GEORGE COMER.

Preachers in Cottage Grove are citizens, voters and some of them are tax-payers. They have children and are interested in the schools and welfare of the city. They have wives and daughters to protect, property and investments, which interests they have a right to look after.

Their right to a choice in the management of municipal affairs is as indisputable as the right of any other individual in the city, not on account of their being preachers, but because they are citizens.

With one or two more tickets, headed by good men, the voters must take their choice, we cannot vote for two men, no matter how good they are, for the same office. With a number of tickets in the field, headed "Citizens," "Peoples," or "Tax-payers," ticket, it all means the same, and does not tend towards healing the overlasting feud that seems to exist to the great detriment of our city. There are good men, prominent business men and tax-payers on both sides. Why not in the future hold two conventions, call one a republican ticket and the other a democratic ticket, then each side would know where to look for their support, and voters would be less subject to criticism and a miserable hereafter.

Found at Last.

J. A. Harmon, of Libmore, West Va., says: "At last I have found the perfect pill that never disappoints me; and for the benefit of others afflicted with torpid liver and chronic constipation, will say: take Dr. King's New Life Pills." Guaranteed satisfactory. 25c at Benson's Pharmacy.

Returns From Bohemia.

Dr. Job has returned from a week's stay in Bohemia where he was caring for Mr. Powell who was injured by a fall in the Champion mine. The Dr. reports rapid improvement and says his patient will soon be at work again.

DAVID FINN ON LOCAL ISSUES

[Continued from first page.]

manifest in the fact that nearly as many saw logs as are sawed at the mill here are cut in our forests, run through our town and manufactured in Eugene, and I fear more

and more of this will be done in the future unless we give the matter our attention and devise ways and means for the manufacturing of all timber cut within our own territory, at home. It stands us in hand to look out for the influence of Eugene. The University and county buildings being established there gives her advantages over us that we must counteract. If we do not forestall her she will influence and induce manufacturing capitalists to establish their headquarters and business there for the purpose of manufacturing our timber within her borders and thus rob us of our heritage. To make matters still worse I have also perceived that she is boldly laying claim to all our territory just as if we did not exist at all. I have also noticed that some of our people do the most of their trading there and quite a few go there for bargains on costly articles. We should be on the look out to stop all this as much as possible for if it continues all that will be necessary to make Cottage Grove a mere suburb of Eugene is the connection of both cities by an electric car line, when our destiny will be determined. Unless we see to getting sawmills and factories, machine shops etc. established soon, all other efforts towards building up our city will be in vain. This is, naturally a manufacturing center and if we look out for it, accordingly, we cannot fail in building up one of the best and wealthiest cities in the Upper Willamette valley and second to no other city from here to the Sacramento valley.

In bringing this about we have no delicate, fastidious, visionary or occult task to perform. We should not engross our minds with such trash, sawmills, factories, machine shops etc. are what we want. One good sawmill is worth more towards the maintenance of and building up of the city than a dozen stores. In fact, the sawmill man is our greatest benefactor. We should get such men here and when here we should cheer and encourage them. They reach outside for money to run their business with and distribute it among us through their employes. We should also encourage and cheer their employes furnish them entertainment and keep them with us, contentedly, as far as practicable.

The same can be said of mine owners and their employes.

Thus, reviewing our resources and having taken into consideration our duties relative thereto and keeping our eye on our ambitious rival down the line. We are better prepared to enter up the object and purpose of the mass convention to be held March 22d. Something must be done in a business-like way not in a spiritual way to take care of our heritage, pay our debts and running expenses of the city. God helps him who helps himself. And it is as important to know how to live as it is to know how to die. It is with reluctance that I mention this for I have profound regards for anything pertaining to religious matters; but it is better to mention it than to think it and not mention it; and mentioning it, I do so with all due deference for the ministers of the Gospel and not with malice or contempt, but with sorrow and regret at seeing the ermine of the church tramped in political affairs of this city for the purpose of influencing our elections and officials in their ways, purposes and designs, contrary to the mandates of God who ordered the things that are Caesar's to be rendered unto Caesar and the things which are God's to be rendered unto God. Thus separating the state from the church absolutely.

We cannot run the affairs of this city successfully, so long as our caucuses, conventions, elections, officials, rules, regulations and ordinances are influenced and interfered with by ministers any more than church affairs can be conducted successfully, influenced and interfered with by politicians. They have no more right to take exceptions to our manner of conducting our affairs than we have to object to their gymnastics or bloomers, merely because, we never heard of the Lord turning summersaults.

Graphophone FREE

Occasionally persons desiring to purchase a Graphophone conclude that they can secure a lower price on a machine by buying at Eugene, Portland, or by sending East. We want to make those persons the following proposition:

Anyone laying proof before us to the effect that they or any of their friends have purchased, or can purchase, any type of Edison, Columbia or Victor Graphophone or records at any of the above mentioned places, any cheaper than we are selling the same, will be given a Graphophone absolutely free. Every agent is bound by the same contract to sell only at the prices fixed by the factory and any agent doing otherwise is promptly suspended.

When you buy elsewhere you are simply out the express, freight or your car fare in transaction.

Buy from your local dealer who is here to stay and make good all guarantee.

NOTIONS and NOVELTIES

The Bazaar.

They may be right and we will take it for granted that they are right, but we want them to extend to us a similar courtesy.

Hence, the calling of the convention March 22d, 1907, at the Masonic Hall as per notice published in the paper.

DAVID FINN.

Lost.

Between Creswell and Cottage Grove, a long white envelope containing important papers of the International Correspondence School. Finder returning same to under signed will receive a reward.
