BOHEMIA MINING NOTES

And General Mining
New Gathered from Exchanges.

Booth, Therese Thoms and
John Lindsay were presented
by Rebecca from Shapoo Creek
this morning.

The Blue Ridge Copper mine
was located by Robert S. Thomps
and a large amount of lead
was being taken out of the
mine. John Lindsay said that
there were some very good
lode veins in the vicinity, and
he was more than willing to
work on these locations. There
were no new developments at
the Black Bear mine, but there
were indications of new
prospect areas.

John Gould went to Canada
country to look for his next
mining partner. Albert Turner,
who has a new farm and the
lack of help will cause him
to lose some money.

In speaking of Oregon, Mr.
John L. Smith said that the
Mineral World Act is a
boon to the mining industry
of the western states. The
war has caused a great
increase in the value of
minerals, and the act gives
the mining companies a
better chance to develop
their properties.

A creative mind is always
needed for the development
of new mines and projects.

When asked if he thought
the war would have any
effect on the demand for
minerals, Mr. Smith replied
that he believed it would.

John Lindsay, a miner after
working several months, at the
Roseneau mine in Rebecca west
of Crescent was killed and
paralyzed on the job.

A few pieces of S. J. N. Bredt's
headgear are on the market,
and are in demand. The price
is lower than last year.
