Mr. W. H. Abrams came pretty near having a broken finger on Saturday. He was making some rustic out of some very heavy and uneven lumber, which made him a good deal of trouble, and while feeding one board through a lacing of a belt snapped, and the end of the belt slapped his little finger a terrific lick, which had it not been for his glove would doubtless have broken the finger.
The dance given by the Cottage Grove orchestra Saturday night was a success, although the number of young men in attendance was not what it might have been. They are now considering a proposition to give a dance at Creswell each alternate week that they do not give them here.

Webfoot and Mossback are no longer to be a part of Oregon dictionaries, such is the dictum of the Development Leaguers and the editors assembled in Portland last week, says the Telegram. A good move too, for while the words were first used in a joking way, it has become so general that many people think it is more than a joke, and it does hurt the reputation of the state, therefore let every person as the saying is "cut it out."
