the eye.

As we all know the eye-balls are situated in the front of the head in pastor of the First Presbyterian two hollow cavities, called the ortits, the shape of these cavities is conical with the bases directed outward. The walls of the orbits are made of bone and lined with varions tissue and much fat which forms a soft bed for the eye-ball to E. Morss and Mr. David A. Rissue rest in.

In front the eye is protected by the eye-brow, eye-lids, and eyelashes.

The eye-brows help keep the dust and dirt from the eye and, also regulate to a small extent the

amount of light that enters the eye. The eve-lids are the shields of the

TO REPUBLICANS: We are anxious to have every Republican in close touch, and working in harmony with the Republican National Congressional Committee in favor of the election of a Republican Congress,

The Congressional campaign must be based on the administrative and legislative record of the party, and, that being so. Theodore Roosevelt's personality must be a central figure and his achievements a central thought in the campaign.

We desire to maintain the work of this campaign with popular subscriptions of One Dollar each from Repub-中中中日 licans. To each subscriber we will send the Republican National Campaign Text Book and all documents issued by the Committee.

Help us achieve a great victory. JAMES S. SHERMAN, Chairman. P. O. Box 2063, New York.
