CONSUMPTION'S WARNING

Inside facts soon become evident in outside symptoms—Dr. G. GREEN.

The aid of scientific inventions is not needed to determine whether your lungs are affected. The first symptoms can be readily noted by anyone of average intelligence.

There is no disease known that gives so many plain warnings of its approach as consumption, and no serious disease that can be so quickly reached and checked, if the medicine used is Dr. Ross's German Syrup, which is made to cure consumption.

It is in the early stages that German Syrup should be taken, when warnings are given in the cough that won't quit, the congestion of the bronchial tubes and the gradual weakening of the lungs, accompanied by frequent expectoration.

But no matter how deep-seated your cough, even if dread consumption has already attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble.
