JOSEPHINE COUNTY CAVES

A Hotel to be Erected and a Newark to be Made of This Natural Cavern.

Grant's Pass, Co., Sept. 24.—Work is now being pushed forward on the project of erecting a hotel and a large building in the shape of the Newark at Grant's Pass. This project has been on foot for several years, but the earlier settlement of the county has now made it possible to embark in the enterprise.

The land on which these buildings are to be erected is owned by Mr. E. M. Lilly, who was one of the first settlers in the county. He has been a leading citizen for many years, and has always been interested in the development of the country.

The hotel will be a substantial structure, with a number of comfortable rooms. It will be well appointed and will accommodate a large number of tourists.

The Newark will be a fine example of the type of building that is so much in demand in the West. It will be a beautiful structure, with excellent accommodations for the comfort of its guests.

In conclusion, the project of erecting a hotel and a Newark at Grant's Pass is one that will be of great benefit to the county. It will provide a fine center for the accommodation of visitors, and will add much to the comfort and convenience of those who come to enjoy the natural beauty of the country.

A PATERNAL GOVERNMENT

Some of the Features Might be Adopted to the Benefit of the United States.

In New Zealand the government owns the railways, telegraphs, and canals. The government also extensively engages in mining and in the development of public works. The government is able to do this because it has a large revenue from land sales and other sources.

The government also owns and operates the railways and telegraphs. It is able to do this because it has a large revenue from land sales and other sources.

The government also owns and operates the railways and telegraphs. It is able to do this because it has a large revenue from land sales and other sources.
