TO THE BENEFIT OF NORTHWEST

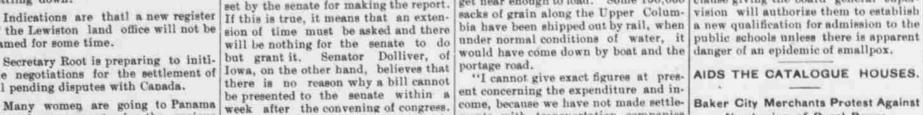

Had Taken Bad Advice -- Walcott Removes Objections to Umatilla, Okanogan and Sunnyside.

Washington, Nov. 18. - Secretary Hitchcock is preparing to reverse himself and approve the Umatilla irrigament made at his office today to the effect that action on the Umatilla project would be taken some time next. week which would be satisfactory to the people of Oregon, and that similar action was to be looked for on one or more Washington projec.s. It is not known at this time what Washington projects will be approved, further than that the choice will lie among the Tieton, Okanogan and Sunnyside schemes, commended by the Reclamation service. This announcement from the secretary's office was made after a confervice. This afternoon Mr. Walcott returned to the secretary all papers bearing on the Umatilla, Okanogan and Tieton projects and, in addition to the original recommendations, submitted unanswerable arguments showing that all these projects are not only feasible and desirable, but that there is no feature about them to which objection can be legitimately raised.

In point of fact, Mr. Hitchcock, shortly after taking adverse action on the Umatilla, Tieton and Okanogan projects, saw that he had acted on bad advice, and realized that his position would become untenable. He saw that he had made a blunder which would have to be rectified, and he has cautionsly been feeling his way back to solid ground. He is not yet ready to make the final leap, but is preparing for it and, when he does, Oregon and Washington will benefit. Incidentally St. Petersburg, Nov. 17 .- A false it might be mentioned that the men have heard from it, and have been warned to display more intelligence and common sense in future
