In a Condensed Form for Our Busy Readers.

A Statement of the Leaders in the News of the Week.

Building in San Francisco is progressing rapidly. The steel framework of the Odeon theater is already built, and work is now going on to complete the building. The Odeon is to be the largest theater in San Francisco, and will be a splendid example of modern architecture.

The Odeon is being built at a cost of $1,500,000, and is expected to be completed in a few months. When finished, it will have a seating capacity of 5,000 persons, and will be equipped with every modern convenience. The building will be of steel and concrete, and will be fireproof.

The Odeon is to be located on Market Street, and will be one of the finest theaters in the city. It is expected to open in the fall, and will be a great attraction to the public.

The building is being constructed by the Odeon Theater Company, and is being supervised by Mr. J. H. Odeon, the president of the company. Mr. Odeon is a well-known figure in the theatrical world, and is known for his ability to build fine theaters.

The Odeon is to be equipped with the latest in stage and lighting equipment, and will have a large orchestra pit. The theater will also have a large dressing room for the actors, and will be provided with every convenience for the comfort of the performers.

The Odeon is expected to be a great success, and will undoubtedly attract a large number of patrons. It is expected to be the finest theater in San Francisco, and will be a great addition to the city's cultural life.
