Deafness Cannot Be Cured
by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; and cases of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

The Matter of Allowance.

"My dear," whispered the young man, "as we are so soon to be married we should take a practical view of life and profit by the mistakes of others. For instance, there is the subject of a regular allowance every week for spending money, you know."

"Oh, I've thought of that," she replied, sweetly.
"Have you?"
"Yes, indeed--hundreds and hundreds of times; and lately I haven't thought of much else."

"Yes. Your income is \$2,000, isn't it?"
"Yes; I want it to go as far as possible toward your happiness."

"Of course. Well, I've talked it over with mamma and she thinks an allowance of \$1 a week will be plenty."

"Indeed?"
"Oh, yes. You can walk to the office, you know, and carry your lunch, you know, and so you can use the whole dollar for cigars and neckties and things."--Judge.

Cures for Colds.

"Coal oil will knock any cold silly," said C. C. Warren. "The idea of drinking coal oil may seem repugnant to some esthetic tastes, but one tablespoonful will fix the business for the most stubborn cold in head or body."

"Turpentine is another fine thing for general conditions. I firmly believe that if a man will take fifteen to twenty drops of turpentine in sugar once every two months he will never be really sick. It's an internal Turkish bath in effect, and leaves the system thoroughly cleansed and in good shape to take on new strength. There's no excuse for a cold, and it's a dangerous thing to pass by."--Baltimore News.

Not Ambitious for Father.
A New Hampshire man who had at various times been a candidate for public office, says the Boston Herald, has a small son about 6 years of age. The Herald says 6 years, and that part of the story is probably as true as the rest.

The lad, who had been meditating upon the uncertainties of kingly existence, asked his mother:
"If the King of England should die, who would be king?"
"The Prince of Wales."
"If the Prince of Wales should die, who would be king?"

His mother endeavored to explain, but the boy, with a deep breath, said:
"Well, anyway, I hope pa won't try for it."

Soot.

"Ma," said Tommy, as he puzzled over the paper, "what does the 'black hand' mean?"
"I don't know, my son," replied his mother, "but I know what two black hands mean."
"What?"
"That your father has been trying to clean out the furnace."

CATARRH ANNOYING-- DANGEROUS

Catarrh is usually regarded as nothing more serious than a bad cold or slight inflammation of the inner skin and tissues of the head and throat, when it is, in fact, not only a vexatious and troublesome disease, but a complicated and dangerous one. It is true that Catarrh usually begins with a cold in the head, but when the poisons, which are thrown off through the secretions, find their way into the blood, it becomes a constitutional trouble that affects all parts of the body. It has more annoying and disgusting symptoms than any other disease. There is a sickening and offensive discharge from the nostrils, a constant buzzing noise in the ears, headaches and pains in the eyes are frequent, while filthy, tenacious matter drops back into the throat requiring continual hawking and spitting, and in certain stages of the disease the breath has an odor that is very offensive. Catarrh is worse in Winter, because the cold weather closes the pores and glands, and the poisons and unhealthy vapors which should pass off that way are thrown back on the tender linings and tissues, causing the inflammation which starts the unhealthy secretions to be absorbed by the blood. When the blood becomes diseased with this catarrhal matter all kinds of complications may be looked for. As the blood circulates through the body the foul matter finds its way into the stomach, ruining the digestion and producing chronic Dyspepsia, or Catarrh of the stomach. It also affects the Kidneys, Bladder and other members of the body, while the general health is weakened, appetite lost and the patient feels despondent and half sick all the time. But worst of all, if the trouble is not checked the lungs become diseased from the constant passage of poisoned blood through them, and Catarrh terminates in Consumption, the most fatal of all diseases. You cannot get rid of Catarrh by treating it with sprays, washes, inhalations, etc., because they only reach the membranes and tissues, while the real cause of the trouble is in the blood. These relieve the annoying symptoms for a time, but the poison is all the while getting a stronger hold on the system and when they are left off will manifest itself in worse form than before. S. S. S. is the greatest of all blood purifiers, and when it has cleansed the blood, this pure, rich stream circulates through the body, carrying healthful properties to the diseased parts. Then the inflamed membranes and tissues begin to heal, the discharges cease, the general condition of the system is strengthened, every one of the annoying and disgusting symptoms pass away, and the patient is left in perfect health. S. S. S. is the best remedy for Catarrh. It goes right into the blood and removes all effete matter and catarrhal poison and cures the disease permanently, and at the same time builds up the entire system by its fine tonic effect. S. S. S. is a purely vegetable remedy--non-injurious to the system and a certain, reliable cure for Catarrh. Catarrh sufferers will find our free consulting department helpful in advising local treatment to be used with S. S. S.

Several years ago my blood was bad and I had in addition a dreadful case of Catarrh. My nose was stopped up, I had headaches, ringing noises in my ears and felt unfit for work. I commenced the use of S. S. S. on the recommendation of a friend, and in a short time it cured me sound and well. It put my blood in good condition and I have never had the slightest return of the Catarrh since that time.

There are two classes of remedies: those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assistance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who know of their own personal knowledge and from actual experience that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character.

There are two classes of purchasers: those who are informed as to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect their beneficial effects if they do not get the genuine remedy.

To the credit of the druggists of the United States be it said that nearly all of them value their reputation for professional integrity and the good will of their customers too highly to offer imitations of the
