School Library Books

The School Ordered the following Books for the School:

The list of books given below were selected by Ex-Internal Watch who had been given considerable latitude in the matter of selection, and the list probably would have been more extended had the time for the purpose not been limited. The following books are strongly recommended for the establishment of school libraries. The apparatus to be used in the school of the village of Yoncalla is not yet fitted up but the board have purchased more books, which were purchased by the parents of the boy at the close of the term. The list presented to the Parochial is a good one, may be made by the parents of the children, who should endeavor to make their possessions correspond with the objects of their gathering.

Four American portraits.
Four American inventors.
