THIS PAPER IS KEPT ON FILE AT E. C. DORR'S Advertising Agency, 14 and 15 Merchants' Exchange Bldg., San Francisco, California, where our readers for advertising can be made for it.

WEDNESDAY, AUGUST 1, 1906.

Eugene is having more troubles. An examination of unfiltered water led the State Board to again report upon the fearful condition of the water supply. Now some filtered water has been sent in and a way report is to be expected. Eugene has had enough trouble with poor water and its attendant sicknesses, so that good water works ought to be secured at any cost and if the present system does not do the work, the citizens will see that the right kind of water system is put in. If Eugene had as good a water supply as Cottage Grove has there would be little kick coming, except from the eternal knockers, of whom we expect Eugene has a few just like Cottage Grove. With the mountains close at hand with their stores of perpetual snow, there is no reason why any town in this section should have to drink impure and polluted water.

France Supplants England as the World's Banker.
France is now playing the role of the world's banker; England lost her claim to the title when she went to war in South Africa. A generation ago one had to go to London to feel the pulse of the international money market. Today one makes a better diagnosis in Paris.

The strides toward financial supremacy which France is now making have been most rapid in the past five years. In that time French investors have taken up many milliard francs of foreign obligations. They furnished Great Britain with much of the capital that went to finance the Boer war; they loaned enormous amounts to Russia, practically supplying the money needed in the struggle against Japan; they provided Germany with 100,000,000,000 marks in 1904-5 to carry on her tremendous industrial enterprises; they took a liberal amount of the last Japanese loan, over half of the Russian loan last April, and finally, they supplied borrowers in the United States with fully \$150,000,000 during the tight-money period last winter and are now financing the bond and note issues of some of our greatest corporations.—From "France as an Investor," by Chas. F. Speare, in the American Monthly Review of Reviews for July.

"Watch Washington Grow."
Tacoma, July 28.—The purpose of exploiting the advantages and resources of the state of Washington, the next legislature will be taken to appropriate \$200,000 to be expended in publicity work during the two years preceding the Alaska-Yukon exposition. The above action was agreed upon today at a meeting of representatives of most of the active commercial organizations in the state.—Ex.

Make Lane a Dairy Center.
There is no reason why Lane County should not develop into the dairying center of Western Oregon. The land abounds in springs and waterways good foothills and valley farms, capable, under proper cultivation, of producing big crops of clover, alfalfa, vetch and corn. Every farmer can have a silo and the ensilage that can be produced here makes the best possible feed.

The time has gone by in this valley when farmers can depend on grain crops alone for revenues. The diversified product is the farmers' money-maker. He can farm 40 acres keep the best dairy stock, highest grade of cattle,

horses, hogs, sheep and goats, raise a variety of products to feed to his stock and make more money than in any other way. There is no money in running stock on pastures and turning them off on the market as soon as they are salable and doing the same thing with all the products of the ground. Diversified centralized farming is what brings in the golden twenties. What we mean by centralized farming is to raise a diversity of crops that produce abundantly under high state of cultivation and turn the crop off in the finished product, the fattened kind and swine, the mohair and wool.

Let the farmers keep the stock instead of selling every hoof and feed them the products of the soil, combining the two in the one and thereby reap the real products of farming.

Instead of shipping our best cows out of the valley let us keep them, add to them and build up a great dairying industry that will bring ready cash into the farmers' pockets and establish a broad reputation for Lane as a dairying center.—Register.

I. T. Nicklin Takes H. C. Neal as Partner.
A deal has been completed whereby I. T. Nicklin sells a half interest in his grocery and dry goods business conducted in the building at East Ninth and Oak streets, formerly occupied by the Register office, to H. C. Neal, and hereafter the firm style will be Nicklin & Neal.

Mr. Nicklin opened up in his present quarters a year ago last May and has built up a prosperous business.
Mr. Neal came to Oregon from Larned, Kansas, about two years ago. He conducted a general merchandise store at London Springs, selling out a little over a month ago. He is a brother-in-law of the Drs. Bartle.

The change is to become effective August 1st. Messrs. Nicklin and Neal will enlarge the business in keeping with the progress of the city of Eugene.—Register.

To Republicans.
We are anxious to have every republican in close touch, and working in harmony with the Republican National Congressional Committee in favor of the election of a republican congress.

The congressional campaign must be based on the administrative and legislative record of the party, and that being so, Theodore Roosevelt's personality must be a central figure and his achievements a central thought in the campaign.

We desire to maintain the work of this campaign with popular subscriptions of one dollar each from republicans. To each subscriber we will send the Republican National Campaign Text Book and all documents issued by the committee.

Help us achieve a great victory.
James S. Sherman, Chairman.
P. O. Box 2063, New York.

Silk Creek.
We hear that Owens & Son have a new hand in the sawmill by name August Heinrich.

Mr. Long is very busy cutting grain for his neighbors. What would Silk Creek do without Mr. Long and his "binder"?

Perhaps the people could do, as M. F. Babcock and son Edward are doing, use the "cradle" in the "good old fashioned way."

We understand Mr. and Mrs. Lawson Slagle are entertaining their granddaughter a few days.

Mrs. Eugene Miller and Mrs. T. Richardson visited their parents at Saginaw, Friday.

Mrs. B. C. Tabor of Eugene visited Mrs. Elbridge Wheeler Friday and attended the service at the church Saturday.

L. D. Estes of Drain, has been with us again a short time.

Mrs. Casebeer and daughter Inez, have been the guests of Mrs. Casebeer's sister, Mrs. David Estes.

Mr. Werth employed E. A. Wheeler to cut grain for him Friday.

Threshing Begins Wednesday.
Walt and Tom Scott came into town Friday with their steam thrasher, and will begin to thresh on Huff's place next Wednesday.

Real Estate Transfers.
V. B. and Lola M. Robbins to George McQueen lot 3 blk 2 in McQueen's add to Cottage Grove. \$180.
D. G. McFarland to Ida M. Miller lots 1 and 2, blk 1, D. G. McFarland's 5th add to Cottage Grove. \$235.

Mr. and Mrs. Milne returned from a visit to Eugene Monday

Olive Lake Power Plant Ready In Fall.
Baker City, Ore., July 27.—General Manager John Thompson of the Fremont Power Company and the Red Boy mine, who is in the city on important business, says that he will have the Olive Lake power plant in operation next October.

Mr. Thompson adds that he can develop 5,000 horse power with the plant the company is erecting, and the plant can be increased easily at any time, and that at the outset they will have 1,000 horse power to spare, which they will be glad to furnish to Baker City enterprises and factories or to any one needing electric power.

Few people realize the immensity of this proposition. Nature put Olive Lake on the top of a mountain with an inexhaustible water supply, and man is going to do the rest.—Daily Mining Record.

A Trip to the Hills.

Its worth your while so R. W. Welch and H. Metcalf says to take a trip to Bohemia. They went to the end of the O & S E road then with E. Purvance and Mr. Cox, familiarly known as "dad," wended their way to the Ware house, took on refreshments and biked out for the hills. The first stop was at "Dad" Cox's cabin where is certainly an ideal place for weary legs, then through the kindness of Tom Meadon showed us a cut off to Parker Bros. palace of the hills and where the coldest water in the hills comes to quench the thirsty traveler but let us say that Frank Haley can get up a meal that would put many women to shame, Frank thought we were jollying him but its right he is a dandy. Here at this spot we stayed all night and regretted to leave, then on up to Orseco where C. Gettys is holding the reins. He kindly showed us over the mines where 60 men are employed digging the quartz to keep 30-stamp night and day employed. Mr. Gettys certainly treats one royally. The boys were put on the tram which goes up as they thought straight for 500 feet on a level with the Champion. There is the electric motor which carries the ore for about one mile from Bohemia over to the stamps. Here is where the big hearted Geo. Knowles hangs his hat. George made an extra effort to make it pleasant for the boys showing them over Bohemia camp. They had quite a pleasant visit with ever the same Elzie Holderman, who insisted on them staying all summer but the boys were a little fearful of striking labor, thanked him and pulled out after a good breakfast. One of the novel features was when the boys accompanied Godfrey Graber up on one of the famous peaks in Bohemia, Fairview and filled two sacks with snow to freeze cream for a party that was given on the eve of July 27th. From here we biked for Vesuvius, but heard that Mr. Hard was in the Grove. We made our next stop at Andrew Brund's cozy cottage where he and Willie are monarch of all they survey. They certainly deserve credit for the amount of work they have done in development. Here we partook of a good dinner rested until 3 p. m. and then descended to the lower level which Metcalf says is 5500 feet. The boys were gone only 4 days but had 1 month experience.

Weather Bureau General Summary.
Week Ending July 30th.

The week was dry except Saturday, when clouds formed and in a number of places thunderstorms occurred, with very light rain. In the coast counties the nights and mornings were generally cloudy or foggy and the afternoons clear. East of the Cascade mountains and in Southern Oregon was excessive.

The temperatures averaged above normal, with the coolest weather during the closing days of the week. In the Willamette valley the warmest day was Friday, when the maximum temperature was above 90 degrees. In Southern Oregon, Tuesday and Friday were both hot days, with maximum temperatures above 90 degrees but the remaining days were only moderately warm. East of the Cascade mountains temperatures of 90 degrees or more were common during the first five days, after which lower temperatures prevailed.

The winds were generally light and their prevailing direction was northwesterly.

Patent Office Behind.
Washington, July 29.—Patent attorneys throughout the country are arranging to send a delegation to see President Roosevelt at Oyster Bay and request him to either remove Commissioner Allen or cause such change in methods as will place the Patent Office on a satisfactory basis. The work of the patent office, attorneys declare, has been running behind since the appointment of Mr. Allen, five years ago.

There are now 23,000 applications

for patents enacted upon. In addition there are trademarks, designs and labels to the number of 4000 enacted upon. This makes a total of more than 26,000 cases pending. Attorneys say their clients suffer great financial loss by the delay in having patents granted.—Ex.

Bohemia Mine Case Settled.

Judge Hamilton on Tuesday rendered a decision in the case of Patrick J. Jennings vs. the Nooday mining Co. a suit to establish a title to a mine in the Bohemia district. The motion of the plaintiff to dismiss the suit without prejudice to another suit of the same cause is dismissed and the title to the property involved is deemed in favor of the defendant, who is also awarded costs. The suit has been pending in court since January 11, 1904, and grew out of a sheriff's sale of the mine pursuant to a judgement obtained by I. Frank Watson, who the concerned litigation in 1896.

A HARD LOT.

Of troubles to contend with, spring from a torpid liver and blocked bowels, unless you awaken them to their proper action with Dr. King's New Life Pills, the pleasant and most effective cure for constipation. They prevent Appendicitis and cure up the system. 25c at Benson's Pharmacy.

TWENTY YEAR BATTLE.

"I was a loser in a twenty year battle with chronic piles and malignant sores, until I tried Booklen's Arnes Salve, which turned the tide, by curing both. It is a true remedy," writes A. M. Bruce, of Parisville, Va. Best for old ulcers, burns and wounds. 25c at Benson's Pharmacy.

TIMBER LAND, ACT JUNE 3, 1878.
NOTICE FOR PUBLICATION.

United States Land Office, Roseburg, Ore., May 18, 1906.
Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada and Washington Territory," as extended to all the Public Land States by the act of August 1, 1892.

WILLIAM C. R. SON, of Dismal, County of Buffalo, State of South Dakota, has this day filed in this office his sworn statement No. 9778, for the purchase of the SE 1/4 of Section No. 22 in Township No. 19 S., Range No. 2 W., and will offer to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before the Register and Receiver of this office at Roseburg, Oregon, on Wednesday, the 29th day of September, 1906.

He names as witnesses: Thomas How, Geo. W. McPurran, Herman T. Dow, & H. Cronson, of Cottage Grove, Ore.
Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 29th day of September 1906.
26-35 BENJAMIN L. EMMET, Register.
