WEDNESDAY, JANUARY 24, 1906

Political "wouldbe's" are beginning to think that Jacob Reis' recent speech is an authoritative announcement of Pres. Roosevelt for a third term. Be it as it may, Roosevelt has made an able president, but there are others just as able, and we don't like to see the two term time exceeded.

Judge Sears of Portland upheld the state law of 1903, limiting the hours of employment for women and girls in mechanical or mercantile establishments. This decision was made in a test case brought by a laundry company, to test the legality of the law limiting such hours of labor to 10 hours. The language of the justice was strong and forcible in his statement, and he believed that the law should be upheld in its meaning.

The next presidential inauguration will probably be the last Thursday in April, if the plans of our lawmakers go through. The list of fatalities, and sicknesses following close upon the exposures at the time of our inaugural ceremonies on March 4, when the wether in Washington is raw, and stormy, have been so great as to bring about a national request for a change in the time of such ceremonies, and active steps are now being taken for such a change which would give President Roosevelt two months longer in office.

The divorce evil is growing worse and worse. With all the attempts made by the various churches to stop it the number that are being divorced grows. One of the latest attempts to obtain a divorce that has been brought to public attention, is that of James Doyle, a millionaire mining man of Colorado, who was able to obtain a civil annulment of his marriage, but must obtain a church annulment, as he is a Catholic. The Catholic vicar general Father Henry Robinson, has fixed Feb. 6th as a date for a special ecclesiastical court to hear the petition to have the marriage set aside, on the grounds that Mrs. Doyle, formerly, Belle Sutton was not a baptized Catholic, and no special dispensation was received, consequently there was no real union by the church. If released from the marriage Mr. Doyle will marry a telephone girl, that has bewitched him. Even the church is dragged into the attempt to free the man from his marriage.

Representative Palmer of Pennsylvania is evidently one of the reformists and does not believe in quite as much graft as most of the politicians of Pennsylvania. Just at present he is attacking the incidental expenses which various cabinet officers have been in the habit of paying, through the general deficiency bills. He is presenting an amendment to the deficiency bill to declare any cabinet officer who, without specific authority, spends funds appropriated for his department, guilty of a misdemeanor and fined not less than \$100 or imprisonment for not less than one month.

It is altogether hopeful that he will be successful in getting this plea through. He is basing his plea principally on an attempt of attorney general Moody to get an appropriation of \$2615 to pay for a picture of former Attorney General Knox, under a deficiency appropriation for necessary expenditures, such as fuel, light, labor, etc. Good for Palmer, we hope he wins out.

FARMERS IN OREGON FARM ON HIGH PRICED LANDS.

A number of farmers along the Columbia have recently sold their farms or strips through them, to the various railroads interested in getting lines through to Portland for prices that seem almost fabulous. One man sold 65 acres for 65,000, another 35 acres for \$30,000, and lots of other land bringing sums almost as great. All the farmers along the line of the Northern Pacific and mighty anxious these days to have the railroad come across their lands. The fact is it is nice for the farmers to get so much for their land, but if it meant that the various interests would be kept out by the farmers asking such high prices for their lands it would have been poor policy for them. The farmers have taken profit of the competition of the railroads for their rights of way. In our own vicinity we have people who are putting too high a value on their holdings, and thereby keeping capitalists from investing. No capitalist likes to be fleeced of his money, even if he has lots of it. If a man wants to buy a single lot of you, you ask him a fair price, but let him ask for 100 of them, and you put the price out of sight. It might make money in your pocket, if he was gump enough to pay it, but the probability is that he would refuse and you would hold your 100 lots to years longer waiting for half the amount he would have been perfectly willing to pay. There are capitalists in our town this very day were ready and anxious to buy certain lands, but who will not do so because the people are trying to hold them up, and they are the losers in more ways than one. Not alone do they lose the sale of the tracts wanted, but they lose the chance to have their other lands increased in value by new and increased activity in the whole town and community. Don't try to get the whole earth, be satisfied to have a reasonable profit, on a part of your lands, and if you wish hold the rest till kingdom come, if you want to wait for a better price on the rest of it.

The High School

Seniors.

Seniors! Only nineteen weeks more of school for us.

Sophie Osberg was absent from school last Friday.

In general, an improvement on the grades, was made in the last examinations over the former ones.

The In-door Picnic party given by the High School on last Thursday evening was a success in every way. Tickets were purchased from Harry Brown, the ticket agent and they boarded the train at 3.15.

Merton Earl acted as conductor, Merle Scoville as engineer, Charlie Gates as fireman and Allan Baker as newsboy.

At the "End of the Road" every one hastened to the picnic grounds where lunch was served and it was not until "late in the day" that we started for home.

Credit is given the sophomores who had charge of the entertainment committee. Everything went smoothly and the evening did not grow dull and tiresome.

A Stranded Theatre Company

The theater company at the Opera House last Friday and Saturday night were in rather hard luck. They started from Eugene with nine people and this was their fourth night out. They have had hard luck all through and were stranded here practically without a cent. Some of the company went to Portland, some to San Francisco, and some were hardly able to get any place, so short were their finances. Some of them were very good, and others were not so good.

West Side School Note

EIGHTH GRADE.

CHAMBERLAIN'S COUGH REMEDY THE BEST MADE.

In my opinion Chamberlain's cough remedy is the best made for colds," says Mrs. Geo. Walker of Porterville, California. There is no doubt about its being the best. No other will cure a cold so quickly. No other is so sure a preventive of pneumonia.

No other is so pleasant and safe to take. These are good reasons why it should be preferred to any other. The fact is that few people are satisfied with any other after having once used this remedy. For sale by The Modern Pharmacy.

CURED HIS MOTHER OF RHEUMATISM.

"My mother has been a sufferer for many years from rheumatism," says W. H. Howard, of Husband, Pennsylvania. "At times she was unable to move at all, while at other times walking was painful. I presented her with a bottle of Chamberlain's Pain Balm and after a few applications she decided it was the most wonderful Pain reliever she had ever tried. In fact, she is never without it now and is at all times able to walk. An occasional application of Pain Balm keeps away the pain that she was formerly troubled with." For sale by The Modern Pharmacy.

A FOOLISH PLAN

It is a joy to eat—I welcome my dinner hour; because I rout indigestion with August Flower. Constipation is the result of indigestion, biliousness, flatulency, loss of appetite, self-poisoning, anemia, emaciation, uric acid, neuralgia in various parts of the system, catarrhal inflammation of the intestinal canal and numerous other ailments that rob life of its pleasures if they do not finally rob you of life itself. "I'm bound in the bowels," is a common expression of people who look miserable and are miserable—yet who persist in "letting nature take its course." What a foolish plan, when nature could be aided by the use of Green's August Flower, which is nature's own remedy for constipation and all stomach ills. August Flower gives new life to the liver and insures healthy stools. Two sizes, 25c and 75c. All druggists. Benson's Pharmacy
