Rich New Zealand.

New Zealand, the land where there is neither pauper nor millionaire, seems to be prospering under the most "advanced" system of laws enforced anywhere on earth.

The high commissioner of the colony in London has received in a cablegram the following statistics for 1906:

Population, 909,000; value of imports, \$74,214,000; value of exports, \$78,350,000; Principal exports: Wool, \$32,484,000; frozen meat \$14,000,000; butter, \$7,604,000; phosphorus, \$3,776,000; kauri gum, \$2,686,000; cheese, 1,664,000; output of sawmills, \$10,220,000; output of grain mills, \$5,144,000; output of breweries, \$2,786,500; and output of bacon factories, \$1,236,000.

A Wellington correspondent of the London (daily) Times states that with an increase of \$10,000,000 in the value of New Zealand exports the colony could not well be otherwise than prosperous.

The total commerce of New Zealand is \$166 for each inhabitant. That of the United States is about \$34 for each inhabitant; that of Great Britain itself \$122 for each inhabitant.—New York World.

Eradicate Saloons by Substitution.

In order to study the saloon problem at first-hand an eastern minister donned the habiliments of a tramp and spent several weeks hanging around liquor shops. Then he returned to his congregation and told them a few things. He told them that the saloonkeeper found it a good investment to maintain a watering trough for horses, for while the horses were drinking the teamster stopped in and got one for himself. The saloon doors were always open and a hungry man could always find food therein. He told them that the saloonkeeper was always kindly, always sympathetic and always ready to help. Then he wound up by saying: "For \$500 some men join exclusive political and social clubs on the avenue of the metropolis. For \$5 some men join Young Men's Christian Association clubs, but for 5 cents the multitude of men whom only God and the saloonkeeper and the ward boss know nightly join the one democratic club in American saloon." His conclusion was that if the saloons must be eradicated it must be done by substituting for it something that will furnish the social element so craved by men without mixing with it the ills of the saloon.

Will accept wood for renewals of subscriptions at this office.

SOUTH DAKOTA DIVORCE REFORM

People Grown Tired of Their State Being Held up to Ridicule.

The most striking and gratifying evidence of the growth of the sentiment against easy divorce is seen in the action of the Legislature in South Dakota. That body has just passed a law requiring a residence of one year in the state and three months in the county before a divorce action can be brought, and providing that all divorce hearings shall be in open court.

That is a blow at the Sioux Falls divorce colony, and the dispatches indicate that the bill was passed for just that purpose. The citizens of South Dakota have grown tired of being held up before the country as people willing to let out the machinery of their courts for farcical divorces, in order to attract men and women who are expected to spend money lavishly during their temporary sojourn in the state. In putting an end to that scandalous condition South Dakota has merely followed the example of other states western and eastern. It is not so long ago that the city of Chicago was the Mecca for easy-divorce seekers, and that a stock subject for jokes in the comic papers was the encounter of first, second and third ex-husbands and wives in the fashionable society of that city. South Dakota is growing more wealthy, more populous and as it grows in material things, it develops a higher sense of morality and of its responsibility to the rest of the country. The growth of that sense will finally put an end to all divorce colonies. If people are to be relieved from intolerable marital relations by law, they should at least have reasons so weighty that they are not ashamed to stand up among their neighbors and proclaim them.

GOT THEIR EYES OPEN AT LAST.

Referring to the large increase in gold production, a strong Bryan paper of 1896, says:

"This immense expansion has had two important consequences. It has permitted several countries to adopt the gold standard in the past ten years, Mexico being the latest of them to make this change. It has helped to quicken all sorts of industries and to send prices and wages up. These effects have been felt in all the great countries of the world, but particularly in the United States."

Everyone of mature age remembers the effort made by Bryan and his followers in 1896, to make the people believe that unless 50 cents worth of silver was declared to be worth one dollar by merely minting it, the country would go to the bow-wows. But through the Republican party, assisted by Democratic patriots the free silver craze was killed and buried for ever, and the worst of the fanatics are tumbling over one another to applaud the result of the policy they condemned, their eyes being opened at last.

There are many kidney remedies but few that accomplish the result. "Pineules" is a kidney remedy that contains no alcohol or opiates of any kind, complies with the National Food and Drug Law, guaranteed to give satisfaction. Thirty days treatment for \$1.00. Inquire about "Pineules." Sold by New Era Drug Store.

May Become Popular.

Somebody has introduced hugging societies to swell church and lodge treasuries, and affixed the following scale of prices; Girls under sixteen, 12 cents, for a 2-minute hug, or 10 cents for a short squeeze; from 16 to 20 years, 50 cents; school marm, 40 cents; another man's wife, \$1; widows, according to looks from 9 cents to \$3; old maids, 3 cents apiece or two for 5 cents, no time limit; Editors pay in advertisements but are not allowed to participate until everyone else is through.
