### A TRAGIC FINISH.

A watchman's neglect permitted a  
leak in the great North Sea dyke,  
which a child's finger could have  
stopped, to become a ruinous break,  
devastating an entire province of  
Holland. In like manner Kenneth  
McIver, of Vancouver, Me., permitted  
a little cold to go unnoticed until a  
tragic finish was only averted by Dr.  
King's New Discovery. He writes:  
"Three doctors gave me up to the  
lung inflammation, caused by a neg-  
lected cold; but Dr. King's New Dis-  
covery saved my life." Guaranteed

The Portland street cart trouble  
and threatened strike was avoided  
by the voluntary advancement of  
the wage scale by the street rail-  
ways companies, without the recog-  
nition of the union.

The tallest man in the Elks con-

The heaviest weighed 417 pounds  
and the shortest was four feet, three  
and three quarters inches.

The man who was first to violate  
the new local option law in old  
Yamhill got it where Eliza buttons  
her collar. He sold a bottle of  
beer to a Yamhiller, and when it  
was proven on him the court fined  
him \$500 and sentenced him to  
serve 20 days in jail. At that  
price Yamhill will not be bothered  
with much bootlegging.—Corvallis  
Times.

"Roaring rails," a term suggest-  
ing the noise caused by the devel-  
opment of furrows across the run-  
ning head of a rail, usually oblique  
to its length, the tops of the fur-  
rows being very hard and the bot-  
toms soft. Such rails are also de-  
scribed as "corrugated." The  
common objection to these rails is  
that they occasion a deafening  
noise when trains are passing over  
them which causes great discom-  
fort to passengers.

Some prospectors pretend to be  
able to locate mines through ob-  
serving the vegetable growth. They  
declare that there is a plant that  
grows where there are deposits of  
lead; that in an iron country birch  
trees favor limestone, the zinc vi-  
olet indicates deposits of zinc, and  
there is a plant that grows in low,  
dense bushes, with small leaves  
coated with thick white down and  
wild rose-colored flowers in clusters  
on long stems, which indicates the  
presence of silver.

### Saloon Keeper Assaults Anti-Saloon Slout.

A report comes from Cottage  
Grove to the effect that George Eg-  
lin, employed by the anti-saloon  
league as a detective to look into  
the matter of alleged illegal selling  
of liquor, was assaulted by Oscar  
Parsons in that city Saturday even-  
ing and beaten in a terrible manner.  
Parsons who conducted a saloon  
there before prohibition went into  
effect, met Eglin on the street and  
knocked him down. It is said he  
then jumped on him and proceeded  
to pummel his face almost into  
jelly. Parsons has disappeared and  
is said to have left the town to  
avoid arrest. He is well known in  
Eugene having resided here several  
years.

Eglin is the same man who ob-  
tained the evidence in the cases of  
Byrd and Hughes who were re-  
cently arrested for selling liquor at  
Florence, resulting in a heavy fine  
for Hughes.—Guard.

### V. S. Boys on Way to Encampment.

The 9th Field Battery and the  
24th and 1st Batteries of the U. S.  
Army from the Presidio at  
San Francisco passed through  
on Monday enroute to Ameri-  
can Lake, sixty miles from  
Vancouver, where there is to be a

great encampment of national  
troops, fifteen thousand soldiers  
being gathered there for drill. The  
batteries are all equipped with the  
newest models of the 3 inch rapid  
fire guns, and had in each battery  
130 men. Each battery is a little  
short of horses, having only 105  
now as a number were recently con-  
demned, and only a few of them  
have been replaced so far. The  
boys were having a time here with  
several of the new bronchos that  
did not take kindly to the trip.  
The train was running very slowly  
and the boys found it hotter each  
mile they went north. On the sec-  
ond section of the train, which  
came in in three sections, there  
were two automobiles, one big  
white steamer, being for the use of  
Gen. Funston, and the second for  
the chief of the signal service.
