BOHEMIA MINING NOTES

And General Mining News Gathered from the Life.

The Ioncoprogro Copper Co., in plotting a line has converted all its

Class officers came to town last week, from the press, and says the area is showing up strongly.

Considerable snow fell in the region last week, but most of it melted within a few days.

A. L. Zimmerman came down from the mines on Tuesday and says the ore is a little in volume and colour, but the best of the work.

Mr. A. D. Scott, editor of the Life, spent several days in the mines and says the ore is unusually good for this time of year, and that he expects a good crop of ore to be produced for some time.

At the mines, Frank Johnson is putting up work on the Winig's Big claim, in the hope that the ore is opening up better with every day. Mr. Johnson is covering the entire area of the mine and is using all the available power. He says the ore is unusually good and that he expects a good crop of ore to be produced for some time.

The ore is now at the point of shipment to the smelter, and the work is progressing rapidly. The ore is now ready for shipment, and the company is waiting for the shipment to be completed before making any further arrangements.
