TEST LOYALTY OF TROOPS.
Reparatory Union User of Troops to Stamp Out Revolution.
St. Petersburg, Feb. 18. — The influence of the recent developments of Thursday on the basing of the four strongest regiments of the Petrograd fire department was marked by the secession of the majority to the revolutionary faction in the city. This movement was partly due to the demonstration of parliament and stamping out of the fire stations of the capital by armed force, while each fire station was occupied by the police.

The associated fire was informed to the city that the firemen would not take orders from the revolutionary faction. The next move is to arrange for the secession of the other three fire regiments, as the next move of the revolutionary faction is to send out a commissary of firemen, which will then be opposed by the city. The city is relying on the fact that the revolutionaries will not be able to control the firemen, as the revolutionaries have not been able to control the police. The city is relying on the fact that the revolutionaries will not be able to control the firemen, as the revolutionaries have not been able to control the police.
