timber acreage. To begin with, Lane county, the home of Cottage Grove, is credited with having the largest timber acreage of any like area in the world. With this in mind it is not surprising that Cottage Grove should be in the very heart of this timber belt. It is given by authentic estimators that 200,000 acres of this great Oregon fir and cedar timber belt is tributary to market through the medium of Cottage Grove. It is estimated to contain 25,000 feet to the acre. In other words, 5,000,000,000 feet of the finest timber on earth must find its way through Cottage Grove to the markets of the world. It means wealth to this community. It means great mills and gigantic logging machinery. It means railroads and railroad rolling stock. It means a payroll that, in itself represents the entire wealth of an average city. One cannot appreciate the magnitude of Oregon standing timber through the medium of description and photos. However, as an illustration, the readers' attention is called to one item, namely: Two sticks of Oregon fir, cut in the vicinity of Cottage Grove at a cost of \$800 are now just dived in the Lillie mine, Cripple Creek, Colo.

Cottage Grove Public School Monthly Report.

Month ending Nov. 10, 05.	Boys	Girls
Total enrollment	189	212
New enrollment	17	17
Days attendance	3297 1/2	3573 1/2
Days absence	171	212

Those not doing good work		

C. L. STRANGE, Supl.

When you want a pleasant pleasurable Chamberlain's Stomach and Liver Tablets. They are easy to take and produce no griping or other unpleasant effect. Sold by The Modern Pharmacy.

INDIGESTION'S RECORD

"The best remedy I can prescribe for your indigestion, madam, is Green's August Flower. I know of several other physicians who prescribe it regularly."

Indigestion is making an awful record as a cause of sudden deaths. It is beating heart-failure in its ghastly harvest. You read in the papers daily of apparently healthy and even robust men being suddenly attacked with acute indigestion, after enjoying a hearty meal, and of dying in many cases before a physician could be called in.

This should be a warning to you who suffer with regular or periodical attacks of indigestion. If these unfortunate victims of acute indigestion had taken a small dose of Green's August Flower before or after their meals they would not have fallen a prey to such sudden attacks. August Flower prevents indigestion by creating good digestion. It also regulates the liver, purifies the blood, and tones up the entire system in a natural way.

Two sizes, 25c and 75c. All druggists. Benson's Pharmacy.

Cottage Grove Flour Mills

MANUFACTURERS OF

Flour and Feed

Remember that the Cottage Grove Flour is sold at the lowest living prices. We use 25 per cent hard wheat in our Pride of Oregon brand. This Flour will produce more bread per sack than the cheap varieties now offered. Try it once and be convinced, and at the same time encourage a home enterprise.

Lane County Medical Meet.

Saturday evening the Lane County Medical Association met in the parlor of the Commercial Club, after an elaborate supper had been enjoyed at the Miller restaurant. Those present were Drs. J. W. Harris, President and Bartel of Eugene, Jayne of Springfield, Scarborough and Evans of Creswell, and Wood, King, Corpron, Schiefel, Job, Hockett and Oglesby of Cottage Grove, fifteen in number but guaranteed against any evil happenings. The objects of the association are Dr. J. W. Harris, president; Dr. T. W. Harris, vice-president; and Dr. Schuyler, secretary and treasurer.

The meeting was called to order by President Harris, after which Dr. Harris delivered an able address on Medical Therapeutics, which was followed by an address by Dr. Woods on Trachina. Some fine exhibits of pathological work were shown in which great interest was taken. Dr. Bartel spoke in the interest of the tea and which has been adopted by the association.

During the evening Dr. Oglesby and Dr. Schiefel of Cottage Grove and Dr. Evans of Creswell were admitted to the membership fold and duly initiated, after which it was said that every reputable physician in the county with one exception is a member of the association.

Don't fail to see the only original production of the Britt-Nelson Plant Monday evening at the Opera House. Admission 15, 25, 35c. Tickets on sale at New Era Drug Store.

Producing Mines Tributary to Cottage Grove.

The Oregon Securities Company with its thirty stamp mill, the Vesuvius with its ten stamp mill in Bohemia and the Blackbutte Quick silver mine are all producing. This fact puts a new phase on the mining industry in this section.

The Oregon Securities Company's recent large shipments of gold bars, those from the Vesuvius and the shipment of many flasks of quick silver from Blackbutte convince the most skeptical that there is something worth digging for even if it is in Oregon. Though we commence late in the year this vicinity will add its share to Oregon's mineral output and another year the production must certainly be very large.

FLAG VOTES.

The vote on the flag coupons that have been reported to date are as follows: Back votes that have been held must be turned in at once to be counted. Ballot box in Nugget window.
