WEDNESDAY, NOV. 21, 1906

AN INTEREST WORTH TAKING CARE OF.

That the agricultural interests should receive consideration when the matter of seeking new markets is under discussion, is apparent from the fact that the exports of that industry for 1906 fiscal year amounted to \$909,457,306 or 56.43 per cent of the total exports of all classes of domestic shipments from this country to foreign ports. Of the other principal exports manufactures ranked next to the products of agriculture, with a volume of \$603,227,835, which was 35.11 per cent of total exports; mining, \$53,055,261, or 3.9 per cent; forest, \$75,612,311, equaling 4.40 per cent; fisheries, \$8,212,820, amounting to .48 per cent, or a little less than one-half of one per cent, and the miscellaneous shipments reached a sum of \$8,487,848, or .49 per cent.

STARTED ON THE RIGHT ROAD.

The Commercial Club of Cottage Grove has been known for a long time for its activity in getting at the root of troubles that affect the welfare of Oregon and the Willamette valley, and in its latest attack upon the car shortage problem it is in the fight once more.

The welfare of Oregon is at stake and until the railroads find out that cars must be furnished, they will not do it. Effective legislation will help out at once. The state of Texas has a reciprocal demurrage that works, and car shortages are unheard of there.

The resolution adopted by the club urging representatives of the state to use their influence in a legislative measure to compel the railroads to furnish cars deserves the support of every business man. The meeting at Eugene Dec. 5th ought to be attended by thousands of business men, and then the S. P. will feel the proper influence coming, and will get busy.

Big Donkey Arrives at Last.

The big donkey engine that the Brown Lumber Co. has been expect-

ing to arrive for a long time arrived on Tuesday, and will be put to work first in scraping out the mill pond before being taken up to the company camp to commence hauling in the logs. A large scraper has been brought down that was used on the Wildwood Lumber Co. pond, and this will be used in the work. It is the intention to make the pond some wider, deeper and longer so that a greater number of logs can be stored in it, and hauled out with ease. The pond has filled up considerably during the summer's work, from the refuse, etc. When the new donkey is installed in the woods, Mr. Fisher expects that the mill will be able to run a 12 hour shift per day steadily, whenever he can spare cars to haul the lumber. He states that if the O. & S. E. road ever gets equipment enough to haul all the cars he wants, that as soon as the car shortage period is over he will try to be ready to run two shifts, but with the few cars owned by the O. & S. E. it is impossible for them, with the business already on their line, to haul enough logs to keep them running 24 hours per day.

CONTRACTS FOR 500 CORDS OF SLABS.

During last week the Brown mill secured a contract for 500 cords of slabwood for shipment to Roseburg. Inasmuch as the company had not over 12 cords on hand at the time, it was a question just where it is all coming from. The contract for 500 cords will take nearly all the slab wood that will be had for some time, and the supply in Cottage Grove will consequently be short. Mr. Fisher stated that many people had expected the price of slab wood to go down after a time, as they thought it would be hard for the mill to get rid of it all, but he states that a ready sale is found for every bit of it.

Silk Creek.

Mrs. John Ashby drove out to town Wednesday.

Miss Winnie Dressor visited at W. N. Wheeler's Wednesday and Wednesday night.

Mrs. Geo. Thompson called on Mrs. Eugene Miller Thursday, she was accompanied by two little girls.

Miss Mintie Miller of Divide has been visiting with her sister Mrs. Alfred Wheeler for a few days.

Miss Gertrude Burdick of Cottage Grove visited friends here Saturday night and Sunday.

Hamilton Fox, who used to live on the creek with his parents was calling on old friends last week. He stayed two nights at the home of M. F. Babcock.

We understand W. F. Gray and Henry Damswood and several others of our neighbors expect to have telephones in their homes soon.

Amos Owens now has an independent line of telephone wire from Cottage Grove to his sawmill.

HAD A CLOSE CALL.

"A dangerous surgical operation, involving the removal of a malignant ulcer, as large as my hand, from my daughter's hip, was prevented by the application of Bucklen's Arnica Salve," says A. C. Stiegel, of Milletts, W. Va. "Persistent use of the Salve completely cured it." Cures Cuts, Burns and Injuries, 25c at Benson's Pharmacy.

Men's and boys caps and girls hats at less than cost at Morse's.

Commercial Club is Right After S. P. Company.

The Commercial Club at its meetings Monday night followed up its action of the previous work in sending out a call for a meeting of Commercial organizations etc. by formulating a resolution which is printed elsewhere to be sent to all legislative representatives of Oregon.

A number of discussions of the freight situation were entered into and further instances of neglect of the S. P. Co. to properly serve its territory were brought up.

C. F. Davis of Folger & Co. of San Francisco stated that he had many local shipments coming north to Willamette Valley points from San Francisco and that it took at least twenty days by local freight to get them to their destination, as long as to get material from Chicago. He took this question up with the Traffic department in San Francisco and was prepared to prove his figures, expecting to be disputed, but instead the manager leaned back in his chair and listlessly said "I know it" and in response to the question "What are you going to do about it?" said "Nothing." That certainly is a great satisfaction to get from a representative of a great corporation, which exists by its service to the public.

Messrs. Hansen, London, C. P. Jones, Hemenway and Comer went to Eugene last week to confer with the Eugene Commercial Club on a meeting in December, and were accorded a warm reception. The Eugene Club is with the club and December 5th has been set for this great convention to start the matter of active legislation in this matter.

Photograph nets for all kinds of decorations at New Era drug store.

Go to L. Morse's store for bargains. Dr. Schlee's building, Phone 115.

Anly Nelson is busy putting in the new electric plant for the Wildwood sawmill.

Bargains in all wool underwear, and men's caps also girl's school hats at Morse's.

A cozy corner with your photographs in one of our photo nets is the very latest thing out. New Era drug store.

H. D. Lincoln is now located in his new butcher shop in the Nat Martin building. Mr. Lincoln has fitted up a neat room and is prepared to serve one and all with first class meats.

Ernest Purvaue has taken a job as carpenter at the Ditson sawmill at the end of the O & S E road where he will have inside work for the winter and has given up his proposed contract for hewing at the Black Butte mine. He with his wife returned from a short trip south on Tuesday.

High School Notes.

School opened Monday with a slight change of program for the benefit of those taking studies outside of their own class.

Hazel Hemenway returned to school Monday after an absence of several weeks.

Mr. Ervin Pease entered the Freshmen class Monday.

The High School students have sent for their pins. The colors are turquoise and brown.

Council Has Special Meeting.

At a special meeting of the council on Monday night a special ordinance fixing a yearly license for the Opera House was brought up but was laid over for one week.

S. V. Allison obtained permission from the council to make a number of alterations in his building occupied by Comer's harness shop, extending the rear of the shop so as to give room for a sky light.

The council ordered warrants drawn of \$1.50 apiece to each of the nine clerks and judges at the last election, also \$4.50 for rent and fire wood for voting places.

In view of the non-repair of several street crossings by the street commissioner, charges were preferred against him, and he will be removed at the next council meeting.

Marshal Underwood was instructed to keep the street crossings clean during bad weather.

Injuries Proved Fatal.

The injuries received by Chas. Weithman the logger hurt at Camp No. 2 of the Brown Lumber Co. a week ago Monday resulted in his death the following Friday evening.

Mrs. H. O. Thompson after a short visit with friends here went south into California to pay a visit with her mother.

Mr. and Mrs. John Currin went south to Roseburg on Tuesday to make a short visit with their daughter Mrs. R. L. Giles.

REPORT OF THE CONDITION OF THE First National Bank

at Cottage Grove, in the State of Oregon, at the close of business, Nov. 12th, 1906.

RESOURCES.

The time for subscribing to one periodical is past. Every refined home, where good reading is appreciated, is not without its family group of periodicals—something for the man, something for the young people, something for the woman. These three magazines fill the bill completely as a year's supply for the library table. You will want them anyhow, so why not get them with the Nugget, saving 40 per cent as well as the trouble of corresponding with four publishers?

Six million of the best people in America have found these three great magazines a joy and help and inspiration. We are proud to be able to offer them in one great combination with the Nugget. If for any reason you do not want all the magazines for yourself, send them to your friends. No present is more acceptable.

REMEMBER—The three great magazines above cost \$5.00 if bought separately and the Nugget costs \$1.50 too. We offer all four to you for a limited time only for \$3.90. Send in your order today; do it now.

ROYAL Baking Powder

ABSOLUTELY PURE

Healthful cream of tartar, derived solely from grapes, refined to absolute purity, is the active principle of every pound of Royal Baking Powder.

Hence it is that Royal Baking Powder renders the food remarkable both for its fine flavor and healthfulness.

No alum, no phosphate—which are the principal elements of the so-called cheap baking powders—and which are derived from bones, rock and sulphuric acid.

ROYAL BAKING POWDER CO., NEW YORK.
