### Who is Doing the Electioneering.

The salo-omen are busy electioneering, which is a mighty sure indication that the amendment to be voted on Saturday is one in their interests. The lawyers who got up the proposed amendment either did it free of charge for the benefit of the city, or did so because of a good fat fee put up by those most directly interested, the salo-omen, and you can bet, they did not do it for nothing. It may be a very benevolent thing on the part of the salo-omen to ask Cottage Grove to bear the expense of fighting a battle for them through the courts to decide a matter that has once been settled. They expect to win and are gambling on it, so every voter who wants to see the saloons stay out should be on hand Saturday to vote against the amendment. Don't be fooled into the idea that it is a general amendment to the charter, and that the liquor heading of the ordinance don't mean anything. The lawyers are roting you know, for getting up jokers to play on the unsuspecting public.

Nevada is the home of many great surprises. Ore is being found where never before suspected and of untold richness. A report from Rhyolite tells of a great sample recently brought in by a prospector from a point which he designates as from "some place south" which isn't quartz literally shot with gold, but native gold, containing some quartz, and estimated worth \$100,000 per ton. It is unnecessary to state that there will be a rush that way. Now Oregon is going to get into just such a line someday. It has great fields, such as Bohemia, Blue River, and many others as yet hardly even scratched, with all the money spent in their development, that have great wealth stored in them. The time is coming and that soon when Oregon will be classed as one of the great mining states, as well as Nevada.

# ROYAL Baking Powder

ABSOLUTELY PURE

Healthful cream of tartar, derived solely from grapes, refined to absolute purity, is the active principle of every pound of Royal Baking Powder.

Hence it is that Royal Baking Powder renders the food remarkable both for its fine flavor and healthfulness.

No alum, no phosphate—which are the principal elements of the so-called cheap baking powders—and which are derived from bones, rock and sulphuric acid.

To me your lecture brought a fund of good suggestions that will far outlast the pleasing impressions made by your thrilling delivery. It is both entertaining and instructive well enriched with wit, but not less replete with good common sense, and presented with life and power. Thanking you again, I am cordially yours.—J. J. Mitchell, Secretary DeWitt Lecture Association, DeWitt, Iowa.

The family of Mr. and Mrs. J. B. Protzman is in sore trouble. Mrs. Protzman is lying sick almost at death's door, with her month old baby girl very low, her seven year old boy sick, and the two year old boy just laid to rest last Thursday in the graveyard, truly it is a wonder with all her affliction that she keeps alive herself. Mr. Protzman is worn out with the strain of the long sickness and lives in daily fear of a serious end for some of the rest of the family, yet says "there are others worse off than we, we will do our best." Such is the spirit that makes heroes of men and women, that guides them through all ills and trials of life.

### Blow to Game Law.

The order states that a warden or other state or local officer who persists in attempting to enforce those laws within the limits of such a reservation, after having been ordered to desist therefrom, should be removed from the reservation.
