WE ARE ALWAYS BUSY, WHY?

Because we carry the best men's lines in ladies' shoes and furnishings, and the people know it.

We need a new branch of Forest Reserves to Miners.

It is worthy of the mining interest in all mining regions to have a branch of Forest Reserves, not attached to any national forest, but operated solely for the protection and propagation of game and fish, with a view to develop the natural resources of the region, and with the object of making the region more attractive to prospectors and miners. The proposition is based on the idea that, by providing a place for game and fish, the region will be more attractive to the mining interest, and that the increased value of the region will be a direct benefit to the mining interest.

FROM BOHEMIA

General Mining and Friends of the Nugget.

Chas. Lloyd of Eugene is again in the mines.

John Crider and Dick White are still in camp, waiting for their horses to be ready for the journey home.

Jim Coyle has gone back to the mines, with the intention of staying until the spring.

The Belknap mining company has gone into action, for work under the supervision of Frank M. Hutson, W. A. Bond, manager of the company.

John Russell of Eugene passed through the country last week on a visit to the mines where he intends to remain until spring.

Wm. Gray is a visitor in town.

Mrs. R. D. Davis is on her way to the mining country. She is accompanied by her husband who is employed in the mines.

Price R. Roberts who has been absent some time will return to town on Friday. He has been in the mines, but will remain until spring. Mr. Roberts will leave for New York City this week, where he will remain until he returns.

Geo. W. Lloyd of Chicago arrived here on Easter day to look after the construction of the new mine. He has been in charge of mining claims belonging to the Chicago Mining Company, in which Mr. Lloyd is interested. The company has completed all requirements and paid the necessary costs, and is now ready to go forward with the work. The company is expecting to have the work done by the end of the year.

Mr. Lloyd is making considerable progress in the claim, and expects to have the work done by the end of the year. The company is making good progress, and expects to have the work done by the end of the year.

Forest Reserves For Mining.

It is understood for the mining interests in all mining regions to have a branch of Forest Reserves, not attached to any national forest, but operated solely for the protection and propagation of game and fish, with a view to develop the natural resources of the region, and with the object of making the region more attractive to prospectors and miners. The proposition is based on the idea that, by providing a place for game and fish, the region will be more attractive to the mining interest, and that the increased value of the region will be a direct benefit to the mining interest.
