THE OLD-MONK-CURE RELIEVES FROM PAIN

Price 25c and 50c

**IRRIGATION IN CANADA.**

**Alberta Country Fast Coming to the Front.**

The Canadian Pacific Railway company is now engaged in a great irrigation work, just east of Calgary, that will eventually bring under water 1,500,000 acres of as fine land as there is in all of Canada. They have just thrown open to settlement the first block of 110,000 acres, which they are selling at from \$15.00 to \$25.00 per acre. In connection with this irrigated land they are selling non-irrigable lands at from \$12.00 to \$15.00 per acre, which cannot be surpassed for grazing purposes, and affords a range where stock may graze throughout the entire year without shelter.

The future of Western Canada, and particularly the southern portion of Alberta province, is assured. Calgary, its metropolitan city of 20,000 inhabitants, possesses largely of Americans, is a live, up-to-date city. Its retail business is in the hands of bright, progressive business men, who handle enormous stocks. There are a number of jobbing houses located there, and a home market for stock is afforded by a large packing house. Along the line of the Canadian Pacific railway in Southern Alberta, there have been twenty elevators established the past year, to be followed by thirty more next year, so that there will be no shortage for the immense crop produced in this section.

In pulling down the old cathedral at Metz a strong box has been found containing coins and watches valued at \$120,000.

**Caution.**

Imitations have been placed upon the market so closely resembling Alcock's Plasters in general appearance as to be well calculated to deceive. It is, however, in general appearance only that they compare with Alcock's, for they are not only lacking in the best elements which have made Alcock's so efficient, but are often harmful in their effects. Remember that Alcock's are the original and only genuine porous plasters—the best external remedy known—and when purchasing plasters the only safe way is to always insist upon having Alcock's.

**Uncle Allen.**  
"Let me see," mused Uncle Allen Sparks, "in the old days, when we couldn't charge it up to 'grip,' what was it we used to call this rocky sort of feeling we all have just after the Christmas festivities?"

**WORKS IN THE GARDEN.**

**Eighty-Seven Years Old, but Has a Sound Back.**

Robert Scollan, 87 years old, of 55 Garden Street, Seneca Falls, N. Y., a fine sturdy old gentleman, who works in his own garden, gives thanks to Doan's Kidney Pills for his sound back and kidneys. Mrs. G. G. G. says: "Father had a severe attack of kidney trouble and lumbago, which caused him much suffering. He began taking Doan's Kidney Pills and was soon cured. My husband was cured of bad pains in the back by taking only part of a box."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

# BAD BLOOD

## THE SOURCE OF ALL DISEASE

Every part of the body is dependent on the blood for nourishment and strength. When this life stream is flowing through the system in a state of purity and richness we are assured of perfect and uninterrupted health; because pure blood is nature's safe-guard against disease. When, however, the body is fed on weak, impure or polluted blood, the system is deprived of its strength, disease germs collect, and the trouble is manifested in various ways. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood disorders that will continue to grow worse as long as the poison remains. These impurities and poisons find their way into the blood in various ways. Often a sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, leaves the refuse and waste matters to sour and form uric and other acids, which are taken up by the blood and distributed throughout the circulation. Confining in contact with contagious diseases is another cause for the poisoning of the blood; we also breathe the germs and microbes of Malaria into our lungs, and when these get into the blood in sufficient quantity it becomes a carrier of disease instead of health. Some are so unfortunate as to inherit bad blood, perhaps the dregs of some old constitutional disease of ancestors is handed down to them and they are constantly annoyed and troubled with it. Bad blood is the source of all disease, and until this vital fluid is cleansed and purified the body is sure to suffer in some way. For blood troubles of any character S. S. S. is the best remedy ever discovered. It goes down into the circulation and removes any and all poisons, supplies the healthful properties it needs, and completely and permanently cures blood diseases of every kind. The action of S. S. S. is so thorough that hereditary taints are removed and weak, diseased blood made strong and healthy so that disease cannot remain. It cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, etc., and does not leave the slightest trace of the trouble for future outbreaks. The whole volume of blood is renewed and cleansed after a course of S. S. S. It is also nature's greatest tonic, made entirely of roots, herbs and barks, and is absolutely harmless to any part of the system. S. S. S. is for sale at all first class drug stores. Book on the blood and any medical advice free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

**MYSTERY OF BOY'S POCKET.**

**Pupil in Public School Forced to Unload After a Mysterious Drop.**

Anyone of a curious turn of mind who will take the trouble to get at the statistics will find that figures don't lie with regard to the number of things a small boy can get into his pockets. They simply give out.

In one of the public schools the teacher recently turned her sternest gaze toward a lively 12-year-old who had dropped a heavy marble on the floor with a thud that stopped the recitation. At the moment of her intensest scrutiny, when the urchin was doing his level best to feign innocence, a diabolical smaller marble dropped from his pocket and rolled across the floor after its mate.

That settled it. Abashed and shrinking, the culprit came forward. At the command to remove every article in his pockets he hesitated. He held out against this unexpected outrage upon a sacred institution as long as he dared, but before the birch rod began its fell work the urchin submitted.

His first handful contained three pieces of copper wire (insulated), one piece (not insulated), two old purses, a suspender fastener, eleven street car transfers and a tin whistle. As he reached again a look of fiendish joy came over his freckled face. One article came out. It was a live mouse. The teacher clutched her skirts nervously while it was being removed.

Then the investigation proceeded. When it was over 116 articles had come from the boy's pockets. They are catalogued as follows, besides those mentioned:

- Two picture cards, one shoelace, one tobacco sack, one piece of ribbon, one broken watch, four election cards, one car ticket, seven tobacco cards, two tobacco tags, one tin monkey, one fishhook, one mirror (broken), one good mirror, one wooden ax, one Hoolligan pin, two screws, one rubber washer, one playing card, two buttons, thirty-seven agate stones, seven marbles, two books, one tobacco coupon, three pieces of orange peel, two blank cartridges, one loaded cartridge, three corks, one pencil, two matches, one key, half a cigarette, one punched penny, one locket, two rapiers, one broken comb, one cuff pin and a piece of candy.—New York Times.

**Rare Skeleton Is Found.**

There arrived in this city last week for the Museum of Natural History the skeleton of a loxolophodon. It was unearthed in southern Wyoming, where the great beast roamed in large numbers many centuries ago, by an expedition sent out from the museum by Professor Walter Granger. Speaking of the success attending the search, Professor Granger said:

"We found the skeleton of the largest mammal living at the time and for which we made careful search. This huge mammal was known as the loxolophodon, a mixture of elephant and rhinoceros. It had six horns—two enormous ones in the back of the skull, two smaller ones over the eyes and two rudimentary horns on the tip of the nose.

"We obtained an interesting lot of the skeletons of the titanotheres, a smaller animal than the last; numerous specimens of the carvora, including the largest of the time, the mesonyx; many rodents, or squirrel-like mammals; some of the earlier camel-like, even-toed, hoofed mammals; an achenodon, one of the very large, even-toed animals, with piglike teeth and feet and an early primate like the lemurs, notharctus. In all we obtained 100 species by the Washakie basin, 100 in the Bridges basin and forty in the Wahsatch basin."—New York Tribune.

**The Wonderful Chinese.**

Hlg Osh, emperor of China and founder of the Bing dynasty, was famous for the number of things in which he anticipated our present civilization.

One day, after sitting awhile in deep thought, he called his equerry to him. "Harness Niagara," he commanded, briefly. And it was done. Of course, it is with no invidious wish to detract from the splendor of this achievement, incredible as it undoubtedly seems, that we add the further fact that Niagara was the emperor's old hay mare.—Puck.

**All His Own.**

"Yes," said Woody, "this is my coat-of-arms."

"By the way," remarked Gaddie, "do you know that Snerwell has been telling everybody that it's not really your coat-of-arms at all?"

"The Idea! Why, I designed it myself."—Philadelphia Press.

**Slight Mistake.**

"Walter, what does this mean? Twenty-five francs for two hard boiled eggs?"

"Very sorry, sir. Slight mistake, sir. I've given you the bill intended for the American at the next table."—Polo Mele.

**Birds of a Feather.**

Mouquin—How do you like the weather these days?  
Beaufort—Exceedingly disagreeable.

Mouquin—And how is your wife?  
Beaufort—The same, thank you.—Le Rite.

**Hard to Shake Off.**

Hewitt—He sticks closer than a brother. Jewett—Yes; he sticks like a church debt.—Woman's Home Companion.

First impressions of dental students are seldom the best.

# Hood's Sarsaparilla

Has surpassed all other medicines, in merit, sales and cures. Its success, great as it has been, has apparently only just begun. It has received by actual count more than 40,000 testimonials in two years. It purifies the blood, cures all blood diseases, all humors and all eruptions. It strengthens the stomach, creates an appetite and builds up the whole system. It cures that tired feeling and makes the weak strong. In usual liquid form or in chocolate tablets known as Sarsatabs. 100 doses \$1.

The farms of the United States cover 841,000,000 acres, and employ nearly 10,500,000 people.

**FITS** permanently cured by Dr. King's Great Nerve Restorer, Sold by FREE: Extra bottle and treatise, Dr. H. H. King, 141, 9th St., Philadelphia.

The total commerce of Abyssinia is about \$9,500,000 a year.

**PREL CURED IN 6 TO 14 DAYS.** PAZO OINTMENT is guaranteed to cure any case of itching, blind, bleeding or protruding piles in 6 to 14 days or money refunded.

Japanese and Germans have the same average brain weight.

**Conclusive Reasoning.**

A little elderly German who keeps a stationer's shop amuses and interests himself by making up stories about his customers and telling them to his family.

"Dat young lady who has de pink cheeks, she be married soon, I tink," he announced one night.

"Now, my Carl, you know nottings of her whateffer, is it not so?" and his wife tried to look as if she did not think him a wonderfully clever man.

"It is like dis," said the stationer, solemnly. "I observe, and I know. At first she buy paper and envelopes de same; later she buy twice as more paper, and den five times as more paper as envelopes. So I know she is become betrothed."

"And to-day," he said, beaming with pleasure, "to-day she buy only one half-dozen envelopes and five times as more paper; and when I tell her she get dem cheaper if she buy many, she say to me, 'I have no need of more.' Thank you, so I know de friend he comes soon, and so comes de marriage on quicky."

# Harvesting Dollars

is possible if the seed be judiciously planted. Southern Alberta, Canada, has demonstrated beyond a doubt that it is the greatest cereal growing country on the continent, and "Alberta Red Wheat" grown there took both the Gold and Bronze medals at the Portland Exposition.

The Canadian Pacific Railway Company has 3,000,000 acres of the best of land, irrigable and non-irrigable, just east of Calgary, Alberta, which they are selling at from \$12 to \$15 per acre for non-irrigable and \$18 to \$25 per acre for irrigable.

Lands sold by them three months ago at these prices are now being held by the purchasers at \$50 per acre and upwards. The harvesting of dollars invested in these lands is just as certain as the harvesting of cereals.

If you are interested drop a card to the address below for literature fully describing the opportunity of the age.
