There is a field for investment in the logged-off lands. It covers a diversity of crops that make up the mixed farming idea of modern agriculture. The soil is rich, the climate perfect, and the chances for success are as great as in any district in the world. The fact that grass grows green every month in the year shows the value of the country as a dairy region. That there is a growing demand for hay makes it doubly valuable for producing that crop. And there are thousands of acres of logged-off lands lying idle awaiting the hand of man for clearing away the logs and stumps and making the fields rich producers.

The time is not far in the future when all the available tracts of logged-off lands will be utilized in producing farm crops. The army of homeseekers increases every year. More people get away from the centers of population in quest of homes of independence. And there is more independence on the farm of today than at any time since the beginning of history. Here is another field for the investigation of the young man of today. And they should not spend too much time in making those investigations, for the lands are in demand, and will soon be occupied by energetic men and women looking for homes and plenty on modern farms.

Mix This At Home.

The following simple home-made mixture is said to readily relieve and overcome any form of rheumatism by forcing the kidneys to filter from the blood and system all the uric acid and poisonous waste matter, relieving at once such symptoms as backache, weak kidneys and bladder and blood diseases.

Try it, as it doesn't cost much to make, and is said to be absolutely harmless to the stomach.

Get the following harmless ingredients from any good pharmacy: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle and take a teaspoonful after each meal and again at bedtime.

This simple mixture is said to give prompt relief, and there are very few cases of Rheumatism and Kidney troubles it will fail to cure permanently.

These are all harmless, every-day drugs, and your druggist should keep them in the prescription department; if not, have him order them from the wholesale drug houses for you, rather than fail to use this, if you are afflicted.

Queen Victoria of Spain has given birth to a son, who if he lives will be the future King of Spain. This may be a matter of supreme importance to the Spanish people, but we fail to see why the American people should be so immensely tickled over the event or why it is so important an event as to require big double-column, scarce heads and lengthy editorial mention in our leading newspapers. One local birth in any American town or village is of vastly more importance to this country. While the

Spanish people regard it as an important event now, before the boy becomes of age, he may wish he had been born a girl or not at all.
