Attending physicians now believe John D. Spreckles has a chance of recovering.

ROGERS ANSWERS QUERIES.

Admits Standard Ownership of Supposed Independent Concerns.

New York, March 26.—H. H. Rogers Saturday answered the questions put to him by Attorney General Hadley, of Missouri, in the proceedings to cast the Standard Oil company, the Waters-Pierce Oil company, and the Republic Oil company from Missouri, and the Standard Oil lawyers admitted that the Standard owns a majority of the stock of the other two companies. Thus Mr. Hadley has overcome his most recalcitrant witness and has proved the main point of his contention. Today he will go further and prove by documentary and other evidence that the three companies are all managed by the Standard officials at 26 Broadway. There was a decided change in Mr. Rogers' manner under examination, but he still pleaded lapse of memory or ignorance on several important points. W. G. Rockefeller also testified and his memory failed on several questions.

Mr. Rogers admitted that he was a stockholder in the Standard Oil company of Indiana, but said he did not know in detail of the conditions of the sale of oil in Missouri, nor did he know about the division of that state between the Waters-Pierce and Republic Oil companies.

PORTLAND MAY GET TIME BALL

Navy Department Favorably Considers Board of Trade's Request.

Washington, March 26.—Senator Fulton was assured today by the secretary of the navy that the Equipment bureau had been investigating the necessity of installing at Portland the time ball system for the aid of mariners. Mr. Fulton had presented the request of the Portland board of trade, with an urgent appeal that this useful feature of maritime cities be part of the government equipment of Portland. The matter seems to have the favor of the head of the department, and, unless unforeseen difficulties intervene, orders for the work are expected to be issued in the near future.

In presenting the request of Portland's mariners and merchants, the board of trade emphasized the troubles now experienced by captains in checking the variations of their chronometers, and brought to the attention of the senator the large number of vessels visiting Portland annually. These facts have been placed before the department.

FALLS INTO REBEL TRAP.

Governor Curry, of Samar, May Be Captive of Puljanas.

Manila, March 26.—In the recent fight at Magtan in the center of Samar between the constabulary and a force of Puljanas two constabulary officers and several privates were wounded. The loss of the Puljanas is unknown. Governor Curry is missing.

Governor Curry, Judge Lobner and Superintendent of Schools Hoover proceeded to a town expecting to receive in surrender a large band of Puljanas. It is now suspected that the offer by the Puljanas to surrender was a treacherous ruse.

Reinforcements of constabulary have been ordered to proceed to the district and Provincial Treasurer Whittier, of Samar, has recommended that Federal troops be held in readiness.

BARS JAPANESE FISHERMEN.

Fulton's Alaska Bill Will Pass House Without Difficulty.

Washington, March 26.—Japanese encroachment in the fishing waters of Alaska will be brought to a close this year. Senator Fulton's bill prohibiting aliens from taking fish in the waters of that district is on the house calendar and is assured of final enactment there. For some time, especially last year, the Japanese have been pressing their fishing operations further and further on the American side of Bering sea and the North Pacific ocean. United States vessels found them last year far in the Alaska fisheries catching salmon in large quantities and pickling fish for return to Japan. No seizures were made, but most of the Japanese vessels took to flight when observed.

Fortune in a New Carnation.

New Bedford, Mass., March 26.—H. A. John, a local florist, has succeeded in developing a white carnation which promises to surpass every famous pink heretofore raised and for which he has refused an offer of \$8,000. It is a carnation which, according to florists fills a long felt want in that it is a perfect white flower of extraordinary size, with a stem of great length, and a calyx which will not burst. Added to these, it has another essential of the successful carnation—exquisite fragrance.

Rival of Standard Oil.

Los Angeles, March 26.—The Times says this morning: With the completion of the pipeline across the isthmus of Panama through the canal zone, upon which work is now being rushed, it is practically settled that the Union Oil company will establish, on the Atlantic coast south of New York, an immense refinery plant, and that a bid will be made by the united interests to control the asphalt market of the East and fight the Standard.

Must Not Buy Convict-Made Goods.

Washington, March 26.—Representative Sibley has introduced a bill preventing officers or agents of the government from buying goods made by convict laborers.

OREGON STATE ITEMS OF INTEREST

COMPLAIN OF GRAZING RULE.

Oregon Stockmen's Grievances Are Taken Up by Senator Fulton.

Washington—Senator Fulton has received many letters of complaint from stockmen of Oregon, who express dissatisfaction with the manner in which the forest service is managing the summer range in forest reserves. The sheepmen of Umatilla county feel that they have been unfairly treated in the distribution of range in the Wenaha reserve, and the sheep and cattlemen whose stock is permitted to graze in the Cascade reserve feel that they are paying too much for the privilege. So far as the Cascade reserve is concerned, the sheepmen object to paying 6 cents a head for the grazing privilege when sheep are permitted in other reserves at 4 and 5 cents each.

The forest service explains that the grazing season in the Cascade reserve is longer than in the reserves where the fee is smaller. So far as the Wenaha reserve is concerned, the range has been apportioned for the coming season, and it is too late to bring about a readjustment. To ascertain all the facts, with the view to laying the matter before the forest service in its true light, Mr. Fulton has requested the stockmen of Oregon to furnish him with accurate data, that he may adjust these matters before another grazing season opens.

The Dalles to Portage.

The Dalles—A company of local capitalists, under the name of the Columbia Transportation company, has bought the steamer George W. Simons from the D. P. & B. N. Co. It will be operated between Cascade Locks and the lower terminus of the state portage road. The boat will leave Cascade Locks at 6 o'clock in the morning and reach The Dalles at 10, making all way landings. It will lie here an hour, then run to the lower terminus of the portage, and returning will leave for Cascade Locks at 2 o'clock. It is the purpose of the company in buying and operating the boat to afford people along the Columbia opportunity to make The Dalles their trading point.

Many Buy Willowa Timber.

Willowa—Locators have been doing much business the past three months on account of a wild rush by local men and outsiders to secure claims in the pine, fir and tamarack forests of Willowa county. Sections which sold at \$1.25 an acre were bought first, and only those claims remain which are in the \$2.50 sections. There are but a few more claims open for location, and it is expected the locating season will be closed within 30 days. Capitalists are buying much of this timber, and from individual holders claims purchased for less than \$500 are selling at \$1,000 to \$1,600 each. These carry from 1,000,000 to 3,000,000 feet to the quarter section.

Enterprise Still Capital.

Willowa—The Willowa county commissioners, at their last meeting, accepted the offer of F. D. McCully, L. Knapper and Aaron Wade, to build a wooden structure in Enterprise large enough to meet the county's requirements for a courthouse, and to lease the same to the county for five years at an annual rental of \$650. The building is to be completed by August 1. It will be of wood, but comparatively safe, as it will be equipped with a fireproof vault. The board thus settled further controversy for five years regarding the permanent location of the county seat.

Fight for a County Seat.

Canyon City—The fight for the county seat now being waged between Canyon City, the present capital, and Prairie City, long aspirant for the honor, is waxing red hot. The laws of Oregon provide that a vote must be ordered by the county court if a petition, signed by not less than three fifths of the registered voters, is presented. The promoters of the removal have organized an improvement association, and among other things have secured subscriptions amounting to \$20,000 for a new courthouse.

Great Loss in Malheur County.

Baker City—Sheepmen and stockmen of Malheur county are offering \$80 a ton for hay, according to report, and the price is rapidly advancing, as very little feed could be bought even at this fabulous price. It is estimated that the storm which has swept over the county during the past week will result in the loss of at least 25 per cent of the livestock of Malheur county, as many sheep and cattle were upon the range when it struck.

Lane Fruit is Unharmed.

Eugene—Dr. H. F. McCormick, Lane county fruit inspector, says it is his opinion that the freezing weather of the past few days has done no material damage to the fruit in this vicinity. Each thaw has been accompanied by cloudy weather. Had the sun shone warm and bright each morning the crop would have been ruined.

Hop Sale at Woodburn.

Aurora—Ed Herron, the hopbuyer, this week bought the Joe Kennedy hop crop of 72 sales at Woodburn, paying better than 9 cents. The hops were shipped direct to London. M. H. Gilbertson, Ulman Bros.' agent here, went to North Yakima a few days ago to look after several big lots of hops there.

CREATED AT LAST.

President Sets Aside Blue Mountains for Timber Purposes.

Washington—President Roosevelt, on recommendation of the forest service, has signed a proclamation creating the Blue mountain forest reserve in Eastern Oregon, to embrace 2,627,270 acres. The reserve as created follows the general lines of the temporary withdrawal made three years ago, with the exception of 200,000 acres in the valley of the Salvia river, which has been eliminated because of the agricultural nature of the land. Around the edge of the withdrawal small tracts of agricultural and school land have been eliminated and the boundaries are so drawn as to exclude all land lying along the border which has passed into private ownership under any public land laws. The original Blue mountain withdrawal embraced more than 3,000,000 acres. About 500,000 acres have been left out, so as to make the reserve a compact body of forest land.

Long Winter in Willows.

Willows—Snow covers the entire Willows valley and county, varying in depth from five inches on the Imnaha and Grand Ronde river bottoms, to 17 inches on the foothills of the Joseph mountains. Stockmen are somewhat anxious concerning feed. The unusual long season will necessitate using much more hay than is customary in average winters. Though this is a hay producing county, and though great crops of hay were put away last season, and much old hay was left over, it is expected that there will be no surplus.

Hopgrowers Elect Officers.

Salem—About 75 hopgrowers have become members of the Oregon Hopgrowers' association, recently organized in this city, and permanent organization has been effected by the election of the following officers: President, J. K. Sears, McCoy; vice president, H. C. Fletcher, Salem; secretary, J. R. Coleman, Salem; directors, J. T. Wood, Salem; Louis Ames, Silverton; C. W. Beckett, Salem; W. H. Egan, Gervais; Francis Shafer, Salem.

Columbia County Breaks Record.

Salem—Columbia county breaks the record in the matter of payment of state taxes this year. State Treasurer Moore received a draft last week for \$6,360, the amount of general state and school tax, and \$265, the amount due for the support of the Agricultural college, from Columbia county, for the year 1906. Only half of this amount was due. The rest need not have been paid until December 31.

Luckiamute Mohair Pool.

Independence—The Luckiamute mohair pool has been organized at Arlie and has the following officers: President, A. C. Staats; secretary, Maurice Fowle; I. M. Simpson, A. C. Staats and Maurice Fowle were elected a board of managers. The new association already has a membership of 35, representing 3,093 fleeces. It is probable 15 more names are to be added to the membership soon.

Cattle Bring Higher Price.

Pendleton—Three cars of cattle were shipped to Seattle from Pendleton a few days ago, bringing \$4.50 per hundred pounds. This is about 1 cent a pound higher than the last shipment made.

PORTLAND MARKETS.

ADVERTISE NORTHWEST.

School Teachers Asked to Enter Competitive Story Contest.

To the teachers of America: To evidence their appreciation of the National Educational association's selection of the Pacific coast as the scene of its next annual convention at San Francisco, California, July 9th to 13th inclusive, and to encourage delegates to include Portland and Oregon in their itinerary, the Portland Commercial club offers FIVE THOUSAND DOLLARS in prizes for articles on Portland, Oregon, and this section of the United States, as follows:

First prize, \$1,000; second prize, \$500; third prize, \$250; fourth prize, \$200; fifth prize, \$175; sixth prize, \$150; seventh prize, \$125; eighth prize, \$110; ninth prize, \$100; tenth prize, \$90; ten prizes of \$75 each, \$750; ten prizes of \$50 each, \$500; ten prizes of \$25 each, \$250; twenty prizes of \$15 each, \$300; twenty prizes of \$10 each, \$200; judges, to be acceptable to the officers of the National Educational association, \$300; grand total, \$5,000. In order to be eligible for competition these articles must appear in a regular edition of some newspaper or other publication printed outside of the states of Oregon and Washington, said publication complete to be in the hands of the judges not later than October 1, 1906. These articles must be sealed and addressed to: Teachers' Contest, care Portland Commercial club, Portland, Oregon.

They will be opened by the judges. Prizes will be awarded strictly on the merits of the articles. Contestants can treat any phase of the subject that appeals to them—natural resources, scenery, irrigation, agriculture and horticulture, history, educational and religious advantages, climatic or social conditions, etc.—or in a more comprehensive vein. The judges will be absolutely untrammelled in making their decisions.

This offer is made, not so much with a view of having the country "boomed" in a common acceptance of that term, as to have the teachers of the country become more familiar with this portion of the United States and give expression to their views in such articles as will be acceptable to papers throughout the entire Union.

CANNOT EXPEL SMOOT.

Two-Thirds Majority of Senate is Required, and is Impossible.

Washington, March 23.—It seems certain, in the light of recent developments, that the campaign against Senator Reed Smoot, of Utah, will fail. Mr. Smoot's enemies have been hoping to oust him by a majority vote of the senate, but senators who have given attention to his case find that the constitution stipulates that no senator shall be deprived of his seat except by a two-thirds vote of the senate.

The anti-Smoot senators have been taking the position that the protests were filed against Mr. Smoot before he took his seat, and, inasmuch as he was seated under protest, the majority vote can be applied, since it takes only a majority to exclude a senator-elect. But this view is not generally concurred in by senators. Mr. Smoot was seated, and, having been permitted to take his seat, the only way to get him out is to expel him, and this requires a two-thirds vote.

It seems absolutely certain that two-thirds of the senate is not in favor of unseating the Mormon senator, probably not a majority, and for this reason it is believed the much discussed case will fall flat.

Iowa May Oust Standard.

Des Moines, March 23.—The house, by a vote of 48 to 12, today passed the anti-discrimination bill, which is intended to oust the Standard Oil from Iowa or compel a revision of its business methods. The bill prohibits discriminating rates for oil and is patterned after the Missouri law. It provides a fine of \$5,000 and imprisonment for violation. Representative Cummings, the author, in presenting the bill, asserted that the Standard Oil company had made a price of 4 cents a gallon for oil in his home town recently, in order to drive out competition.

Italian Island Quaking.

New York, March 23.—A cable dispatch to the Herald from Palermo says: There have been 21 earthquake shocks on the island of Ustica during the last three days. The population lives in constant terror. A great valley has been formed in the center of the island and all the houses have been demolished. The shocks were vertical, non-undulatory, and were accompanied by loud subterranean rumblings. The last shocks, which occurred yesterday, finished the work of destruction. Panic seized upon the 2,000 inhabitants.

Millions of Sockeye Fry.

Vancouver, B. C., March 23.—Twenty-nine million sockeye salmon fry will be turned out of the Dominion government hatchery at Harrison lake next week and started toward the sea. The fish are about three inches long. The operations at the Harrison lake hatchery last fall and winter were attended with great success. The fish at the Seton lake hatchery, which is a provincial institution, will also shortly be released.

New Drydock for Puget Sound.

Washington, March 23.—Secretary Bonaparte appeared before the house committee on naval affairs today and discussed naval appropriations. He urged an appropriation for a stationary drydock on Puget sound.

Opinion of Judge in New York Insurance Investigation.

JEROME ASKS FOR WARRANTS

If Intent Was to Defraud, Perkins Committed Larceny, Says the District Attorney.

New York, March 24.—If the grand jury which is investigating some of the conditions developed by the recent legislative investigation reaches the conclusion that contributions of insurance company funds to political campaign committees were made with intent to defraud the true owner of this property, it must find that larceny has been committed. This opinion was expressed today by Justice O'Sullivan in the Court of General Sessions, in answer to a presentation on the subject submitted to him by the grand jury. Judge O'Sullivan added that it is not within the province of the court to say whether or not there was such intent. That is a question which the jurors must determine for themselves from all the facts and circumstances in the case. He charged the jury to make a thorough investigation into all the facts and to place the responsibility for such crimes, if they find that crimes were committed.

Mr. Jerome was in court today and, when Judge O'Sullivan had delivered his opinion, the district attorney asked the jury to remain, as he desired to address it upon the subject in question. He declared that Judge O'Sullivan had misconceived the subject which he had considered, and that, if the court held to its opinion, it would be the duty of the grand jury to return indictments against George W. Perkins, ex-vice president of the New York Life Insurance company, for larceny, and against George B. Cortelyou, chairman, and Cornelius N. Bliss, treasurer, of the Republican National committee, as receivers of stolen goods.

GOVERNMENT MAY APPEAL.

Wants to Punish Officers of the Beef Trust with Corporations.

Washington, March 24.—President Roosevelt held an extended conference today with Attorney General Moody, Secretary Taft and James R. Garfield, commissioner of corporations, concerning the adverse decision rendered in Chicago by Judge Humphreys in the beef packers' case. No details of the conference were obtainable at the white house, but it is certain the attorney general proposes to look carefully into the law bearing upon the matter, with a view of ascertaining whether an appeal from the decision of Judge Humphrey by the government will lie.

Despite the decision relieving the individual officers of the packing corporations prosecution will continue, of course, but it was the desire of the government to place responsibility for the violations of the law upon officials of the corporations where they are found to be guilty of such violations. In such efforts as may be made by the attorney general and other officials of the department of Justice to secure an appeal from the decision of Judge Humphrey, this point will be kept to the front. It could not be decided at the conference today whether an appeal from the decision would lie, but that question will be gone over carefully, and if, in the opinion of the law officers of the government, a foundation for an appeal can be made, it will be taken.

States Should Interfere.

Chicago, March 24.—The committee appointed in Chicago last February at the conference of governors, attorney generals and insurance commissioners, with instructions to prepare a form of laws for better regulation of life insurance companies, with a view to their ultimate adoption in several states, concluded its deliberations tonight and adjourned after declaring itself in favor of interference by the states in the internal affairs of the insurance companies and in favor of a standard form of policy.

Bank Robbers Offered Receipt.

Moscow, March 24.—The Credit Mutual bank today issued a notice to the effect that the robbery of \$432,000 from its vaults March 20 will not affect its solvency. The employees deny giving the key of the vault to the robbers, declaring that the leader of the band had a key of his own. The leader of the band grimly offered to give a receipt for the money in the name of the revolutionary committee, but this was declined.

Test of Battleship New Jersey.

Quincy, Mass., March 24.—The battleship New Jersey, constructed for the government by the Fore River Shipbuilding company, left today for an unofficial test of her engines. The official trip will be held on March 28 or 29, when she will be required to make 19 knots an hour.
