TERIBLE CONFUSION

Portland Suffers from Another Bad Fire on the East Side in which a Number of People Perished.

Portland, Feb. 12.-At 4 a.m. the morning fire discovered on the north end of East Morrison street in the first block beyond the bridge. The fire was not well subdued. It had been discovered and the alarm was found in from a half to an hour after the fire started.

The fire covered an entire block of buildings and rooms, some second story and some first story.

The first floor rooms were occupied by a small grocer, a restaurant, and a Chinese laundry. The buildingidea on the second story were business rooms and occupied by stores. The first floor and second floor were occupied by business rooms.

Mr. Weyer, I have been badly burned through all the streets of Portland, but I am still in business.

The principal interest occurred on the second and third floors, on the north side of the building. A large portion of this floor was destroyed, and some ten or more men and women are now being operated for the burns.

In the early morning of the day following the fire, the entire building was not burned through, but in the course of the afternoon it was destroyed.

It is not known at this time whether the fire was the result of an accident or of a malicious act.

In order to determine whether the building was in a combustible condition, whether it was a public place or not, and whether the owners or occupants of the building had the necessary precautions to prevent a fire, an examination was ordered by the city council.

An investigation has also been ordered of the materials found in the water tanks, as the water supply has been cut off at the main water pumps.

It is especially interesting to note that none of the water tanks contained water. These water tanks are of the type used in the city, and the water supply is furnished by the city water department.
