

### MAYOR OF SUNBURY

#### Says Per-na is a Good Medicine.

Hon. C. C. Brooks, mayor of Sunbury, Ohio, also attorney for Farmers' bank and Sunbury Building and Loan Co., writes:

"I have the utmost confidence in the virtue of Peruna. It is a great medicine. I have used it and I have known many of my friends who have obtained beneficial results from its use. I cannot praise Peruna too highly."

HON. C. C. BROOKS.

There are a host of petty ailments which are the direct result of the weather.

This is more true of the excessive heat of summer and the intense cold of winter, but it is partly true of all seasons of the year.

Whether it be a cold or a cough, catarrh of the head or bowel complaint, whether the liver be affected or the kidneys, the cause is very liable to be the same.

The weather slightly deranges the mucous membranes of the organs and the result is some functional disease.

Peruna has become a standby in thousands of homes for minor ailments of this sort.

#### AWFUL ATTACKS OF PAIN.

##### A Most Dreadful Case of Kidney Trouble and How It Was Cured.

Thomas N. McCullough, 321 South Weber St., Colorado Springs, Colo., says: "For twelve or fifteen years I was suffering frequent attacks of pain in the back and kidneys that lasted for three weeks at a time. I would be unable to turn in bed. The urine was in a terrible condition, at times a complete stoppage occurring. I began with Doan's Kidney Pills, and soon felt better. Keeping on, I found complete freedom from kidney trouble. The cure has been permanent. I owe my good health to Doan's Kidney Pills."

## SKIN DISEASES

### HUMORS IN THE BLOOD

When the blood is pure, fresh and healthy, the skin will be soft, smooth and free from blemishes, but when some acid humor takes root in the circulation its presence is manifested by a skin eruption or disease. These humors get into the blood, generally because of an inactive or sluggish condition of the members of the body whose duty it is to collect and carry off the waste and refuse matter of the system. This unhealthy matter is left to sour and ferment and soon the circulation becomes charged with the acid poison. The blood begins to throw off the humors and acids through the pores and glands of the skin, producing Eczema, Acne, Tetter, Psoriasis, Salt Rheum and skin eruptions of various kinds. Eczema appears, usually with a slight redness of the skin followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, face, arms and legs, though other parts of the body may be affected. In Tetter the skin dries, cracks and bleeds; the acid in the blood dries up the natural oils of the skin, which are intended to keep it soft and pliant, causing a dry, feverish condition and giving it a hard, leathery appearance. Acne makes its appearance on the face in the form of pimples and black heads, while Psoriasis comes in scaly patches on different parts of the body. One of the worst forms of skin trouble is Salt Rheum; its favorite point of attack is the scalp, sometimes causing baldness. Poison Oak and Ivy are also disagreeable types of skin disease. The humor producing the trouble lies dormant in the blood through the winter to break out and torment the sufferer with the return of Spring. The best treatment for all skin diseases is S. S. S. It neutralizes the acids and removes the humors so that the skin instead of being irritated and diseased, is nourished by a supply of fresh, healthy blood. External applications of salves, washes, lotions, etc., while they soothe the itching caused by skin affections, can never cure the trouble.

I suffered with Eczema for forty years and could find nothing to cure me until I tried S. S. S. I suffered intensely with the itching and burning; pustules would form from which there flowed a sticky fluid; crusts would come on the skin and when scratched off the skin was left as raw as a piece of beef. I suffered agony in the long years I was afflicted, but when I used S. S. S. I found a perfect cure. There has never been any return of the trouble.

#### No Chance for Argument.

"George," said Mrs. McSquillop to her liege lord, who was toasting his shins before the fire, "I suppose you get the credit for sweeping the snow off our front walk."

"I reckon I do, Cynthia," responded George.

"And you know you don't do a lick of it. You know I do it myself."

"You do, Cynthia. There can't be any doubt about that."

"Well, what sort of a man do you think you are?"

"I'm a blamed small specimen of a man, Cynthia," said George, still serenely toasting his shins. "I have no doubt I am meaner and more contemptible than you think. Lord, love you, Cynthia, you can't get into any argument with me on that proposition. I'm the laziest, good for nothing, overest man in the neighborhood. If it wasn't that I've got such a good wife, I'd go and blow my worthless brains out. Super ready yet, dear?"—Philadelphia Index.

#### Throughly Reliable.

Never here was a reliable and safe remedy it is that old and famous plaster—Alleck's. It has been in use for sixty years, and is as popular today as ever, and we doubt if there is a civilized community on the face of the globe where this wonderful pain reliever is not to be found. In the selection of the ingredients, and in their manufacture the great care is taken to keep each plaster up to the highest standard of excellence, and so pure and simple are the ingredients that even a child can use them. Allecks are the original and genuine cellophane plasters and are sold by Druggists in every part of the civilized world.

#### Side Lights on History.

Capt. Kidd was burying his treasure.

"It's better than putting it in suburban lots," he chuckled. "The money will always be there."

Fully aware, too, that the authorities couldn't rob him of it by taxes and special assessments, he satisfied himself that no meddling reporter was nosing around in the neighborhood and betook himself again to the long, low, rakish craft that lay waiting for him two cables' length from shore.

#### DIGGING A GRAVE FOR HIM.

##### Intended Victim Escapes and One of Plotters Killed by Mistake.

A story of treachery followed by poetic retribution is told in a dispatch from Lucknow to a London newspaper.

Late in the evening a traveler, the story goes, realizing that he could not reach Lucknow before dark and fearing the dangers of the road, stopped at the house of the police inspector, a native official, and applied for shelter for the night.

"I am carrying a considerable sum of money," said he, "and in view of the dangers of the country I desire to have your protection until I can resume my journey by daylight."

The inspector made him welcome, gave him water and food, finally taking him to a sleeping room, where he left him alone.

As the night wore on the traveler was stricken with sleeplessness. Presently he heard voices near his window and strange sounds of labor. He got up and looked out. His eyes, used to the greater darkness of the room, discerned two men digging in a field at the back of the house. He strained his ears to catch what they were saying and realized in a few moments that they were digging a grave for him.

They were in a plot with the inspector of police to murder him for his money and hide his body away before daylight.

In panic he stole through the house and crept out by a back door. He dashed through the village as noiselessly as he could and a mile or so down the road climbed a tree, where he sat in safety in the shadow of the foliage until daybreak came. Then as a patrol came along he slipped down to ground and told his story to the commanding officer.

All hands returned to the village and there the first news that greeted them was the mysterious disappearance of the police inspector. The traveler located for them the grave that had been intended to receive him. The soldiers opened the trench and there was found the body of the police inspector, horribly hacked.

The arrest of two men who had been seen with him late the previous evening followed and then the whole case became simple. After arranging with his accomplices the plot to rob and murder the traveler the police inspector started to get drunk while they were busy digging the grave. In this condition the idea struck him that he would go in and do the killing himself and so skim the cream off the booty instead of dividing evenly. Stooping over the bed to grip his victim by the throat, he must have fallen forward and passed quickly into a drunken slumber.

When the two accomplices outside got the grave finished they began to wonder at the inspector's failure to turn up. Entering the house, they armed themselves with the inspector's saber and creeping into the room attacked the man in the bed. Literally hacking him to death.

Then they struck a light to look for the plunder and discovering their mistake had nothing left to do but bury the murdered man in the grave they had dug.

#### A Freshman.

A freshman who had entered one of the large universities, and was not much accustomed to the ways either of institutions of learning or of cities, was returning late one evening from a lecture. When near his lodgings he was halted by two masked men, who "held him up" in true metropolitan style.

One of the men leveled the conventional revolver at the young man, while the other relieved him of his watch, pocketbook and other valuables.

He made no mention of the matter to anybody at the time, but a few days later he reported it to the president of the university.

"It wasn't a great deal," he said, "but it was more than I like to lose, and I think it's an outrage to treat a boy that way."

"Why didn't you tell me of this sooner?" asked the president.

"I supposed they would bring the things back to me next morning," he answered. "It was a couple of sophomores hazing me, wasn't it?"

#### Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; this case often is caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness caused by catarrh that cannot be cured by Hood's Catarrh Cure. Send for Circulars, free.

#### Blue Blooded Salvationists.

The Salvation Army bids fair to become an aristocratic body. Major Mary Murray, who supervises the military and naval league of the Salvationists, is a daughter of the late Sir John Murray, K. C. B., and Lieut. Col. Minnie Reid, who recently married Commissioner Booth-Tucker, is a daughter of a former acting governor of Bombay. The commissioner himself resigned a judgeship in India, with all the wealth and special position attached to it, to devote himself to Salvation Army work.

Lady Sarah Sladen is a Salvationist, and the countless dowager of Testfield is a member of the auxiliary of the army. Two daughters of Mr. Onslow, late member of parliament for Guildford, have together steadily risen in the ranks. Intimately connected with the work in Australasia is the Hon. Mrs. Bird, wife of the former prime minister of Tasmania. She is said to be as ardent as any Salvation Army lass in disposing of the "War Cry." The daughter of the late Lady Galt, wife of the lieutenant governor of Ontario, is working in Canada.—Answers.
