Fire Insurance Companies Have Falsified Figures.

San Francisco, June 10.—The United States attorney in the state attorney general's office to-day filed an information against the State Fire Insurance Exchange of San Francisco and four of its officers for having falsified the figures for losses sustained by the company in 1908. The charges are of such a character as to make it probable that the company will be dissolved.

The charges are that the officers of the company, in order to get a loan of $1,500,000 from a New York bank, gave information as to the losses sustained by the company in 1908 which was not true. The information was not made to a taxable company, but to a company which has no taxable property. The loss sustained by the company in 1908 was $1,500,000, and the false statement was that the loss was $600,000, which is not in excess of the loss sustained by the company.

The information charges that the company has been defrauding the state in the collection of taxes, and that the officers of the company have been defrauding the state in the collection of taxes.
