

BOHEMIA NUGGET.

Devoted to the Mining, Lumbering and Farming Interests of this Community.

VOL. VIII

COTTAGE GROVE, LANE COUNTY OREGON, WEDNESDAY, SEPTEMBER 12, 1906.

NO. 34

BOHEMIA MINING NOTES

And General Mining News Gathered from Exchanges.

Joe Damewood and wife came down from their home on the Hardecable road on Tuesday.

Lewis Hartley arrived in town Monday and went up to camp today. Mr. Hartley is manager of the Great Eastern Mining Co.

Prof. J. M. Hyde, head of the department of mining in the University of Oregon, has resigned his position to accept a lucrative position with a big mining company in Mexico.

Judge Harris Returns From Bohemia

Judge Harris and Attorneys Medley of Cottage Grove and Williams of Eugene returned from a trip of investigation to Bohemia, in the suit of the Iowa Gold Mining Company vs. Alex. Lundberg et al. Mr. Dave Gover, the principal witness of the plaintiff was present, there was also present in the interest of the defense nearly all the former witnesses and several other miners familiar with the district.

We do not know what Judge Harris and the attorneys say or think but both sides claimed that they had driven various tunnels as was shown in open court. Many witnesses claim that these tunnels were not on ground claimed by the Iowa Gold mining Company while Mr. Gover firmly asserted that they were and that he performed the work. Judge Harris has expressed no opinion and will probably reserve his decision until the next term of court.

Hardy Thompson
On Saturday, September 8, at 1 p. m. Mrs. Emma Dorris Thompson was married to Mr. Charles A. Hardy at the home of her sister, Mrs. J. E. Bronaugh on Willamette Heights in Portland. The ceremony was performed in the presence of immediate relatives and friends by Rev. J. Whitecomb Brougher, he noted Portland minister. The couple left at once on a trip to British Columbia. Mr. Hardy is one of Eugene's well known attorney's and the bride is the daughter of Attorney and Mrs. Geo. B. Dorris of this city and has a host of friends who wish her happiness.—Sunday Register.

Temporary Organization
At the meeting of the Willamette Valley Development League at Forest Grove the merchants of the state made a temporary organization of the Merchants State Protective organization with G. E. Senders of Albany, president; M. Peterson of Forest Grove, vice-president; and Geo. F. Rodgers of Salem, secretary and treasurer, as officers. The organization is to help the general good of retail and wholesale business and the handling of credits.

Saves the Cash.
The first National Bank has just received the latest improved pro-

and other business places use them. The First is continually adding new and improved appliances and devices for the saving of time and labor, and making more perfect their work.

Small Concentrator Plant.
The Combination Mining Co. expects to put in a small concentrator plant before fall, probably not over ten tons, to thoroughly test its ore, which is principally silver and lead. It is the intention to run the plant by water power, if the necessary flume can be built in time. A small gasoline sawmill is being installed to cut out the lum-

Sues for Divorce
There were three cases suing for divorce in the County Court, one of them being from Cottage Grove, of which the Guard says:

Etta F. Frey of Cottage Grove has sued W. R. Frey for divorce on account of desertion. They were married at Toledo, Wash., on May 30, 1900, and on January 15, 1905, Mrs. Frey alleges, her husband left her and has since failed and neglected to provide for her. Medley & Johnson are her attorneys.

At Louisa Courthouse, Virginia, a little while ago the women were permitted to vote to decide which

Andy Graham is in Eugene on business.

Mrs. W. B. Dennis returned from a week's visit with her mother in Port Townsend, Wash., on Monday.

Mrs. G. B. Dennis, a sister of W. B. Dennis, and her daughter have been paying a visit at Blackbutte, and returned to their Spokane home last week.

Albert Stocks came down from Star on Tuesday suffering from an injury received a little while ago, and will take a short vacation. The Star Lumber Co. is making a good run.

SCHOOL BEGINS MONDAY

Teacher's Meeting Saturday Afternoon—Examinations Monday.

Prof. Strange arrived on the overland Monday morning from Sedro-Wooley, Washington where he has been visiting his parents and recovering from an attack of sickness which had laid him up all summer, but is now feeling strong and ready for a good years work. He states that the teachers will most of them be here before the end of the week and makes the following announcements.

The teachers will have a meeting in the principals room Saturday afternoon at 4 for assignment of work and preparations for Monday.

Examinations will be given Monday during the day in the principals room in the east side building, to all those who were conditioned in their studies last fall.

Classification of new students will begin Monday morning and lessons will be assigned, regular recitations beginning Tuesday morning.

CORPS OF TEACHERS—EAST SIDE

High School, Prof. C. L. Strange, Miss Mary Mundy and Miss Lulu Curran.

Seventh grade, Miss Vena Powers.

Sixth grade, Miss Hefly.

Fourth and Fifth, Miss Neva Perkins.

Second and third, Miss Jessie Wilson.

First grade Miss Cordelia Grant.

WEST SIDE

Eight grade, Prof. Worth Harvey.

Fourth and Fifth grade Miss Ella Anderson.

Second and third, Miss Nora Beebe.

First grade, Miss Gertrude Palmer.

Prof. Strange expects to have an even larger attendance this school year than last.

During the first week of school is the County Institute, which every teacher is required to attend and which gives the school children their first vacation but comes before they have gotten settled down to regular work, so does not break into their studies.

Fred Russell returned from a trip north and drove up to Dorena on Monday.

Bohemia Miners.

Witnesses for defense in the famous suit of Iowa Gold Mining Co. vs. Alex. Lundberg, et al.

tectograph, which is a machine to stamp into checks or drafts the amount drawn, so that the figures cannot be changed by erasures or any way. This machine stamps in the checks "Not good for more than one hundred dollars" or any other amount, and in stamping it in, so cuts and destroys the paper, that while the writing is perfectly visible, it is not possible to change the figures. The old machine has been turned in, and the new one is No. 33707, which shows that a great number of banking houses

ber for this work, and then the preparations for the mill will be completed. If the water power can not be relied upon in time, a gasoline engine will be put in, or if necessary two of them, as owing to the packing it may be impossible to put a big engine in over the trail. Mr. Hopkins states that they are going to give the property a thorough test before going to any great expense in putting in a large plant.

W. E. Green of Creswell was a visitor in town Monday.

of two teachers should be retained for the high school. The election was held in the courthouse, there were regular printed ballots and the Richmond Leader says that this was perhaps the first time that ladies were permitted the privilege of voting in this state. After it was all over the district school board met and calmly elected the teacher—not the "people's choice", as indicated by the election—but the other one. A good example of the way that "the hand that rocks the cradle rules the world."

Esther Mitchell and Mrs. Crefield will be examined as to their sanity in Seattle today, and on the result depends whether they will go to the insane asylum or face a trial, with a probable death sentence for the death of Geo. Mitchell.

A Corvallis man is said to be the meanest man on earth for the reason that he puts rocks in his horses stalls to keep them from lying down at night in order that he may avoid the work of currying them and the expense of straw. He must be mean.
