HAVE YOU SENT YOUR DOLLAR?

TO REPUBLICANS:

We are anxious to have every Republi-
can in close touch, and work-
ing in harmony with the Republican
National Congressional Committee in
favor of the election of a Republican
Congress.

The Congressional campaign must
be based on the administrative and
legislative record of the party, and
that being so, Theodore Roosevelt's
personality must be a central figure
and his achievements a central
thought in the campaign.

We desire to maintain the work of
this campaign with popular subscrip-
tions of One Dollar each from Repub-
licans. To each subscriber we will
send the Republican National Cam-
paign Text Book and all documents
issued by the Committee.

Help us achieve a great victory.

Dorena Items.

Mr. and Mrs. Fred Russel of
Dorena went to Eugene Thursday
on business returning Friday morn-
ing.

Mr. J. W. Kirk who has been at-
tending the Eugene Business col-
lege at Eugene for the past two
months came up to Dorena Sunday
to visit his relatives and friends re-
turning Sunday evening. Mr. Kirk
states he likes his work fine and is
getting along finely and hopes in a
short time to complete his school
and be ready for business. He has
many friends who wish him success
in his work.

Clarence Kirk went to the Grove
with his father Sunday evening re-
turning Monday morning.

Close at 8 P. M.

All the barbers in town have
signed an agreement to close their
shops beginning Nov. 5th at 8 P.
m., except on Saturday night.

Cut Down the Bonds

Clerk J. E. Young states that he
thinks the surplus in the city water
fund should be used to retire a
couple of the water bonds, even
paying a premium for them, if they
can be purchased. Such a scheme is
commendable, and would in time
see the retirement of the entire
bond issue probably before it is up,
which would save interest all the
time. A provision for such retire-
ment could not be made in the
bond sale, and can only be brought
about by paying a premium at the
option of the bond holder. It is
thought the receipts from the
water fund can readily take up one or
more bonds per year, besides
paying expenses of maintenance
and necessary improvements.

A. L. Woodard is very jubilant
over the sale of his timber land re-
cently as he made an exceptionally
good deal.

Bert Bennett and Roy Ostrander
have rented the O. K. barber shop
from J. E. Ostrander, who has gone
south for the winter.

Lincoln's butcher shop will open
by the Nat Martin building on
Fifth and Main streets as soon as
the interior can be thoroughly re-
painted and papered.

C. H. Burkholder shipped out
1200 pounds of Chittim bark on
Saturday that has been gathered
near here. A good many tons of
this useful bark is gathered here
every year.

J. H. Bartels & Co. are finding it
very hard to get sufficient beef
to supply the local market, and
have to go out to the various towns
up and down the valley to secure
cattle. There are not nearly enough
beef cattle raised around here to
supply the demand.

The Bazaar now has one of the
finest displays of talking machines
and records to be seen in the
county. The display consists of
Edison, Columbia and Victor phon-
ographs ranging in price from \$10
to \$100. Three fine Victors and
100 disc records were received this
week.

J. S. McArthur and wife of Glas-
gow, Scotland were registered at
the Graham hotel on Friday. They
are interested in the Black Butte
mines, and have been touring the
United States, and stopped here to
see what the miners looked like.
They were much pleased with the
work going on at the mines and ex-
pected to see the miners recognized as
one of the greatest quicksilver prop-
ositions in the world in the course
of a few years. They have greatly
enjoyed their trip over this coun-
try and like America much.

Japan has formally objected to
the discrimination against Japanese
school children in San Francisco,
declaring it a violation of the treaty
of 1894. While the powers at Wash-
ington seem to believe that the Jap-
anese position is correct yet they
don't seem to know how to handle it,
and it will probably devolve upon
Pres. Roosevelt to step in and use
some of his prerogatives. He is
not only favorable to Japan but
don't believe in beating around the
bush and so will probably take the
shortest cut to alleviate the trouble.

Russia seems to be getting ready
for the elections which it must call
before long.

M. Stolypin, whose life was at-
tempted a short time ago is the
leader of the government and re-
ports that he is turning a politician
and fighting for the election of de-
legates to the Duma who will be
entirely favorable to him, and not
as Count Witte did, leave events to
shape themselves. Every effort is
made to make the election such
that a majority of the Duma will
be in entire sympathy with the gov-
ernment, which means that the Rus-
sian people will be in just as bad a
boat as before. If the government
party can control then the others
might as well step out.

FAIRY STRIKE BREAKERS.

The most famous strike breakers in
the land are Dr. King's New Life
Pills. When liver and bowels go on
a strike, they quickly settle the
trouble, and the purifying work goes
right on. Best cure for constipation,
headache and dizziness. 25¢ at Ben-
son's Pharmacy.

A YEAR OF BLOOD

The year 1903 will long be remem-
bered in the home of F. N. Tacket of
Alliance, Ky., as a year of blood,
which flowed so copiously from Mr.
Tacket's lungs that death seemed
very near. He writes: "Severe bleeding
from the lungs and a frightful
cough had brought me at death's door,
when I began taking Dr. King's
New Discovery for consumption, with
the astonishing result that after tak-
ing four bottles I was completely restored
and as time has proven permanently
cured." Guaranteed for
sure lungs, coughs and colds at Ben-
son's Pharmacy. Price 50¢ and \$1.00.

The Eye and Its Care.

BY DR. FRANC LUCILLE HARD—RUGENE

Last week the eyebrows, eyelids,
eyelashes and muscles of the eye
were described. Now the eyeball
and its centers are to be considered.

On inspection of the eye the first
thing noticed is a curved, transparent
surface called the Cornea. The
Cornea is about one thirty-second of
an inch thick in the center and
slightly more than that at the
edges. It is composed of many
fibrous layers of tissues and is
closely matted by a network of invisible
nerves, which account for the
intense pain suffered upon getting
any foreign substance into the eye.

Just back of the Cornea is a tiny
space known as the Anterior Cham-
ber and filled with a watery fluid
called the Aqueous Humor. This
contains a little albumen and some
salts, but is mostly water.

Next in succession comes the Iris
(or rainbow of the eye). This is
the dark part of the eye which we
see. Its color as we all know varies
in individuals, brown and blue
being the most common. The Iris
is a delicate little curtain separating
the anterior from the posterior
chamber. In the center is what
appears to us as a black spot, but
in reality is a circular hole through
which the rays of light pass on
their way to the Retina (of this
more will be given later.) This
hole, the pupil, regulates the
amount of light which reaches the
Retina, by expanding when in a dim
illumination, and contracting upon
going into a bright light. This is
caused by two sets of fibers in the
Iris. One, of radiating fibers which
act in enlarging the pupil and the
other of circular fibers which act in
closing the pupil like a draw string.
Thus allowing only as much light
as is necessary to enter the eye.

Next week the Crystalline Lens
and Ciliary Muscle, or the focusing
apparatus of the eye will be talked
about.

MADE HAPPY FOR LIFE.

Great happiness came into the
home of S. C. Blair school superintend-
ent at St. Albans, W. Va., when his little
daughter was restored from the
dreadful complaint he names. He says:
"My little daughter had St. Vitus' Dance,
which yielded to no treatment but grew steadily worse
until as a last resort we tried Electric
Bitter; and I rejoice to say, three
bottles effected a complete cure."
Quick, sure cure for nervous con-
plaints, general debility, female weak-
ness, impoverished blood and mal-
aria. Guaranteed by Benson's Phar-
macy. Price 50¢.

A Great Minstrel Show Monday.

Beach & Bowes' minstrels
struck a popular chord at the Ly-
ceum last evening. The troupe
was greeted by a crowded house,
and gave the audience just what it
was looking for, a bright, clean,
minstrel show, with first class mu-
sic, and some unusually good
specialties. The program was not
exactly the stereotyped minstrel
show program throughout, but the
features that tend to give minstrel
shows their undying popularity
were preserved and others added.
The orchestra was one of the
strongest musical organizations
that has visited the city during the
winter, and the vocal numbers were
exceptionally good. Jokes were
not as numerous as in some shows,
nor were they as old. The contortionist
was a wonder, and the trick
bicyclists disconcerted the best circus
performers. Beach & Bowes will
probably visit this city later in the
season, and they can rest assured of
another good house.—Fergus Falls

"A great joy to me—I welcome my dinner hour;
Because I eat indigestion with August Flower.
Constitution is the result of indigestion
blisters, flatulence, loss of appetite
self-poisoning, anemia, emaciation, uric
acid, miasma in various parts of the
system, catarrhal inflammation of the in-
testinal canal and gallstones, other ailments
that rob life of its pleasure, if they
do not finally rob you of life itself.
"I am bound in the bonds of life; it is a com-
mon expression of people who look unto
me and are miserable—yet who persist
in letting nature take its course."
What a foolish plan, when nature could
be aided by the use of Green's August
Flower, which is nature's own remedy for
constipation and all stomach ills.
August Flower gives new life to the
liver and insures healthy stools.
Two sizes, 25¢ and 75¢. All druggists
have it in stock."

HAD A CLOSE CALL.

A dangerous surgical operation
involving the removal of a malignant
ulcer, as large as my hand, from
my daughter's hip, was prevented by
the application of "Buckley's Arsenic
Solve," says A. C. Stile, of Millett
W. Va. "Persistent use of the Solve
completely cured it." Cure cuts
