New York is the largest user of telephones in the world, having 256,962 instruments in use, which is two and one half times more than London, five times as many as Paris, and four times as many as Berlin. It is accounted for by the rush of the business men, and the value of their time.
The death of Dr. William Livingston at Freeport on Saturday has been widely heralded through the claim that he is John D. Rockefeller's father, on account of the similarity of his habits and his figure to the sketches of the millionaire's father, as told by Ida Tarbell in her articles on the Standard Oil Trust and its founders. Local to Cottage Grove
Indications are good for the extension of the Eugene local to Cottage Grove. Eugene merchants that have been interviewed by railroad men on the subject are very favorable to it and encouraged the railroad to make the change and what investigation has been made at Cottage Grove has made the reports look as though the time for such a move was ripe. The active help of the council and the Commercial Club as well as the citizens of both Cottage Grove and Eugene ought to be able to bring about this important change.

Fred Fisk For Sheriff.
The Springfield News has the following concerning Fred Fisk, nominee for sheriff:
In Fred Fisk, candidate for reelection to the office of Sheriff of Lane County, the people have an economical and competent official and during his career as sheriff he has given satisfaction in every detail of the work coming under his care. The vast amount of business passing through the sheriff's office requires a man of ability and judgment. Fred Fisk as sheriff is thoroughly competent, accommodating and trustworthy. If a man has a hired man who gives entire satisfaction, who does his work well and with ability to do all work required it is not good policy to change him for a man unknown, untried and whose ability is seriously doubted. If a horse works well and gives satisfaction and is a horse to the owners liking is it a good policy to exchange for a horse unknown, untried, not halter broke and whose actions indicate that he would not and could not pull in harness? Fred Fisk was elected to the office of sheriff for the first time two years ago, after finishing out the unexpired term of Sheriff Withers. He has been a good and faithful servant of the people, serving all, irrespective of politics, with fairness and justice and the people will again re-elect him to the sheriff's office.
