NO. 7

BOHEMIA MINING NOTES

And General Mining News from the Western Front.

William Christian goes from the Chuin's mine this week.

The snow has been very heavy the hills recently and it has been very hard to get around but the last few days have been warmer and the snow is close up.

Meyer Wallace is now employed at the Elia battery mine. He is a very good worker and it is expected that the efficiency and output of the mine will improve.

Geo. Knowles advises that business is very poor at the present time. He states that the owners and miners are in very poor health.

Frank Fieno and Mr. McCullagh are working in the Honeysuckle mine just below the Little Potholes. They are working from town, and report that they are doing very nicely there that they have a couple of miners. They are doing 300 and 200 tons a day. They are planning on working more men from town in the near future. They have been getting their bushels and buck and hired.

For President of the W.C.T.U.

George Taylor, March 3: The will of David A. Gibble is now on file at the Probate Court. The will provides for the payment of $50 per month to each of the six children of the testator. The will also provides for the payment of $100 per month to the widow of the testator. The Probate Court of the United States, District Court, has been asked to appoint a receiver for the estate of David A. Gibble, deceased.
